

Title:
Update of ENISA Cybersecurity Market Analysis Framework
Contracting authority:
[European Union Agency for Cybersecurity \(ENISA\)](#)

Start date:
04/07/2022

Deadline to express interest:
14/07/2022

Status:
Open

**Tender
reference
number** ENISA/2022/LVP/0018-ExA

Title Update of ENISA Cybersecurity Market Analysis Framework
Please note that this is not a call for tenders but a publication announcing the Contracting authority's intention to publish a future negotiated low or middle value procedure (read more [here](#)).

Description The CSA refers to the area of market analysis: in Recitals (7), (42), and in Article 8, par. 7, it states that "ENISA shall perform and disseminate regular analyses of the main trends in the cybersecurity market on both the demand and supply sides, with a view to fostering the cybersecurity market in the Union". Accordingly, the ENISA Single Programming Document (SPD) 2022-2024, under Activity 7 "Supporting the European cybersecurity market and industry", foresees Output 7.1 "Market analysis on the main trends in the cybersecurity market on both the demand side and the supply side". ENISA is seeking for support to further develop/update its existing framework used to analyse the cybersecurity market, called ENISA Cybersecurity Market Analysis Framework – ECSMAF. This effort will be based on the experience gained from already performed market analyses during 2021 and 2022. In light of this effort, ENISA is launching a dedicated project to update ECSMAF as a continuation of its 2021's work (see <https://www.enisa.europa.eu/publications/enisa-cybersecurity-market-analysis-framework-ecsmaf>). The report produced as an outcome of this project will help: • Enhancing the content of the current ECSMAF version by adding important details towards higher applicability of the analysis method; • Updating the work done by introducing additional content from the performed analyses, and • Establishing interfaces to and from ongoing ENISA work, in related in particular with cybersecurity index and incidents/threats/risks.

**Contract
type** Services

**Procedure
type** Planned negotiated procedure for middle/low value contracts

Status Open

**Published
on TED** 

**Award
method** Best price-quality ratio

**Estimated
total value** 58000 EUR
