Title

NL-Petten: Services framework contract for maintenance and small works concerning mechanical engineering installations of the JRC in Petten, including supply of equipment

Description

For the mechanical engineering installations of the JRC in Petten including sanitary, heating and ventilation installations, support services are required for daily maintenance and small works, which should be provided by an on-site mechanic in Petten. The mechanic shall be assisted by a planning engineer mainly at the location of the future contractor and, if necessary, by an assistant technician or cooling installation technician. The contract also includes the supply of equipment for the purpose of maintenance and small works.
