Title

Development of Roadmaps for Action on Applying Omics and Bioinformatics Approaches: Towards Next Generation Risk Assessment

Description

The aim of this procurement procedure is to conclude on a direct contract for the execution of specific tasks over a clearly defined period as defined in this tender specification. The main objective of this roadmap for action is to define EFSA priorities for the wide integration of omics and associated bioinformatics approaches in food regulatory science (by 2030) to support the transition into next generation risk assessment.
