REQUIREMENTS 3.1 Cage Code/Reference Number Items - The AMP MODULE repaired under this contract/purchase order shall meet the operational and functional requirements as represented by the Cage Code(s) and reference number(s) listed below. All repair work shall be performed in accordance with the contractors repair/overhaul standard practices, manuals and directives including but not limited to drawings, technical orders, manufacturing operations, tooling instructions, approved repair standards and any other contractor or government approved documents developed to provide technical repair procedures. CAGE___Ref. No. ;12763 60173-300 ; 3.2 Marking - This item shall be physically identified in accordance with ;MIL-STD-130, REV N, 16 NOV 2012; . 3.3 Changes in Design, Material Servicing, or Part Number - Except for a Code 1 change, which shall be processed as provided in the code statement shown below, no substitution of items shall be made until the NAVICP-MECH Contracting Officer has notified and approval has been given by issuance of a written change order. When any change in design, material, servicing or part number is made to replace or substitute any item to be furnished on this contract/purchase order, the Contractor shall furnish, for the substituting/replacement item, a drawing and an explanation of the reason for the change, explaining the reason therefor. If finished detail drawings are not available, shop drawings in the form used by the manufacturer will be acceptable for Government evaluation. When notifying the Procurement Contracting Officer of the reasons for making substitutions, the type of change shall be indicated by code number in accordance with one of the following statements: Code 1: PART NUMBER CHANGE ONLY - If the Manufacturer's Part Number indicated thereon has changed, but the parts are identical in all respects, supply the item and advise NAVICP-MECH immediately of the new part number. Code 2: Assembly (or set or kit) not furnished - Used following detail parts. Code 3: Part not furnished separately - Use assembly. Code 4: Part redesigned - Old and new parts are completely interchangeable. Code 5: Part redesigned - New part replaces old. Old part cannot replace new. Code 6: Part redesigned - Parts not interchangeable. 4. QUALITY ASSURANCE 4.1 Responsibility for Inspection - Unless otherwise specified in the contract/purchase order, the Contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract/purchase order, the Contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements. 4.2 Responsibility for Compliance - All items must meet all requirements of this contract/purchase order. The inspection set forth in this specification shall become a part of the Contractor's overall inspection system or quality program. The absence of any inspection requirements shall not relieve the Contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract/purchase order. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material. 4.3 Records - Records of all inspection work by the Contractor shall be kept complete and available to the Government during the performance of contract/purchase order and for a period of 365 calendar days after final delivery of supplies. 4.4 Inspection/Testing Repaired Items - The Contractor shall perform all inspection and testing requirements as specified in the original manufacturer's specifications and drawings. 5.
