Title

The ETF Community of Innovative Educators: Knowledge sharing on teaching innovation

Please note that this is not a call for tenders but a publication announcing the Contracting authority's [intention to publish a future negotiated low or middle value procedure.](#)

Description

The objective of the assignment is to foster and consolidate the development of the ETF's Community of Innovative Educators through knowledge exchange and recognition of innovative practices. Results: a) Support knowledge exchange, through the organisation of webinars and the preparation of blogposts for the Community webspace. b) Foster innovation emersion, by organising a collection of inspiring and innovative practices from across the community which will feed to the selection and awarding of the most innovative practices under CNL. c) Promote the Community, by connecting with different initiatives in the ETF Partner Countries and at the international level. With the objective of increasing the number of members and of promoting the uptake of the knowledge developed within the community, the contractor will promote the community online (social media etc) and by connecting with relevant communities and stakeholders (multipliers) in the ETF partner countries. d) Manage the community, by sending email updates to its members and by monitoring its developments. The contractor will take care of welcoming new members (short message), preparing a short newsletter (every two months) and supporting the members of the community if they have questions. Also, the contractor will have to keep updated a list of "champion" members that will be activated during the year (a starting list will be provided by the ETF). Technical support in the use of Open Space (the community online platform) will be provided by ETF.
