### TENDER NOTICE

#### Tender for appointment of Contractor for Civil Repair and Renovation work of existing Auditorium Building at campus of Union Bank of India, Staff College, Kalkere post, Bannerghatta Road, Bengaluru

#### Scope of Work:

Union Bank of India is a nationalized public sector bank having Central Office at 239, Vidhan Bhavan Marg, Nariman Point, Mumbai. The bank invites tenders in two part bid systems from the eligible PWD Class 1 contractors (contracting agencies) having office in Bengaluru and should be operating from Bengaluru to carry out the work of Civil Repair and Renovation work of existing Auditorium Building at campus of Staff College, Kalkere post, Bannerghatta Road, Bengaluru-560 083, Karnataka. The scope of works consists of Civil Repair and Renovation work of existing Auditorium.

It includes furnishing all materials, labour, tools and equipment and management necessary for and incidental to the construction and completion of the work. All work, during its progress and upon completion shall conform to the lines, elevations and grades as shown by the Bank / architects.

Tenders shall be submitted in two bid systems i.e. Technical Bids and Commercial Bids in sealed envelopes.

#### Sealed Envelopes I: Technical Bid

Technical Bid contains application cum pre-qualification form, company's profile, financial standing, projects executed, completion certificates, technical details, terms and conditions of tender document, EMD amounting to Rs.25,000/- by way of pay order drawn from Nationalized Bank only (other than nationalized bank is not accepted) favouring Union Bank of India payable at Bengaluru. Tender will be treated ineligible if EMD is not submitted. The EMD is normally to remain valid for a period of 45 days beyond the final bid validity period. EMD of unsuccessful bidder will be returned within 7 days from the date of opening of Price bid.

#### Sealed Envelope II: Commercial Bid

The Commercial bid shall be opened for only pre-qualified agencies based on the criteria contained in the Technical Bid. Date and scheduled time for the opening of the Commercial Bids submitted by pre-qualified agencies shall be informed subsequently.

Sealed Envelope III: Containing Sealed Envelope I & II.

**General information:**

1. Intending contractors are requested to furnish companies profile, technical experiences, competence and evidence of their financial standing as per enclosed proforma for considering their names for empanelment.
2. It is mandatory that the intending contractors must have office in Bengaluru and should be operating from Bengaluru.
3. Selection of contractors will be based on PQ Criteria, ability and competence required for good quality jobs to be performed by them.
4. If the space provided in the proforma is insufficient for giving full details, the same may be given on a separate sheet of paper.
5. Information furnished to Bank will be kept as strictly confidential.
6. Intending contractors are requested to read carefully before filling in particulars in the proforma.
7. Incomplete applications will not be considered.
8. Information / details furnished by selected party, if found to be false at any time in future or any information affecting pre-qualification is willingly / unwillingly withheld, if come to the notice of the Bank at any point of time, the party's pre-qualification can be cancelled immediately.
9. Where copies are required to be furnished, these should be certified copies.
10. Cost of the tender form is Rs.2000/- which is not refundable, to be paid by way of Pay Order / Demand Draft favoring Union Bank of India payable at Bengaluru at the time of receiving tender format. The pay order/DD for the cost may also be submitted with the tender form if downloaded from the websites.
11. The complete set of tender form cum bid document shall be obtained from Staff College, Kalkere Post, Bannerghatta Road, Bengaluru-580083. The document can also be downloaded from the bank's website [www.unionbankofindia.co.in](http://www.unionbankofindia.co.in) and [www.eprocure.gov.in](http://www.eprocure.gov.in) during the period from 06-07-2022 to 29-07-2022
12. The filled in tender form cum bid document shall be submitted to "VICE PRINCIPAL/ASST.GENERAL MANAGER, UNION BANK OF INDIA, STAFF COLLEGE, KALKERE POST, BANNERGHATTA ROAD, BENGALURU- 500 083. The last date for submission of filled in tender form is 29-07-2022 up to 15.00 Hrs.
13. The bids should be dropped in the tender box kept in Staff College, Bannerghatta Road, Bengaluru. Bids received by hand/ post/ courier will not be accepted.
14. Tender form is not transferable.
15. The selection for pre-qualification shall be based on the criteria i.e. clause no.18 of the bid documents.
16. Decision of the Union Bank of India regarding selection of contractors for pre-qualification will be final and binding and no further correspondence will be entertained. The pre-qualified Contractors will be informed by post/mail.
17. Commercial Bids submitted by only Pre-qualified Contractors shall be opened.

