**Title**

Charpy tests

*Please note that this is not a call for tenders but a publication announcing the Contracting authority's intention to publish a future negotiated low or middle value procedure (read more [here](#)).*

**Description**

Tests are needed for certifying several reference materials. The samples are steel v-notch Charpy specimens according to ISO 148. They come in sets of 5 specimens that are either wrapped in anti-corrosion paper or in oil. The specimens must be degreased before the measurement. Tests to be performed: 4 independent series of non-instrumented charpy tests according to ISO 148 using a striker with a 2 mm tip radius shall be performed: • 1 series of 115 specimens at an energy range of 20 - 30 J • 1 series of 115 specimens at an energy range of 120 -130 J • 2 series of 85 specimens each at an energy range of 140 -160 J
