Status:

Open

**Tender reference number** EMSA/OP/8/2022

**Title** Study to Detect Potential Covid-19-related Safety Issues and Emerging Risks Contributing to Marine Casualties and Incidents

**Description** A systemic analysis to detect emerging risks and possible safety issues due to the possible changes of 'normal operations', either on board of ships and ship-to-shore, that the pandemic and its descending restrictions might have imposed. The study will also highlight the resilient properties of companies, possible mitigation measures undertaken by the concerned stakeholders and lessons learned.

**Contract type** Services

**Procedure type** Open procedure

**Status** Open