### **DISCLAIMER**

Union Bank of India (the Bank), Staff College, Kalkere Post, Bannerghatta Road, Bengaluru has prepared this tender document. The information is provided to prospective tenderers, who intend to participate in tendering for the work of Civil Repair and Renovation work of existing Auditorium Building at campus of Staff College, Kalkere post, Bannerghatta Road, Bangalore -560083, Karnataka.

This tender is neither an agreement nor an offer and is only invitation by the Bank to the interested parties for submission of bids. The purpose of this Tender/ Request for Proposal (RFP) is to provide the Bidder(s) with information to assist the formulation of their proposals. The RFP does not claim to contain all the information each Bidder may require. While Bank has taken due care in the preparation of the information contained herein, it does not claim that the information is exhaustive. Respondents to this tender are required to make their own inquiries/analysis and should check the accuracy, reliability and completeness of the information in this RFP and where necessary obtain independent advices/clarifications. They should not rely solely on the information contained in the blank tender documents / forms. Bank may in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information in this RFP. The Bank is not responsible if no due diligence is performed by the Respondents.

No contractual obligation whatsoever shall arise from the RFP process until a formal contract is signed and executed by duly authorized officers of the Bank with the selected Bidder.

The Bank, its employees and advisors make no representation or warranty and shall have no liability to any person, including any applicant or Bidder under any law, statute, rule or regulations or tort, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expenses which may arise from or be incurred or suffered on account of anything contained in this tender or otherwise, including the accuracy, adequacy, correctness, completeness or reliability of the tender and any assessment, assumption, statement or information contained therein or deemed to form part of this tender or arising in any way for participation in this Bid stage.

Union Bank of India reserves the right to alter, amend, update or supplement the information reflected in this document or to change the process or procedure to be applied. It also reserves the right to decline bids without assigning any reason thereof.

The Bidder shall bear all its costs associated with or relating to the preparation and submission of its Bid including but not limited to preparation, copying, postage, delivery,

fees, expenses associated with any demonstrations or presentations which may be required by Bank or any other costs incurred in connection with or relating to its Bid. All such costs and expenses will remain with the Bidder and Bank shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by a Bidder in preparation or submission of the Bid, regardless of the conduct or outcome of the Bidding process.

For UNION BANK OF INDIA

---

## INSTRUCTION WITH REGARD TO SUBMISSION OF TENDER

- 1) Rates should be quoted both in figures and words in columns specified. All erasures and alterations made while initials of the tenderer must attest filling the tender. Overwriting of figures is not permitted. Failure to comply with either of these conditions will render the tender invalid and it will be the option of Union Bank of India to accept or reject the tender. No request of any change in rate or conditions after opening of the tender will be entertained.
- 2) In the case of figures, the word 'Rs.' should be written before the figures of rupees and the word 'P' written after the decimal figures e.g. Rs. 3.25 P. In the case of words, the word Rupee should similarly precede and the words "Paise only" should be written at the end, closely following each the percentage rate. The word "only" should not be written in the next line unless the rate quoted is in whole Rupees closely followed by the word "only": The amount should invariably be upto two decimal places.
- 3) The different Schedules should be filled as follows:
  - (a) The "Rate" Column wherever applicable to be legibly filled in ink in both figures and words.
  - (b) The "Amount" Column also to be legibly filled in ink in both figures and words.
  - (c) All corrections to be initialed.
  - (d) No over writing is allowed.
  - (e) The figure of percentage of rate shall be legibly filled in ink in both figure and words.
- 4) Errors in the bill the following checks shall be carried out.
  - a. All extensions (quantity multiply by rate etc.) and totals shall be arithmetically checked.
  - b. No corrections should be made in the original tender even in pencil. Such corrections should be made only in the Comparative Statement.
  - c. All arithmetical errors and errors in "carry over" and "brought forward" entries shall be schedules properly in a statement showing the total adjustment to the tendered sum.
- 5) If on the check there are differences between rates given by the contractor in words and figures or in the amount worked out by him, the following procedure shall be followed:-

