10. The Security Deposit furnished by such tenderer in respect of his tender will be returned to him upon complete fulfillment of the tender period or the extended period, if any, to the satisfaction of the Chief Executive Officer, Tamil Nadu Livestock Development Agency.

EVALUATION

11. The cover 'A' of the tenderers will be opened and the documents will be scrutinized and the Cover 'B' of only those tenderers who have submitted the required documents, and are found to fulfill the eligibility conditions and comply with the tender conditions will be opened.
12. Price negotiations will be held as per the Transparency in Tenders Act and rules with the eligible tenderer who has offered the least price.

AGREEMENT

13. The tenderer whose tender is accepted shall execute an agreement on a non-judicial stamp paper for a value of Rs.100/- (stamp duty to be paid by the tenderer) with the Chief Executive Officer, Tamil Nadu Livestock Development Agency, Chennai, within 10 days from the date of receipt of the intimation by him that his tender has been accepted.

PRICES AND OTHER CONDITIONS

14. The details of items and works required are shown in Annexure-V.
15. A copy of the tender conditions and the Schedules should be signed by the tenderer at the bottom of each page with the office seal duly affixed and returned along with the tender. An index with page number for the certificates, Earnest Money Deposit etc. should be enclosed with the Tender Document.
16. Tenders should be typewritten and every correction in the tender should be attested with full signature by the tenderer with date before submission of the tenders to the authorities concerned, failing which the tender will be ineligible for further consideration. Corrections done with correction fluid should also be duly attested.
17. The tenderers should quote the rates in Annexure VIII for the item and works described as per the specification in Annexure V. Any omission will result in the rejection of the tender.
18. Rates quoted should be inclusive of basic price, packing forwarding, freight and insurance, import duty and GST. The GST suffered shall be shown separately.
19. Each tender must contain not only the rate but also the total value of the item quoted for supply in the respective columns. The aggregate value of the item quoted in the tender shall also be furnished [Annexure VIII].
20. The price quoted by the tenderers shall not in any case, exceed the controlled price, if any, fixed by the Central / State Government and the Maximum Retail Price (MRP). The purchaser at his discretion will in such case exercise, the right to revising the price at any stage so as to conform to the controlled price or MRP as the case may be. This discretion

will be exercised without prejudice to any other action that may be taken against the tenderer.

21. The rates quoted and accepted will be binding on the tenderers for the stipulated period and on no account will any increase in the price be entertained till the completion of this tender period.

NOTE: No tenderer shall be allowed at any time on any ground whatsoever to claim revision of or modification in the rates quoted by him. Clerical error, typographical error etc., committed by the tenderers in the tender forms shall not be considered after opening the tenders. Conditions such as “SUBJECT TO AVAILABILITY” “SUPPLIES WILL BE MADE AS AND WHEN SUPPLIES ARE RECEIVED” etc., will not be considered under any circumstances and the tenders of those who have given such conditions shall be treated as incomplete and for that reason, shall be summarily rejected.

22. If at any time during the period of contract, the price of tendered items is reduced or brought down by any law or Act of the Central or State Government or by the tenderer himself, the tenderer shall be bound to inform the Chief Executive Officer, Tamil Nadu Livestock Development Agency, Chennai immediately about such reduction in the contracted prices. The Chief Executive Officer, Tamil Nadu Livestock Development Agency, Chennai is empowered to unilaterally effect such reduction, as is necessary, in rates, in case, the tenderer fails to notify or fails to agree for such reduction of rates. Tenderers are requested to indicate the percentage of the GST to be charged for the item quoted **with proof**. In case of any enhancement in GST / reduction in GST due to Statutory Act of the Government after the date of submission of tenders and during the tender period, the clearance of additional GST so levied will be allowed to be charged extra as separate item without any change in price structure for the establishing and commissioning of establishing and commissioning of chicken slaughter line of 500 birds per hour capacity at The Advanced Institute For Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot road, Salem District approved under the tender. For claiming the additional cost on account of the increase in GST, the tenderer should produce a letter from the concerned authorities indicating the increase in GST for the supply made to TNLDA. Similarly, the reduction of GST to be brought to the notice of TNLDA with the letter from GST authorities.
23. The tenderer has to establish and commission a chicken slaughter line of 500 birds per hour capacity at The Advanced Institute for Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot road, Salem District as specified in the tender. In case of any deviation, the tender is liable for rejection.

