Title

Support for aerodynamic modelling of heavy-duty trailers

Please note that this is not a call for tenders but a publication announcing the Contracting authority's [intention to publish a future negotiated low or middle value procedure.](#)

Description

Determination of air drag standard values by using Computational Fluid Dynamics simulations for certain types of trailers for which such values are not yet available. This concerns the following categories of trailers: drawbar (DB) and centre-axle (DC) trailers as well as volume oriented DA (semi-trailers), DB and DC trailers.
