Title

Support to Preservation, Restoration and Regeneration of Malawi's Natural Resource Base and Diverse Ecosystem

Description

The proposed contract will involve the provision of technical assistant to support implementation of decentralized territorial relevant actions aimed at preservation, restoration and regeneration of Malawi's natural resource base and diverse ecosystem. The support will be targeted to all relevant central level government ministries/departments and all districts eligible to participate in a call for proposals for implementation of actions in an integrated manner. At central level, the support will entail a coordinated approach to policies and strategies and support effective implementation of actions at the decentralized level. At the district level, specific support will be provided to develop sound and evidence based proposals that will be submitted to the EU for funding. Further support will be provided to the districts that will receive grants in specific technical, procurement and financial management areas of interest.
