

The figure shows three graphical scales for different drawing ratios:

- 1:25 Scale:** A horizontal line with a total length of 100 mm. It is divided into 10 equal segments, each representing 10 mm. The first segment is further divided into 10 smaller segments, each representing 1 mm. The scale is labeled "MILLIMETRES" and "1:25".
- 1:75 Scale:** A horizontal line with a total length of 100 mm. It is divided into 4 equal segments, each representing 25 mm. The first segment is further divided into 10 smaller segments, each representing 2.5 mm. The scale is labeled "MILLIMETRES" and "1:75".
- 1:5 Scale:** A horizontal line with a total length of 100 mm. It is divided into 2 equal segments, each representing 50 mm. The first segment is further divided into 10 smaller segments, each representing 5 mm. The scale is labeled "MILLIMETRES" and "1:5".