24. The supplies/works will be deemed to be completed only upon receipt of the quality certificates from the institution(s) who receives the items tendered. Supplies, which do not meet quality requirements and statutory standards, shall render the relevant items to be rejected. The tenderer shall also not be eligible to participate in TNLDA tenders for the establishing and commissioning of chicken slaughter line of 500 birds per hour capacity at The Advanced Institute for Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot road, Salem District during the subsequent year.
25. The decision of the Chief Executive Officer, Tamil Nadu Livestock Development Agency, Chennai, or any Officer authorized by him as to the quality of the tendered item shall be final and binding.

ACCEPTANCE OF TENDER AND SUPPLY CONDITIONS

26. The Chief Executive Officer, Tamil Nadu Livestock Development Agency reserves to himself the right to reject the tenders or to accept the tenders for the supply of the item tendered and execution of the works as in the tender without assigning any reason.
27. The Chief Executive Officer, Tamil Nadu Livestock Development Agency will be at liberty to terminate without assigning any reasons thereof, the contract either wholly or in part, on one month notice. The tenderers will not be entitled for any compensation whatsoever in respect of such termination.
28. The acceptance of the tenders shall be communicated to the tenderers in writing.
29. The Purchase Order shall be placed by Tamil Nadu Livestock Development Agency on execution of the agreement and remittance of the security deposit.
30. The establishing and commissioning of chicken slaughter line of 500 birds per hour capacity at The Advanced Institute for Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot Road, Salem District should be completed within **120 days** from the date of receipt of firm order. If it is not completed within **120 days** from the date of receipt of firm order, penalty shall also be levied on the tenderer as per this tender document. He shall also suffer forfeiture of Security Deposit. However, the Chief Executive Officer, TNLDA at his discretion can accept delayed supply with appropriate liquidated damages, which will be a sum equivalent to 0.5% of the delivered price of the delayed goods for each day of delay until actual delivery, upto a maximum deduction of 10% of the total contract price.
31. If the tenderer fails to execute the project within the stipulated time, TNLDA is empowered to make alternative arrangements and claim the difference in total cost from the tenderer in addition to other penal clauses.

32. The Chief Executive Officer, TNLDA or his authorized representative(s) has the right to inspect the factories of those companies who have quoted for the tender, before, accepting the rate quoted by them or before releasing any order(s) or at any point of time during the continuance of tender and has also the right to reject the tender or terminate / cancel the orders issued or not to re-order based on facts brought out during such inspections.

PAYMENT PROVISIONS

33. No advance payments towards the cost of the establishing and commissioning of chicken slaughter line of 500 birds per hour capacity at The Advanced Institute for Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot Road, Salem District will be made to the tenderer.
34. Payments for the establishing and commissioning of chicken slaughter line of 500 birds per hour capacity at The Advanced Institute For Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot road, Salem District will be considered only on the basis of reports (Certified Stock Entry Invoice) received from the Consignee Officers of the Department of Animal Husbandry / to whom the consignment is addressed, regarding the quantity received and quality of the received goods and works executed against the purchase orders.
35. If the successful tenderer fails to execute the agreement and or deposit the required security within the time specified or withdraw his tender after the intimation of the acceptance of his tender has been sent to him owing to any other reasons, he is unable to undertake the contract, his contract will be cancelled and the Earnest Money deposited by him along with the tender will be forfeited. He will also be liable for all damages sustained by the TNLDA or its participating agencies due to his failure; including the liability to pay any difference between the prices accepted by him and those ultimately paid by the indenting authority for the procurement of the articles concerned. Such damages shall be assessed by the Chief Executive Officer of Tamil Nadu Livestock Development Agency whose decision will be final and the amount so assessed will be recoverable by proceeding under the Tamil Nadu Revenue Recovery Act 1864 (Madras Act. II of 1864 as an arrear of Land Revenue).
36. If any of the articles which the tenderer has failed to supply is not available in the local market or if it is not possible for the Chief Executive Officer, Tamil Nadu Livestock Development Agency to purchase it in time, for the requirements of the institution, it will be open to the CEO, or to any persons authorized by him on his behalf to purchase a

substitute for the said article/item and to recover the difference in cost from the tenderer, if any, between the price or prices of the substituted articles which may be purchased or the money which may have been paid for the same.

37. The opinion of the Chief Executive Officer, Tamil Nadu Livestock Development Agency as to the availability of the articles in the local market and as to whether it is not possible to purchase it in time for institution requirement and as to the nature and quality of the substitute to be purchased is final and binding on the tenderer.
38. No claims shall lie against the Tamil Nadu Livestock Development Agency, Chennai in respect of interest on Earnest Money Deposit or on Security Deposit.

