Title

Panorama of the main actors and key topics related to the EU taxonomy

Please note that this is not a call for tenders but a publication announcing the Contracting authority's intention to publish a future negotiated low or middle value procedure (read more [here](#)).

Description

The main purpose of this contract is to support JRC Taxonomy Team with the development of a panorama/mapping of the main actors or group of actors that produce knowledge around the taxonomy in EU and globally. This work aims at increasing JRC understanding of the momentum, identifying potential partner for publication/initiative around the taxonomy and supporting the structuration of an in-house "Taxonomy intelligence". In addition, by analysing in detail 3-5 areas of research/papers, the contract will enable JRC to support the identification of strategic future areas of work/challenges for the next couple of years
