Title

Assessment of the Competitiveness of Clean Energy Technologies

Description

The contract should provide data on different clean energy technologies to support the preparation of the annual Competitiveness Progress Reports required under the Regulation on the Governance of the Energy Union, for the years 2023, 2024 and – to a certain extent – 2025. In particular the contract fills in data gaps for specific technologies and should include social, economic, and environmental indicators, as well as look at the international dimension.
