**Description**

The services aim to identify and propose a range of policies and mechanisms enabling synergy and mutually reinforcing interplay and cooperation between ACQF and AfCFTA. The two major outputs of the services are interconnected. The first step is a concise review of policies and mechanisms supporting cooperation between Regional Qualifications Frameworks (RQF) and regional free trade policies (2 examples, including European Union-EU). The second step is a concise report addressing the key questions and potentialities for complementarity, synergy and cooperation between ACQF and AfCFTA. The outputs of the two steps will be integrated in one single report.
