TRAINING SPECIFICATION:

Name of intervention: Certified International Privacy Professional course
Duration :4 days
Mode of training: Online
Accreditation: Not sure

Content:
Data protection laws
Introduces key European data protection laws and regulatory bodies, describing the evolution toward a harmonised legislative framework.
Personal data
Defines and differentiates between types of data as defined by the GDPR, including personal, anonymous, pseudonymous and special categories.
Controllers and processors
Describes the roles and relationships of controllers and processors as defined by the GDPR.
Processing personal data
Defines data processing and GDPR processing principles, explains the application of the GDPR and outlines the legal grounds for processing personal data.
Data subject rights
Describes data subject rights, applications of rights, and controller and processor obligations as set out in the GDPR.
Information provision obligations
Explains controller obligations for providing information about data processing activities to data subjects and supervisory authorities as set out in the GDPR.
International data transfers
Outlines options and obligations under the GDPR for transferring data outside the European Economic Area, including adequacy decisions and appropriate safeguards and derogations.
Compliance considerations
Discusses the applications of European data protection laws, legal bases and compliance requirements for processing personal data in practice, including employers processing employee data, surveillance, direct marketing, and internet technology and communications.
Security of processing
Discusses considerations and duties of controllers and processors for ensuring security of personal data and GDPR specifications for providing notification of data breaches.
Accountability
Investigates accountability requirements, including data protection management systems, data protection impact assessments, data protection policies and the role of the data protection officer.