- a) When there is difference between the rates in figures and in words, the rates which correspond to the amounts worked out by the contractor, shall be taken as correct.
  - b) When the amount of an item is not worked out by the contractor or it does not correspond with the rates written either in figures or in words, then the rate quoted by the contractors in words shall be taken as correct.
  - c) When the rate quoted by the contractor in figures and in words tallies but amount is not worked out correctly, then the rate quoted by the contractor shall be taken as correct and not the amount.
- 6) Dealing with Tenders when there is a “TIE”
- a) In the case of two tenderers appearing “Prima Facie” lowest i.e., quoting the same figure before or after the arithmetical check etc., an opportunity shall given to both the parties for making a revised offer on the basis of a percentage reduction in the total value, in sealed covers, when shall be opened by tender Opening committee on a fixed date in the presence of those two contractor.
  - b) In the event of the parties not agreeing to revise their tender or for any other reasons, it is not possible to resolve the “TIE” the Competent Authority shall exercise his discretion and accept the tender of the contractor who is considered to be better of the two.
- 7) The tender shall be signed and dated at all places provided therein. Also, all pages, drawings and corrections / alterations shall be initialed. The tender submitted on behalf of a firm shall be signed by all the partners of the firm or by a partner who has the necessary authority on behalf of the firm to enter into the proposed contract. Otherwise Union Bank of India may reject the tender.
- 8) The time allowed for completion of works is 45 days from the date of commencement of the work is reckoned from the tenth day from the date of Letter of Intent of handing over of site whichever is later. Time shall be considered the essence of contract.
- 9) It shall be the responsibility of the contractor to arrange for water and electricity required for completing construction. If water is available with the bank, the same will be supplied to the contractor by recovering 1% of the value of work done. However, contractor will have to make arrangement of pipeline for distributing water. Contractor to make own arrangement of electricity and pay tariff to the

electricity board. In case the bank is supplying electricity, the contractor will have to install separate energy meter and pay the charges as per its consumption.

- 10) Every tender shall be accompanied by earnest money of Rs. 25,000/- (Rupees Twenty Five thousand only) by way of Demand Draft/Pay Order only favouring UNION BANK OF INDIA, payable at Bengaluru. Tender submitted without earnest money shall be summarily rejected. The contractor whose tender is accepted will have to deposit as initial security deposit a further sum to make up to 3% of the value of the accepted tender including the earnest money. The initial security deposit will have to be made within 14 days from the date of acceptance of tender, failing which the Bank at his discretion may revoke the letter of acceptance and forfeit the earnest money deposit furnished along with the tender.
- 11) The Earnest Money will be retained in the case of the successful tenderer as part of the security for due fulfillment of the Contract. No interest shall be paid on this deposit. Failure to enter into the Contract agreement within the stipulated time of 20 days from the date of acceptance of work order shall entail the forfeiture of the Earnest money Deposit. EMD of unsuccessful bidder will be returned within 7 days from the date of opening of Price bid.
- 12) The tenderer shall submit his tender after carefully examining the whole of the tender document and the terms and conditions of contract, the drawings and specifications, the schedule of quantities etc., and also after examining the site and conditions prevailing in and around site.
- 13) The Bank does not bind himself to accept the lowest or any tender and reserve to themselves the right of accepting the whole or any part of the tender and tenderer is bound to perform the same at the rates quoted. The Bank will not be bound to accept the lowest tender and reserves the right to accept or reject any or all the tender without assigning any reasons whatsoever. The work may also be divided among the contracting agencies depending on the exigencies of the bank.
- 14) Tenders shall remain valid for a period of 120 days from the date of opening of the tender which period may be extended by mutual agreement and the tenderer shall not cancel or withdraw the tender during the initial validity period of 120 days.
- 15) The successful tenderer shall be bound to implement the Contract and mobilize and sign specified agreements within 21 days from the date of acceptance of work order.

- 16) Tenderers must include GST in their rates levy by the central and state government applicable on the date of submitting tender.
- 17) This contract shall be an item rate contract. The Contractor shall be paid for actual quantity of work done, as measured at site including any deviation plus or minus. The rate of any non-schedule items of work shall be decided as mentioned in the conditions of contract.
- 18) The tender drawings exhibited/enclosed are preliminary drawings intended for the guidance of the Contractor only. They may be subject to revision and alteration without vitiating any of the terms of the contract and the Contractor shall be bound to execute the works as shown on the final drawings without claiming any extra payment.
- 19) No correspondence will be entertained in respect of this tender other than any clarifications strictly pertaining to this tender.
- 20) The tender price quoted by a tenderer shall be kept strictly confidential and shall not be divulged to any other party even approximately before the time limit for delivery of tender. The only exception be for obtaining an insurance quotation, you may give your insurance company or agent any essential information they ask for, so long as it is done in strict confidence. No information about other's tender price should be obtained and no arrangement with anyone else should be made whether or not he submit the tender.
- 21) For electrical, sanitary, water supply and drainage works, tenderers must possess respective valid licenses from the competent authority of the area where the site is located.
- 22) Contractor should sign at the end of every page prior to submitting the tender.
- 23) Conditional tenders will be summarily rejected.
- 24) COMPLETION PERIOD OF THE PROJECT WILL BE 45 days.
- 25) Progress chart linked up with completion period to be counted from 10<sup>th</sup> day of acceptance of work order or handing over the site whichever is late
- 26) In case, L-1 bidders backs out at any stage of the tender, EMD/ISD of the successful bidder will be forfeited and fresh tender will be called by the Bank.

