Title

Management of the European Citizens' Initiative Online Collaborative Platform (ECI Forum)

Description

The overall objective of the online collaborative platform (ECI Forum) is to provide information and support on preparing and running European citizens' initiatives, stimulate debate around them and more generally around topics related to this instrument. The Forum should offer a space where citizens can:— discuss and form their initiatives;— receive guidance, training and learning materials (e.g. based on the experience of former organisers of initiatives);— receive legal advice on their draft initiatives and practical advice for running a successful ECI (fundraising, campaigning across the EU, data protection etc.). Create interaction between (potential) organisers, citizens and experts. Ultimately, it should help improve the quality of requests for registration of new citizens' initiatives submitted to the Commission and best prepare the organisers for the running of a successful campaign.