PENALTIES

39. If any of the items supplied by the tenderer which have been put to use are subsequently found to be defective, unsound, and inferior in quality or description or are otherwise faulty or unfit for use, then the contract price or prices of such articles/items or things will be recovered from the tenderer. The tenderer will not be entitled to any payment whatsoever for such article/item.
40. For infringement of the stipulations of the contract or for other justifiable reasons, the contract may be terminated by the Chief Executive Officer, Tamil Nadu Livestock Development Agency and the tenderer shall be liable for all losses sustained by the Tamil Nadu Livestock Development Agency, in consequence to the termination which shall be recovered from the tenderer by way of adjusting the amount from the bills payable to him. In the event of such amounts being insufficient the balance shall be recovered personally from the tenderer as per law.
41. Non-performance of contract provisions such as delayed supplying, non-supplying, supply of substandard goods etc., will result in cancellation of the tender and will lead to disqualification of the firm from participating in the tender during the subsequent year.
42. The decision of the Chief Executive Officer, Tamil Nadu Livestock Development Agency, shall be final and binding.
43. In the event of any dispute arising out of the tender such dispute would be subject to the jurisdiction of the Civil Court within the city of Chennai.

WARRANTY

44. The supplier warrants that the Goods supplied under this contract are new, unused, of the most recent or current models and incorporate all recent improvements in design and materials unless provided otherwise in the Contract. The supplier, further warrants that the

Goods supplied under this contract shall have no defect arising from design, materials or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in conditions prevailing at final destination.

45. **Warranty shall be as stated in the Annexure V from the date of commissioning of the chicken slaughter line of 500 birds per hour and on acceptance by the concerned officers at the final destination indicated in the contract.**
46. The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.
47. Upon receipt of such notice, the supplier shall, with all reasonable speed, repair or replace the defective Goods or parts thereof, without cost to the Purchaser.
48. If the supplier, having been notified, fails to remedy the defect(s) within the period specified /within a reasonable period, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

SPECIAL CONTRACT CONDITIONS

49. Validity of Tender

This rate offered shall be valid for a period of **one year** from the date of opening of price bid.

50. Period

The establishment and commissioning of the establishing and commissioning of chicken slaughter line of 500 birds per hour should **be completed in 120 days** and will be deemed to be completed only on receipt and acceptance by the concerned officers at the final destination indicated in the contract.

51. Warranty

Warranty shall be as specified in the specification from the date of commissioning of the chicken slaughter line of 500 birds per hour and acceptance by the concerned officers at the final destination indicated in the Contract.

52. Terms of payments

Payment shall be made only after the completion of the establishment and commissioning of the chicken slaughter line of 500 birds per hour and on receipt of such satisfactory reports and certified invoices from the officer in-charge of the institution to which the supply has been made.

53. Security Deposit

The Security Deposit will be returned to the successful tenderer after the completion of warranty period.

54. Goods and Services Tax

Tenderers are requested to quote and indicate taxes (GST) suffered.

55. Language of the Tender

The tender and all correspondences and documents related to the tender exchanged by the tenderer and the purchaser shall be written either in English or in Tamil language. Supporting documents and printed literature furnished by the tenderer may be in other language provided they are accompanied by an accurate translation of the relevant passages in either English or Tamil language, in which case, for purpose of interpretation of the tender, the translation shall prevail.

56. General

The tenderer shall meet and would be bound by all the statutory requirements (eg. the labour welfare, and the safety requirements etc.,) for the execution of the works stated as well as not stated in this document, and would be fully responsible for ensuring the adherence and the consequences of any deficiencies.

GST REMITTANCE STATEMENT

(To be filled up by the tenderer)

01. Name or style in which the applicant is assessed or assessable to GST.
02. a. Name and address of all companies, firms or associations or persons in which the applicant is interested in his individual or fiduciary capacity.
b. All Centres of business of the applicant (All Centres of business should be mentioned).
03. The districts, taluks and divisions in which the applicant is assessed to GST (All the Centres of business should be furnished).
04. Total contract amount or value of patronage received in the preceding three years.
2018 - 2019
2019 - 2020
2020 - 2021
05. Particulars of GST for the following three years.

Year	Total Turn Over assessed Rs.	Total Tax assessed Rs.	Total Tax paid Rs.	Balance due Rs.	Reasons for balance
2018 - 2019					
2019 - 2020					
2020 - 2021					

06. If there has been no assessment in any year, whether returns were submitted any, if there were, the division in which the returns were sent.

07. Whether any penal action or proceeding for the recovery of GST is pending.

08. The name and address of Branches if any:

I have enclosed the copies of the GST returns filed for the above period and I declare that the above information is correct and complete to the best of my knowledge and belief.