## TENDER FORM

To,  
Asst. General Manager/Vice Principal  
Union Bank of India,  
Staff College, Bannerghatta Road,  
Kalkere Post,  
Bengaluru - 560 083.

NIT for Civil Repair and Renovation work of existing Auditorium Building at campus of  
Staff College, Kalkere post, Bannerghatta Road, Bangalore -560 083, Karnataka.

Sir,

1. We have read and examined the following documents as received by us:

- a) Notice Inviting Tender
- b) Instructions to Tenderers
- c) Conditions of Contract.
- d) Supplementary Conditions.
- e) Specifications
- f) Drawings
- g) Schedule of Quantities.
- h) Addition condition of contract

1. We are well aware and familiar with CPWD, Schedule of Rates 2021 or latest version of the same and their specifications, CPWD Specification, relevant IS codes, BIS publication and National Building codes which shall apply to this contract to supplement any missing details in this contract in order of preference.

Further to the above, we have visited and examined the site of the proposed works and have acquired the requisite information relating thereto as affecting the tender invited by Bank.

2. We agree that any other terms or conditions of contract or any general reservation which may be printed on any correspondence emanating from us in connection with this tender or with any contract resulting from this tender shall not be applicable to this tender or to the contract.

4. We have obeyed the rules about confidentiality of tenders and will continue to do so as long as they apply.
5. We are enclosing along with our tender an earnest money of Rs. 25,000/- (Rupees Twenty five thousand only) favouring Union Bank of India, payable at Bengaluru (Pay Order No.\_\_\_\_\_ dated \_\_\_\_\_ drawn on -----). We hereby agree that this sum shall be forfeited by Union Bank of India in the event of our tender being accepted and if we fail to execute the contract when called upon to do so.
6. Subject to and in accordance with paragraphs 3 & 4 above and the terms and conditions contained or referred to in the documents listed in paragraph 1, we agree and offer to execute all the Works referred to in the said documents upon the terms and conditions contained or referred to therein and to carry out such deviations as may be ordered to be valued as per the conditions of contract.
7. We undertake to complete and deliver the whole of the works within a period i.e. 45 days as specified in the contract and further confirm that the time allowed for completion is adequate. Time allowed for completion of entire job or part job assigned shall be reckoned from the 10<sup>th</sup> of the date of acceptance of work order. We shall be under the obligation to pay the sum as stated in the contract for every day that the works shall remain incomplete, damages as compensation subject to the conditions of contract relating to extension of time.
8. We hereby agree that unless & until a formal agreement is prepared & executed in accordance with the Articles of agreement, this tender together with your acceptance thereof, shall constitute a binding contract between us.
9. EMD Submitted by us shall be treated as Initial Security Deposit. We further agree for a deduction of 8% from the running bill as retention money till accumulating total security deposit.
10. Validity of the tender is 120 days from the date of opening of tender or it may be beyond 120 days if mutually accepted.
11. The bank is at liberty to accept or reject any tender, without assigning any reasons whatsoever.
12. The work may be split up in the first instance as per exigencies of the bank. But it may be split up in more parts or parts combined if so desired by the Bank without assigning any reasons whatsoever. We will not have any claim either for loss of profit or revision in rates.

13. We will ensure adherence to the CPM/PERT/BAR CHART as the project is to be executed in a very strict time frame.
14. We are aware that the quantities of work indicated in the bill of quantities are approximate, may vary to any extent, even it may be omitted, we will not have any claim of any kind against the bank.

Signed in the capacity of duly authorized  
to sign tenders for and on behalf of

## SUPPLEMENTARY CONDITION

### INDEMNITY BOND

On the acceptance of his tender, the contractor will be required to execute an Indemnity Bond with-in 10 days of issue of work order in favor of the bank against third party claims, civil or criminal complaints, site mishaps and other accidents or disputes, against any damages, loss or expenses due to or resulting from any negligence or breach of duty on the part of the contractor, his subcontractors or his employees and agents etc., as per the appropriate Indemnity Bond attached.

