Title

Fence Wire Detection System - Site Perimeter Protection

Description

The fence wire detection installed at the site perimeter needs to be replaced. The current system cannot be repaired as the used technology is no longer supported by the provider. The installation is subject to the Belgian legislation on the physical protection of nuclear installations as the JRC Geel is a class 1 nuclear installation. The new fence wire detection system is to be supplied, installed and integrated into the existing security management software (Milestone).