Signature of Tenderer:

ANNEXURE-III**SALES/PROJECTS EXECUTED -PERFORMANCE STATEMENT
(DURING THE LAST THREE YEARS)**

Name of Tenderer:

Name of the product	Year	Quantity Produced (in nos.)	Quantity Supplied (in nos.)	Name and full address of the purchaser (Proof to be enclosed)*
	2018 – 2019			
	2019 – 2020			
	2020 - 2021			

Projects Executed

Year	Name of the project	No. of projects	Value in Rs.	Name and full address of the purchaser (Proof to be enclosed)*
2018 – 2019				
2019 – 2020				
2020 - 2021				

*** Proof:**

1. Copies of Purchase Orders/work orders in the name of the tenderers
2. Copies of invoices raised by the tenderers

ANNEXURE-IV**ANNUAL TURN OVER STATEMENT**

The Annual Turnover of M/.s_____ for the past three years are given below and certified that the statement is true and correct.

S.No	Year	Turnover in lakh (Rs)
1	2018 – 2019	
2	2019 – 2020	
3	2020 - 2021	
	Total -	Rs. _____ lakh

Average turnover per annum - Rs._____ lakh.

SPECIFICATION

ESTABLISHMENT AND COMMISSIONING OF CHICKEN SLAUGHTER LINE, CAPACITY 500 BIRDS PER HOUR

Tender for Chicken Slaughter line (with Automatic Conveyor capacity line 500 birds per hour including, processing, Steel Structure, PUF Panels, Refrigeration, Internal Electrical and Plumbing work inside the building Related to Slaughter Machinery except civil work (electrical and plumbing))

Scope

Supply, delivery, installation of the equipment and machinery as per specification, quality and quantity, internal Electrical and Plumbing work inside the building Related to Slaughter Machinery, establishment of facility and commissioning of the plant and demonstration of the unit.

Site

The Advanced Institute for Integrated Research on Livestock and Animal Sciences, Thalaivasal Koot road, Salem District

Process Flow for Chicken Slaughter line, capacity 500 birds per hour

The birds are removed from the transport cages and transferred to continuously moving shackles by suspending both legs in the shackles.

The birds are usually stunned by passing their heads through a water bath. Electric current is passed in the water, once the heads of the birds touches the water the birds get stunned. Stunning produces unconsciousness to the birds, but does not kill the birds. The birds are killed after stunning through bleeding by a mechanical rotary knife which severs the jugular veins and the carotid arteries in the neck of the birds. Birds not bled by the machine if any are bled manually. The birds are permitted to bleed for a fixed amount of time, depending on size (11/2 minutes for broilers).

Scalding

After bleeding, the bled carcasses are passed through scalding tank. The tank contains hot water that softens the skin and facilitates removal of feathers. The temperature of the water to scald broilers is to be maintained at 50 °C and for spent birds at 60 °C.

Defeathering

The scalded carcasses are then passed through defeathering machine which is equipped with rubber “fingers” specifically designed to remove the feathers.

The blood and feathers accumulated are collected for safe disposal

Removal of heads and feet

The heads are pulled off mechanically; the feet are removed with a rotary knife at the hock. Then the carcasses are dropped off the shackle and are suspended by their hock to the eviscerating shackle line.

Evisceration and inspection

Then preen gland is removed and vent is opened for removal of internal organs.

The carcasses are inspected during the evisceration process. Following inspection, the carcasses are further cleaned. The viscera are separated from the carcasses, and the edible offal are separated from the inedible offal. The heart, stomach and liver are all considered edible offal and are independently processed. Stomachs are generally cut open and the inside yellow lining of the stomach along with the stomach contents are removed.

Water chilling

Water chilling is used throughout Counter current flow of cold water is used to lower the temperature of the carcasses. The tank is specifically designed to move the carcasses in a specific amount of time. Two tanks are used to minimize cross-contamination.

Poultry slaughter line control

The bleeding conveyor speed must be controlled by variable frequency drive to make sure the correct speed to attain the Speed of the Dressing line.

The de-Feathering machine speed must be controlled by variable frequency drive to attain the speed of 500 Birds per hour in the operation

The evisceration conveyor speed must be controlled by variable frequency drive to make sure the correct speed output to attain the 500 Birds per hour speed.

All conveyors must be equipped with emergency stop button, which are always in run on mode and stops only when the emergency stop button is pressed.