It will also be covered by labour laws of the Govt. of Karnataka & Central Govt.

Any other conditions suggested by the Bank may be added subsequently.

**INDEMNITY BOND**

(On Non-Judicial Stamp Paper of Rs. 100/-)

KNOW all men by these presents that I/We \_\_\_\_\_ do hereby execute Indemnity Bond in favour of the Union Bank of India on this \_\_\_\_\_ day of \_\_\_\_\_ 2022.

WHEREAS Union Bank of India, (address of the office) \_\_\_\_\_, have appointed \_\_\_\_\_ as the Contractors for their Proposed Union Bank of India Project at \_\_\_\_\_.

**THIS DEED WITNESS AS FOLLOWS:**

I/We \_\_\_\_\_ hereby do Indemnify and save harmless Union Bank of India, \_\_\_\_\_ against

1. Any third party claims, civil or criminal complaints/liabilities, site mishaps and other accidents or disputes and/or damages occurring or arising out of any mishaps at the site due to faulty work, negligence, faulty construction and/or for violating any law, rules and regulations in force, for the time being while executing/executed works by me/us.

2. Any damages, loss or expenses due to or resulting from any negligence or breach of duty on the part of me/us or my sub contractor's if any, servants or agents.

3. Any claim by an employee of mine/ours or of sub-contractors if any, under the Workmen's Compensation Act and Owners Liability Act, 1939 Contract Labours Act, Minimum Wages ESI Act or any other law, rules and regulations in force for the time being and any Acts replacing and/or amending the same or any of the same as may be in force at the time and under any law in respect of injuries to persons or property arising out of and in the course of the execution of the contract work and/or arising out of and in the course of employment of any workman/employee.

Any act or omission of mine/ours of sub-contractor's if any, our/their servants or agents which may involve any loss, damage, liability, civil or criminal action.

IN WITNESS WHEREOF THE \_\_\_\_\_ has set his/their hand on this day of \_\_\_\_\_ 2022.

SIGNED AND DELIVERED BY THE \_\_\_\_\_ NAME AND ADDRESS

AFORESAID \_\_\_\_\_ (Contractor)

IN THE PRESENCE OF WITNESSES:

## ARTICLES OF AGREEMENT

ARTICLES OF AGREEMENT made at \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_ Two Thousand and Twenty Two.

BETWEEN

UNION BANK OF INDIA, Staff College, Bannerghatta Road, Kalkere Post, Bengaluru - 560083 hereinafter called “the Bank” (which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and assigns) of the ONE PART

AND

MESSRS \_\_\_\_\_, having its registered office at \_\_\_\_\_, hereinafter called the “Contractor” (which expression shall unless repugnant to the context or meaning thereof, include its successors and permitted assigns) of the OTHER PART.

### WHEREAS

The Bank is desirous of Civil Repair and Renovation work of existing Auditorium Building at campus of Staff College, Kalkere, Bannerghatta Road, Bengaluru -560083, Karnataka.

- i. The Bank has caused the drawings and bills of quantities showing and describing the Works to be done to be prepared by or under the direction of the Consultants / Architect;
- ii. The Bank had invited tenders for carrying out heightening/renovation/repairs to compound wall with barbed wire fencing around the campus of Staff College, Kalkere Post, Bennerghatta Road, Bengaluru -560083, Karnataka in accordance with the general conditions of contract, special conditions of contract, technical specifications, bills of quantities and working drawings furnished to the Contractor.
- iii. Having examined the general conditions of contract, special conditions of contract, technical specifications, bills of quantities and working drawings, the Contractor offered to execute, complete and maintain the whole of the Works relating to the Project in conformity with the said general conditions of contract, special conditions of contract, technical specifications, bills of quantities and working drawings and in accordance with instructions issued by the bank and the Contractor submitted its tender for the contract sum of Rs. \_\_\_\_\_ towards the said work.
- iv. The tender submitted by the Contractor was, after negotiations, modified/alterd upon the Contractor agreeing to revise the rates of certain items and further offering a rebate for execution and completion of the Project thereby reducing the

tender amount to Rs. \_\_\_\_\_ as confirmed by its letters dated \_\_\_\_\_.

