

## GNSS Simulator

Buyer: NAVAL AIR WARFARE CENTER

---

### Description:

The Naval Air Warfare Center Weapons Division (NAWCWD), China Lake requires the purchase of a new Global Navigation Satellite System (GNSS) Simulator. A GNSS Simulator is a computer equipped with radio frequency (RF) equipment that generates Global Positioning System (GPS) signals virtually identical to the signals produced by actual GPS satellites. A controlled, customizable simulation of GPS signals allows users to test GPS equipment and develop and evaluate GPS and navigation scenarios that may occur in the field. \*Visit 'https://piee.eb.mil/sol/xhtml/unauth/search/oppMgmtLink.xhtml?solNo=N6893622Q0041' to obtain more details.\*
