Reference Number : 89927  
Link to Atlas Project :  
00117162 - Support to UNRCS Lesotho  
Overview :

The Government of Lesotho has allocated a residential house for the UN Resident Coordinator in Lesotho, the house is located at House No 196, Maseru West, Tona-kholo road, It is a 3 bedroomed house with 2 bathrooms, lounge, dining and foyer, kitchen, home office, 3 servants quarters and a single garage, with a yard of over 1000 square meters. The house has been used by the UN in Lesotho and maintained by the occupants over the years, after a recent assessment by Ministry of Works on the condition of the house, the assessment revealed that the house has some structural deteriorations which needs extensive renovations, including replacement of the entire roof, the kitchen cabinets, ceiling, tilling and flooring, there are cracks on the walls and the interior and exterior wall need to be repainted.

We are therefore requesting for a qualified contractor to undertake the renovations.
