Title

Refurbishment of Ventilation System

Description

The biggest part of site Laboratory for Radioactivity Measurements (LMR) is installed in building 20i. The extraction and ventilation system of the low activity laboratories needs of a full refurbishment, in order to allow the laboratory to handle the acid radioactive samples with the due safety requirements. The procedure will be divided in two lots:1. one for the realisation of the works already designed;2. one for the testing of the structures.