- v. Towards the implementation of the Project, the Contractor has supplied the Bank with a fully priced copy of the said bills of quantities (which copy is hereinafter referred to as “the Contract Bills”) and the drawings numbered as mentioned in the Annexure 11 of the Tender document inclusive (hereinafter referred to as “the Contract Drawings”) and the Contract Bills and the contract Drawings have been signed by or on behalf of the parties hereto:
- vi. The Contractor has already agreed with the Bank to implement and execute the Project in full on the basis of the contract documents as hereinafter defined on the terms and conditions therein contained;
- vii. The parties are now executing this Agreement setting out the basic terms of the agreement between them for smooth implementation and execution of the Project without any unnecessary difference or dispute.

NOW IT IS HEREBY AGREED as follows:

1. The Contract Document is comprising of

- i. Tender document including technical bid (Vol.-I) and pre-bid (Vol.-II).
- ii. Notice Inviting Tender issued vide letter \_\_\_\_\_
- iii. Subsequent letters issued by the Bank vide \_\_\_\_\_
- iv. Clarifications submitted by the contractor vide letter dt. \_\_\_\_\_.
- v. Minutes of Meeting held on \_\_\_\_\_
- vi. Rebate / Discount offered by the contractor vide letter \_\_\_\_\_
- vii. Work Order issued by the Bank vide letter \_\_\_\_\_
- viii. Acceptance letter \_\_\_\_\_ from the contractor
- ix. Drawings numbering as mentioned in the Annexure 11 of the Tender document enclosed along with the tender document.

1. a Unless the context otherwise requires the contract documents above mentioned shall be harmoniously construed and in the chronological order.

1.b Unless otherwise expressly provided under these presents, contract documents (iii) to (ix) above shall be construed as modifying only those general and special terms and conditions in tender document in so far and to the extent referable to the clauses in the said tender document.

1.c Unless otherwise stated expressly hereunder, all the general and special terms and conditions shall apply and binding on the contractor.

2. The Contract Document is complimentary. What is called for in any one shall be as binding as called for by all. The aforesaid shall form integral part of contract and

in the event of any inconsistency between any provisions herein the provisions of the Contract Documents shall prevail. When any of the General and Special Conditions are at variance, the condition stipulated in the Special Conditions of Contract shall supercede relevant provisions in General Conditions. For all matters not specifically provided for herein the provisions of General and Special Conditions in the Tender Documents shall apply and the rights and liabilities of the parties shall be decided accordingly. The decision of the Bank / Architect in this regard shall be final and binding.

3. All time limits stated in the Contract Document are of the essence of the contract where the work has to be completed within 45 days failing which liquidated damages will be recovered @ 1% of contract amount for per week of delay subject to maximum recovery of 10% of the contract amount.
4. For the consideration hereinafter mentioned, the Contractor shall carry out and complete the Works in conformity with the contract documents and in accordance with the instructions issued by the consultant from time to time including all modifications extra and additional works and obligations to be carried out either on the Site or at any factory or work shop or any other place for subsequent incorporation as required for the due performance of the contract.
5. The general character and the scope of the Works is illustrated and defined by the specifications and the bills of quantities herewith attached and by the signed drawings. The scope includes furnishing all materials, labour, tools, equipment and management necessary for and incidental to the construction and completion of the Works. If the Contractor shall find any discrepancy in or divergence between the contract drawings and/or the contract bills he shall immediately give to the Consultant a written notice specifying the discrepancy or divergence and the Consultant shall issue instructions in regard thereto which shall be complied with by the Contractor.
6. INTENT  
The intention of arrangement is to secure the performance of the Contractor's obligations to the satisfaction of the Bank / Architect / Consultant. All labour, material, equipment, constructional plant and transportation necessary for the proper execution of the Project is to be provided by the Contractor and should only be of the approved manufacturer/agencies respective kinds as described in the Contract Documents which is to be subjected from time to time to such tests as the Engineer/ Consultant's representative may direct. In case the required material/services of approved manufacturers/agencies are not available or are not upto the mark the Contractor shall procure material/ services from such other manufacturer/agencies as may be approved by the Consultant / Bank and the Contractor shall submit rate analysis for such material.

## 7. EXTENT

The Contractor shall carry out and complete the Works in every respect in accordance with this contract and with the directions of and to the reasonable satisfaction of the Consultant. The Consultant may in their absolute discretion and from time to time issue further drawings, details and/or written instructions and written explanations whole of which are collectively referred to as Consultants' instructions. All such drawings and instructions shall be consistent with the Contract Document true developments thereof as reasonably inferable therefrom.

