**Title**

NL-Petten: study to provide an overview of the heat pump value chain and map the manufacturing companies.

*Please note that this is not a call for tenders but a publication announcing the Contracting authority's intention to publish a future negotiated low or middle value procedure (read more [here](#)).*

**Description**

Heat pumps are identified as one of the key technologies to reduce CO2 emissions, improve energy efficiency, and increase energy security. To ensure deployment the manufacturers have to be ready to scale up production. This study aims at mapping the heat pump value chain and its companies, and make an assessment of the EU manufacturing capacity.
