Title Maintenance and Update of the e-Tool Dangerous Substances

Please note that this is not a call for tenders but a publication announcing the Contracting authority's [intention to publish a future negotiated low or middle value procedure](#).

Description The European Agency for Safety and Health at Work (EU-OSHA) is planning to launch a low value negotiated procedure for the provision of a structured overview on indicators in OSH-Monitoring and reporting systems. Main objectives / services to be provided under the contract to be awarded: EU-OSHA has addressed - in the framework of its past activities - the topic 'Dangerous substances' specifically and has published an interactive e-tool in ten national versions (<https://eguides.osha.europa.eu/dangerous-substances/>). The contract to be awarded aims to guarantee a constant and maintenance and update of the e-tool. This is necessary because the e-tool has to adapt to in legislation at EU and national level. Moreover users, focal points and collaborators request or propose revisions, changes or substantial developments that contribute to a permanent improvement of content and usability of the e-tool. The tasks will include the: • Continuous maintenance and updates; • Propose recommendations for the improvement of the usability (content and functionalities Identification and description of reporting and monitoring systems); • Recommend actions for extension and promotion. The maximum total budget available for the contract will be EUR 56,000 (excluding VAT).