## 8. TYPE OF CONTRACT

The Contract is an item rate contract. The Contractor shall be paid for the actual quantity of Work done, as measured at Site, at the rates quoted by him in the Contract Bills. The contractor has

- i. Been informed that the schedule of approximate quantities is liable to alteration by omission, deduction, substitution or additions at the discretion of the Consultant/Bank without affecting the terms of the contract and no compensation to Contractor.
- ii. Fully and correctly understood the meaning of all the tender documents, the General Conditions of Contract, Special Condition of Contract, Technical Specifications, Bill of Quantities and working drawings or part thereof.

## 9. CONTRACTORS COVENANTS

- i. The Tender form conditions, priced schedule of quantities, contract drawings and General and Special Conditions of Contract, specifications, Drawings, priced Bill of Quantities, Schedule of Rates and Prices, if any, Tender, pre-contract correspondence, Letter of Intent/Acceptance, Work order, shall be read and construed as forming part of this agreement and the Contractor shall abide by and submit themselves to all the conditions and stipulations contained therein; which are not specifically incorporated herein;
- ii. The Contractor shall obtain necessary permissions/ certificates/ order from the Competent Authority in respect of workmen employed by them for the Project and shall keep the Bank safe, harmless and reimburse all amounts/expenses incurred or suffered by the Bank in connection with any such claim;
- iii. The Contractors shall not make any claim as regards want of information of any particular point or any change in the rate or conditions save and except as provided herein;
- iv. The Contractors shall have a duly authorized agent at the place of Work to accept services of notice and to agree to extras, omissions, additions and substituted items

of Works and rates from the commencement of the Work until it is virtually completed.

- v. In the event of any discrepancy between the details and/or description given in the Bill of Quantities, the Drawings and the Technical Specifications, such item shall be deemed to have been priced in accordance with the details and/or description confirming to the most superior provisions contained in any of the following :-
    - a) Bill of Quantities
    - b) Drawings
    - c) Technical Specifications
  - vi. It shall be understood that the details and/or description not specifically mentioned in the Bill of Quantities and/or the drawing shall be the same as those mentioned in the Technical Specification. Any further interpretation of above Clause shall be at the discretion of the Consultants, whose decision shall be final and binding on the parties to the contract.
  - vii. The Contractors shall not make any claim for increase in the contract consideration on the basis of incorrectness and insufficiency of the information available at the time of submitting the Tender and/ or incorrectness and insufficiency of the rates and prices stated in the price bill of quantity and schedule of rates and prices or otherwise alleging insufficiency of the tender amount to cover their obligation under the contract or matters concerning the execution of the Project.
  - viii. The Contractor shall be fully responsible for the adequacy, stability and safety of all site operations and methods of construction, provided that the Contractor shall not be responsible, except as may be expressly provided in the Contract, for the design or specification of the Permanent Works, or for the design or specification of any Temporary Works prepared by the Consultant.
  - ix. The Contractor shall promptly inform the Consultant of any error, omission, fault and other defects in design, drawing or specifications for the Works, which are discovered while reviewing the Contract Documents or in the process of execution of the Works.
  - x. The Contractor shall arrange for the permits and licenses for release of materials, which are under Government control subject to the Bank giving all the necessary assistance and upon being advised by the Consultant signing any forms or applications that may be necessary.
10. The Contractor shall comply with the provisions of all labour legislation including the requirements of
- a) The Payment of Wages Act
  - b) Workmen's Compensation Act
  - c) Contract Labour (Regulation & Abolition) Act, 1970 and Central Rules 1971.
  - d) Apprentices Act 1961
  - e) Minimum Wages Act

11. The Contractor shall keep the Bank saved harmless and indemnified against claims arrears of wages if any of the workmen and all costs and expenses as may be incurred by the Bank in connection with any claim that may be made by any workmen.