Technical equipment descriptions

S.No	Description
1.	Poultry slaughter line 500 per hour with screw chiller and deboning line
2.	Staff lockers, gum boot stand, foot wash - All items in stainless steel
3.	2 PUF insulated sliding doors for chillers and cold store

4.	Insulated PUF for cold storage -All 4 side walls of 100 mm, roofing of 100 mm and floor of 80 mm.-All wall height 4.5 meter total PUF panel approx. including flushing and installation (40 kg)
5.	Refrigeration plant unit piping indoors and outdoors with Ammonia unit - Condensers, Compressors, all indoors, insulation, installing, panel, piping.
6.	Ice flake maker 150 kg per hour. Ice flake maker for screw chiller water cooling
7.	Blood coagulator with dryer
8.	Electrical panel with transformer & cabling inside the compound 120 kVA including
9.	Electrical wiring and lighting inside the building for slaughter machinery
10.	Plumbing and water fitting for slaughter machinery
11.	Generator 150 kVA
12.	Miscellaneous Items
13.	Installation & Erection Charges

Technical equipment descriptions

Chicken Slaughter & Processing Line (500 birds per hour)

S.No	MACHINERY AND EQUIPMENTS	Qty.
I	Killing & Defeathering Section	
1.	Gravity crate conveyor for easy movement and handling of the birds from unloading from truck to hanging on the bleeding & defeathering conveyor. Crates move by slope on rollers. Technical description <ul style="list-style-type: none"> Conveyor frame pipe size - 40mm X 40mm X 2 mm - SS 304 pipe Rollers pipe size - 50mm dia. X 1.5mm - SS 304 Pipe Dimension of the conveyor - 800 mm X 4000 mm X 900 mm 	1
2.	Gravity Crate Return conveyor For easy movement of empty bird crates. Crates move by slope on rollers. Technical description <ul style="list-style-type: none"> Conveyor frame pipe size - 40mm X 40mm X 2 mm - SS 304 pipe Rollers pipe size - 50mm dia. X 1.5mm - SS 304 Pipe Dimension of the conveyor - 800mm X 3000 mm X 800 mm 	1
3.	Water Bath Stunner - 1 meter Made with fibre glass supported with stainless steel structure (SS 304) with stunning electrical source Low voltage electrical stunner (50 to 70 volt, 200mA) Technical description <ul style="list-style-type: none"> Frame pipe size - 40mm X 40mm X 2 mm - SS 304 pipe Dimension of the stunner - 400 mm X 1500 mm X 800 mm 	1
4	Bleeding & Defeathering conveyor 35 meter <ul style="list-style-type: none"> Gearbox and motor with drive shaft All chain drive mechanism in Stainless steel 	1

S.No	MACHINERY AND EQUIPMENTS	Qty.
	<ul style="list-style-type: none"> Stainless steel round pipe track with heavy duty suspension support in stainless steel. All connectors in stainless steel 304. Approx 800 number of stainless steel shackles and injection molded trolleys. Heavy duty SS connection chain and hardened steel chain. Shackle guiding also in stainless steel wherever required as per the layout Chain and shackle washer at the end of the line after hock cutter - along with the conveyor. Frame in hot dipped galvanized steel. <p>Technical description</p> <ul style="list-style-type: none"> Sprocket - 16 mm Nylon with Centre Shaft of 25 mm Supporting structure pipe size - 150 x 75 mm x 5 mm, 50mm x 50 mm x 5mm Conveyor chain must be made up of stainless steel 304 Bird Hanger must be made up SS 304 Chain conveying with T track - Stainless steel Speed Reduction gearbox with 1 HP motor <p>Chain type : 6mm SS 304 Conveyor type : Horizontal Type of rail track : T Track Material of chain rollers : Nylon Distance between two hangers : 50 mm Drive Gear Box and Motor : Mentioned in items manufacturing principle Speed Controlled by : Variable Frequency Drive Emergency Stop : IP65 Grade</p>	
5.	<p>Manual Killing</p> <p>Killing Station - manual killing - with blood collection tray underneath</p> <p>Technical description</p> <ul style="list-style-type: none"> Frame pipe size - 40mm X 40mm X 2 mm - SS 304 pipe Sheet thickness - 2 mm - SS 304 	1
6.	<p>Bleeding Trough</p> <ul style="list-style-type: none"> Bleeding Trough - deep and broad shape for 0 % spill of blood on floor. Blood Trough is fixed under the bleeding conveyor to collect all the dripping and spilled blood. Collected blood drains to blood tank via 4 inch dia pipe. Blood Trough & tank in Stainless steel 316 Agitator to stop blood coagulation. <p>Technical description</p> <ul style="list-style-type: none"> Capacity of blood tank - 700 Litres. Pipe size of frame of blood trough - 50mm X 50mm X 2 mm of SS 304 Sheet thickness of blood trough 2 mm stainless steel 316 Sheet thickness of blood tank 2 mm stainless steel 316 	1

