Title

Experimental evidence on countering the negative effects of misinformation

Please note that this is not a call for tenders but a publication announcing the Contracting authority's [intention to publish a future negotiated low or middle value procedure](#).

Description

The purpose of this tender procedure is to support the JRC in implementing an online experimental survey aimed at testing behavioural interventions to reduce the negative effects of misinformation. In particular, the contractor will support the European Commission by providing participants to the online survey. The survey will focus on the effectiveness of tailored behavioural interventions in reducing the negative effects of misinformation.
