**Title**

Copernicus Global Human Settlement Layer

**Description**

The new exposure mapping component of the Copernicus Emergency Service will deliver bi-annual updates of built-up area and population density. This procurement will focus on the global built-up product. It will provide detailed information about the presence of built-up surfaces for all countries of the world at 10 m spatial resolution. The products should provide fractional cover of built-up surfaces at 10 m spatial resolution as well as a discrimination between residential and non-residential buildings.