S.No	MACHINERY AND EQUIPMENTS	Qty.
	<ul style="list-style-type: none"> Agitator of blood tank is fitted with the speed reduction gearbox with 0.5 HP motor 	
7.	<p>Scalding Tank</p> <ul style="list-style-type: none"> Optimum heat transfer and precise temperature control - Air agitation for optimum heat transfer Multi-tank counter-flow principle Precise water level control system Scalding unit - in stainless steel 304 all parts With aeration unit Continuous steam insertion. <p>Technical description</p> <ul style="list-style-type: none"> Pipe size of frame - 50mm X 50mm X 2 mm - SS 304 Sheet thickness of Scalding Tank 2 mm stainless steel 316 Sheet thickness of Steam Pipe in Scalding tank 2 mm stainless steel 316 Dimension - 6000 mm X 600 mm X 1200 mm 	1
8.	<p>Head Puller</p> <p>All stainless steel structure with guides to make sure to keep the head in the same position before pulling off. Automatic head puller</p> <p>Technical description</p> <ul style="list-style-type: none"> Pipe size of frame - 25mm X 25mm X 2 mm - SS 304 Sheet thickness - 2 mm - Stainless steel 316 8 mm Bar - SS 304 Dimension - 600 mm X 150 mm X 200 mm 	1
9.	<p>De-feathering unit (A frame pluckers)</p> <ul style="list-style-type: none"> Gearbox with motors for higher performance and better control with 10 plucking heads with 12 fingers on each Top of the machine must be closed. Integral guides to keep birds firmly in shackle during plucking Integral feather deflectors Double non-slip V-belt drive mechanism with calibrated tensioner. Easily cleanable plucker banks <p>Technical description</p> <ul style="list-style-type: none"> Sprocket - 16 mm nylon with centre shaft - 25 mm Supporting structure pipe size - 150 X 75 mm x 5 mm, 50mm x 50 mm x 5 mm Conveyor chain, Bird Hanger, Chain conveying with T track must be stainless steel 304 Speed reduction gearbox with 1 HP motor 	1

S.No	MACHINERY AND EQUIPMENTS	Qty.
	Design Type : A frame De feathering by : Finger rotation Fingers on Drum : 12 No of Drums : 10 on each side Distance between two frames : Adjustable as per bird size Design for Bird weight : from 1 kg to 3 kg Speed Controlled by : Variable Frequency Drive Emergency Stop Emergency stop : IP65 Grade	
10.	Feather Belt Conveyor Conveyor collects all feathers from defeathering machine, and transport them to feather processing area. Provide side supports to make sure no feathers dropped on the floor. Made with stainless steel 304. Technical description Stainless Steel 304 - Sheet thickness - 2 mm Length - 9000 mm, Width - 700 mm, Height - 600mm	1
11.	Online Counting of Birds <ul style="list-style-type: none"> To fitted the online bird counter on the conveyor chain to count the number of birds per minute moved out of the de feathering machine Technical description: Length -100 mm, Width -100 mm, Height - 200mm	1
12.	Circular Hock Cutter and Remover Made in stainless steel 304. This is to cut hock automatically and remove it from the shackle. Provided guides and rods to ensure the perfect cut and collection in the bin below (2 trolley bins). At the end of the bleeding conveyor, the birds are unloaded by cutting their hocks by a circular blade. Technical description Motor - 0.25 HP; Blade size : 6 inches; Length - 600 mm, Width - 600 mm, Height - 300mm	1
II	Dressing & Evisceration Section	
13.	Dressing & Evisceration Conveyor 25 meter Gearbox with Motors for Higher Performance and better control automatic Re-hanging conveyor - bird from first conveyor after cutting the legs re-hangs by itself automatically. <ul style="list-style-type: none"> Gearbox and motor with drive shaft All chain drive mechanism in stainless steel Stainless steel round pipe track with heavy duty suspension support in stainless steel. All connectors -stainless steel 304. Approx 600 numbers of stainless steel shackles and injection moulded trolley Heavy duty SS connection chain and hardened steel chain Shackle guiding -stainless steel wherever required as per the layout Chain and shackle washer at the end of the line after hock cutter - along with the conveyor 	1

