Title

Supply of rabies vaccines

Description

The subject of the contract is the supply, delivery, unloading, storage, testing and inspection (quantity and quality control of the vaccines), transport and aerial distribution (on the whole territory of the Beneficiary country) of vaccines for oral vaccination of wild animals against rabies and obtaining of all necessary permits and licenses in regards to this contract. The areal distribution will be performed in two campaigns in autumn 2022 and spring 2023. The territory for vaccination shall be the whole territory of the Beneficiary country excluding water surfaces and dense urban settlements, which has been evaluated to about 25.000 km². The vaccine bait density will be 20 baits per 1 km² or in total 1,052,000 vaccine baits (526,000 vaccine baits per vaccination campaign).
