Title

Continued support to animal disease surveillance, control and eradication: supply of diagnostic tests, laboratory and field consumables and veterinary medicinal products for the beekeeping treatments

Description

The overall objective of this EU intervention is to contribute to the promotion of social and economic development in Turkish Cypriot community (Tcc), by providing further financial assistance supportive to more efficient agricultural production, further animal disease eradication and improved food safety and veterinary support in TCc. The intervention includes investments in the form of material supplies to support animal disease surveillance, control and eradication: the project is to provide diagnostic tests and laboratory and field consumables as well as veterinary medicinal products for the beekeeping treatments. It comprises: • Lot 1: Diagnostic tests, laboratory and field consumables; • Lot 2: Veterinary medicinal products (VMPs) for the treatment of honeybees against Varroosis.