S.No	MACHINERY AND EQUIPMENTS	Qty.
	<ul style="list-style-type: none"> Frame in hot dipped galvanized steel. Technical description <ul style="list-style-type: none"> Sprocket - 16 mm nylon with centre Shaft - 25 mm Supporting structure pipe size - 150 X 75 mm x 5 mm, 50mm x 50 mm x 5 mm Conveyor chain, carcass Hanger, chain conveying with T track must be SS 304 Speed reduction gearbox - 1 HP motor Chain type : 6mm SS 304 Conveyor type : Horizontal Type of rail track : T Track Material of chain rollers : nylon Distance between two hangers : 50 mm Drive Gear Box and Motor : Mentioned in items manufacturing principle Speed Controlled by : Variable Frequency Drive Emergency Stop : IP65 Grade	
14.	Inside Outside Washer <ul style="list-style-type: none"> The inside/outside washer in the evisceration line. Each unit consists of a spray pipe, which enters the product and cleans it internally, a second spray pipe moves with the unit to clean the breast or back and a row of static sprayers. Washing pipe size: half inch 	1
III	Chilling Section	
15.	Chicken Unloader Automatic un loading unit to unload the washed chicken Pipe size of frame - 25mm X 25mm X 2 mm - SS 304 Sheet thickness - 4 mm -stainless steel 316 Bar - SS 304 – 8mm	1
16.	Counter Flow Screw Chiller German gearbox with motors for higher performance and better control. Counter flow screw chilling system - two 3 meter sections - with two bath executions - with air agitator system with blowers - including the ice flake maker - the ice flake maker - installed on the top of the screw chiller and drops ice directly on the screw chiller by chute - including dripping drum and collection table. <ul style="list-style-type: none"> Products and chilling medium enter at opposite ends. Products - conveyed by screw into ever colder and cleaner flake ice water. Water in the system - agitated by introducing air -air volume – adjustable. The system - fitted with independently driven ejector. Chilling 4°C - 6 °C Agitated water 	1

S.No	MACHINERY AND EQUIPMENTS	Qty.
	<ul style="list-style-type: none"> Set of the chilling System - SS 304 Stainless steel with Robust design for better performance and longer durability On this chiller the bird carcasses drop directly from bird un-loader. Screw diameter - 2 meters- water will flow in the opposite direction of the carcasses. Ice flakes - dropped in water continuously to maintain the temperature of water below 10 degree. <p>Technical description</p> <ul style="list-style-type: none"> Supporting structure pipe - SS 304 size - 75 X 75 mm x 3 mm, 50mm x 50 mm x 5 mm Screw shaft - SS 304 the Screw - 2 mm SS 304 Sheet Air agitation to make water circulate properly. Speed reduction gearbox - 5 HP motor <p>Chiller type : Screw – chilled water chilling</p> <p>Water flow : Counter water Flow</p> <p>Retention time for chilling : 20 to 30 minutes as per chicken size</p> <p>Air Agitation : 2 Hp blower X 2</p> <p>Drum dia. : 2000 mm</p> <p>Drive gear box and motor : Mentioned in items manufacturing principle</p> <p>Speed controlled by : Variable Frequency Drive</p> <p>Emergency Stop : IP65 Grade</p>	
IV	Cutting & Deboning Section	
17.	<p>Weighing machine</p> <p>SS top weighing machine- Table top weighting machine for weighing the chicken or box of chicken with larger display</p> <p>Technical description: Length- 600 mm, Width - 600 mm, Height-200 mm</p>	1
18.	<p>Working Tables</p> <p>Stainless steel table for further packaging and processing- SS 304 with frame in pipe size –50mm X 50mm X 2 mm and top sheet - 3 mm - SS 304</p> <p>Technical description: Length- 2400 mm, Width - 1100 mm, Height -1000 mm</p>	6
19.	<p>Cone Deboner Conveyor</p> <p>With 12 Cones - Conveyor with easy loading and unloading of chicken.</p> <p>Technical description</p> <ul style="list-style-type: none"> Cone head - Nylon with Centre Shaft - 25 mm on base Supporting structure - SS 304 pipe size - 50mm x 50 mm x 5 mm Conveyor chain - SS 304 Speed reduction gearbox - 0.5 HP motor 	1

S.No	MACHINERY AND EQUIPMENTS	Qty.
	Chain : 100mm SS 304 Conveyor type : Horizontal Material of chain rollers : nylon Distance between two Cones : 600 mm Drive Gear Box and Motor : Mentioned in items manufacturing principle Speed Controlled by : Variable Frequency Drive Emergency Stop : IP65 Grade	
20.	Trolleys for Movements of Offals and Finished Materials Made with Stainless steel 304 with 4 wheels of nylon Trolleys - SS 304 with 4 wheels of nylon in 5 inch dia. and 2 inch thickness Technical description <ul style="list-style-type: none"> Length - 600 mm, Width - 600 mm, Height - 750 mm 	6
21.	Screw Chiller Capacity: 500 chicken carcasses per hour ; Temperature : 0°C	1
22.	Freezer Capacity: 1 ton; Temperature range: -18 to -20°C	1
23.	Air conditioner Office 1No. x 1.5 ton commercial air conditioner Laboratory 2 Nos. x 1.5 ton commercial air conditioner Processing area 4 Nos. x 1.5 ton industrial air conditioner	7 (Total)
24.	Cold storage Temperature range: -20 to -25°C; Capacity: 5 ton	1
25.	Commercial Deep Freezer Capacity : 400 Litres Number of Doors : Single Body Material : Metal Powder coated Defrost Type : Auto-Defrost Type : Top Open Capacity (in Litres) : 400 ltr Temperature Range : -18 to -24 Door type : Swing Door Refrigerant : R 134 a Material : Aluminium	3

