Title

Mapping the Risks and Vulnerabilities in the EU Food Supply Chain

Please note that this is not a call for tenders but a publication announcing the Contracting authority's [intention to publish a future negotiated low or middle value procedure](#).

Description

The objective of this project is to map and assess risks and vulnerabilities (including structural issues) in the EU food supply chain. The mapping and assessment of risks and vulnerabilities is required to be based on information collected in the project through the literature review, semi-structured interviews and online survey targeting relevant stakeholders representing companies and businesses from the food supply chain and MS.
