

Joint Crypt Key Programme Client Side Support - PMO and Project Delivery Support

Buyer: Ministry of Defence

Description:

The Joint Crypt Key Programme requires Client Side support to deliver PMO and Project Delivery functions. Please note at Stage 2 a Statement of Work, Written Proposal, two Case Studies, and Work History for Key Staff will form part of the evaluation criteria.

In order to continue to deliver this transformative requirement, the joint NCSC/MOD team has been reconfigured and requires additional Client Side Support to augment the current team of Crown Servants. This procurement is one of 3 to establish a PMO function and additional capacity to Deliver and Manage the constituent projects alongside a Business Change capability and a Strategic Planning function. The supplier will be required to deliver a full PMO function for JCKP, integrated into the Crypto and Defensive Cyber Programme Integration Office and into NCSC in addition to management of a workstream within the programme and a number of sub-projects