Items Manufacturing Principle:

- All items of the machine part must be in stainless steel 304.
- All Machine suspension Items must be of Galvanize Steel.
- All Nut Bolts used in Machines must be of Stainless Steel 304.
- All Nut Bolts fasteners used in hanging and supporting system must be of coated MS.
- Water over flow protection water spill protection, guards, safety for human protection items, temperature gauges, valves, hose pipes, must be of reputed brands.

- All motors must be of brands such as ABB, Crompton Greaves, Siemens, Toshiba, Nidec, Rockwell, AMETEK, Regal Beloit, Johnson Electric.
- All gear boxes must be of brands such as Bauer, SEW, Flender, Nord, Rexroth, Zollern, Rossi, Bonfiglioli, Sumitomo, Rotork, Curtis Machine SIPCO-MLS, Danko Arlington, Logan Clutch Corporation, Multi Products Company, Excel Gear, Torque Transmission, Astro Flight, Houston Gear.
- All electrical controls must of brands such as L&T, Havells, ABB, Siemens, GE.
- Equipment must comply with the standards and guidelines prescribed by International and National quality and safety bodies viz ISO, APEDA, SPS, Codex Alimentarius, BIS, FSSAI
- Taxes and Transport as Actual:
- GST as per Billing and Actual tax rate @ the time of billing
- Transport as Actual

Guarantee and Warrantees:

1. Guarantee of 2 years for all the metal moving parts / products manufactured against any manufacturing defect.
2. Guarantee of 5 years for all the Static parts / products manufactured, if parts get the welding damages if any must be repaired onsite without any extra charge.
3. All electrical parts / products, must have the standard guarantee given by the manufactures like electric motors, gear boxes, plastic parts, etc.,

Manufacturer's Authorization letter for attending the tender and etc.

No. _____ Dated. _____

To

Dear Sir,

Tender Ref. No. 84/E/AIIRLIVAS/TNLDA/2022

We _____ who are established and reputable manufacturers of _____ having factories at _____/providing.....services with Registered office at _____ possessing License No. _____, dated _____, Valid Upto _____ (Copy enclosed) do hereby authorize M/s. _____ (Name and Address of Representative) to submit a tender, and subsequently negotiate and sign the contract with you against the above mentioned tender.

No company or Firm or individual other than M/s. _____ are authorized to tender, negotiate and conclude the contract in regard to this business against this specific tender.

We hereby extend our full warranty for a period as per specification (Annexure V) from the date of supply delivery, installation, establishing and commissioning of chicken slaughter line of 500 birds per hour and on acceptance by the concerned officers at the final destination indicated in the Contract as per the tender conditions for the goods and services offered against this invitation for tender by the above Firm

Yours faithfully,

(Name)

for and on behalf of M/s. _____

(Name of Manufacturers)

Note: This letter of authority should be on the letterhead of the manufacturing concern and should be signed by a person competent and having the power of attorney to bind the manufacturer.

DETAILS OF MANUFACTURING UNIT OF MANUFACTURER

1. Name of the Manufacturer & Full Address of the manufacturing unit:
2. Phone Nos. :
3. Fax :
4. E-mail :
5. Date of Inception :
6. License No. & Date :
7. Issued by :
8. Valid up to :
9. Details of manufacturing activity:
10. Annual manufacturing capacity:
11. Name of the authorized signatory:
12. Specimen signature of the authorized Signatory:

* The details of manufacturing unit shall be for the premises where items quoted are actually manufactured.

ANNEXURE VIII

TAMIL NADU LIVESTOCK DEVELOPMENT AGENCY, CHENNAI-35

TENDER No. TNLDA/2022/06 TENDER FOR THE OF ESTABLISHING AND COMMISSIONING OF THE CHICKEN SLAUGHTER LINE
OF 500 BIRDS PER HOUR

S. No	Name of the item & specification tendered	Basic price (Rs.)	Packing and forwarding charges (Rs.)	Freight & Insurance charges (Rs.)	Others (if any) (Rs.)	Total (Rs.)	GST (Rs.)	Total landed price (inclusive of all tax) (Rs.)
