-----	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

Note 1: The total Useable area required by the department is **480m²**. The Department will therefore pay only for a maximum space requirement of **480m²**. Useable space in excess of the requirement will not be paid for by the Department.

In order to simplify the calculation of spatial requirements the “**Useable Area**” of the Building is to be used (as calculated by using the **SAPOA** method of measuring). This has no influence on the income generating value of the rentable space. The value of the common area is to be **added** to the rate per m² of the useable area.

The reasoning is that all buildings have different R/U Ratio (Rentable area divided by Useable area) due to design criteria which could differ by up to 30%.

For the purpose of ensuring that the actual **USEABLE** area is provided, it is essential that when calculating the **COMMON** area, both **Primary and Secondary Common** areas are to be factored in. Therefore, the Secondary common area shall remain part of the Common area and **NOT** be included in the USEABLE area as is defined in clause 1.2.4 of the SAPOA method of measuring.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
