Title

Supply of Technical Gases, Rental of Gas Recipients and Other Services

Description

JRC Geel has the intention to set up a framework contract for supply of technical gas, rental of gas recipients and other services. The contract consists of two main parts: 1. the supply of compressed gas in cylinders or frames, including the delivery and return transport and the rental of the cylinders and/or frames. The contractor is also asked to foresee an application allowing to track the cylinders; 2. the rental of fixed and mobile tanks for the storage of liquefied gases and the supply, in bulk, of liquefied nitrogen and argon. Some of these tanks are to be equipped with an evaporator and/or with a remote monitoring system, warning the Contractor automatically of the need for refill.
