Title

Study on EU Space Value Chains Resilience

Description

The overall objective of the contract is to assess resilience of the EU space value chains. It includes among others:• identifying, explaining, assessing and prioritising technological and non-technological risks for developing, maintaining and improving strategic capacities of the EU space sector;• providing recommendations for the response strategy for the risks identified;• analysing and recommending options to efficiently monitor and improve the resilience of EU space value chains.This call for tender could not be launched as a specific contract under an existing FwC due to security clearance requirements.