## 12. GENERAL CONDITIONS

- i. The schedule of Quantities given in the Contract Bill are provisional and are meant to indicate the intent of the Work and to provide a uniform basis for tendering. The Bank reserves the right to increase or decrease any of the quantities or to totally omit any item of Work and the Contractor shall not claim any extras or damages on these grounds.
  - ii. Any error in description or in quantity or omission of items from the Contract Bill shall not vitiate this Contract but shall be treated as a variation.
  - iii. The rates quoted by the Contractor in the priced bill of quantities (Contract Bills) shall be treated as firm and the contract sum shall be deemed to have been calculated with reference to the cost of execution of Works as set out in Contract Documents and shall not be adjusted or altered for any reason other than any adjustments on account of statutory rise or fall in the cost of labour and/or material or any other matters affecting the cost of execution of Works, or price variation adjustment formula if provided.
13. Notwithstanding anything contained elsewhere in any of the clauses of the tender, the prices/rates quoted for each item/Work in the Bills of Quantities shall be deemed to be inclusive of all direct and indirect costs, GST, duties, taxes, sales tax, consignment tax, octroi/local tax, Works contract tax, etc. on any of inputs, royalty on quarried items etc. that may be involved in completing the item/Work as required in the fulfillment of all obligations under the contract and to the satisfaction of the Engineer. Additional Taxes / Levies by Central / State Government legislations after opening of tender shall be reimbursed to the contractors as per actual.
14. All the interim payments shall be regarded as payments by way of advance against the final payment only and not as payments for Work actually done and completed, and shall not preclude the repairing of bad, unsound, and imperfect or unskilled Work to be removed and taken away and reconstructed, or re-erected or be considered as an admission of the due performance of the contract, or any part thereof in any respect or the accruing of any claim, nor shall, it conclude, determine or affect in anyway the power of the Bank under these conditions or any of them as to the final settlement and adjustment of the accounts or otherwise or in any other way vary or affect the contract. The final bill shall be submitted by the Contractor within one month of the date fixed for completion of the Work or of the date of certificate of completion furnished by the Consultant and payment

shall be made within eight (8) weeks from the date of receipt of final Certificate from the Consultant.

#### 15. INSURANCE

- i. Without limiting the obligations and responsibilities under Contract Clause for Care of Work the Contractor shall effect third party insurance with an insurer and in terms approved by the Bank in the joint names of the Bank and the Contractor-
- ii. against all loss or damage from whatever cause arising, other than the excepted risks stated in contract clause of the General Conditions for which the Contractor is to be held responsible under the terms of the Contract so as to cover the Bank and the Contractor during the period beginning with commencement of the Works until the date stated in the Certificate of Completion for the whole of the Works.
- iii. Against any loss or damage occasioned by the Contractor in the course of any operations carried out by him for the purposes of completing the outstanding Work during the Defects Liability period pursuant to the Undertaking given at the time of applying for the issue of Certificate of Completion.
- iv. against any loss or damage occasioned by the Contractor in the course of any operations carried out by him for rectifying any defect in perfection or fault appearing during the progress of the Work or during the Defects Liability Period.
- v. Against any loss or damage occasioned by the Contractor in the course of any operations carried out by him for searching the cause of any defect, imperfection or fault appearing during the progress of the Works or during the Defects Liability Period.
- vi. Against any liability for or in respect of any damages or compensation payable at law in respect of or in consequence of any accident or injury to any workmen or other person in the employment of the sub-Contractor provided the sub-contractors shall not have insured against such contingency. (Insurance against accident etc. to workman)
- vii. Unless otherwise instructed the Contractor shall insure the Works and keep them insured until the virtual completion of the contract against loss or damage by fire and/or earthquake, flood.
- viii. The Contractor shall maintain Contractors' all risks insurance policy covering loss, damage, theft, burglary etc. of all materials and equipments, temporary Works and the Work shall be insured for a total sum equal to the value of all such items plus 10% of such value.

Provided always that all the insurance under the contract documents shall be arranged by the Contractor from a first class insurance company having a branch

near the site who can deal with all matters pertaining to the subject, the insurance must be placed with a company approved by the Bank, in the joint names of the Bank and the Contractor for such amount and for any further sum if called to do so by the Bank, the premium of such further sum being allowed to the Contractor as an authorized extra.

16. The Contractor shall deposit the policy and receipt for premiums paid with the Bank within 21 (twenty one) days from the date of issue of Work order unless otherwise instructed. In default of the Contractor insuring as provided above, the Bank on his behalf may so insure and may deduct the premiums paid from any money due, or which may become due to the Contractor. The Contractor shall as soon as the claim under the policy is settled or the Work reinstated by the Insurance Company should they elect to do so, proceed with due diligence with the completion of the Works in the same manner as though the insured risk/contingency has not occurred and in all respects under the conditions of the contract. The Contractor in case of rebinding or reinstatement after the occurrence of the insured risk/contingency shall be entitled to such extension of time for completion as the Bank may deem fit.
- 16.1.1 Such insurance shall continue during the whole of the time of continuance of Work and/or during such time that any persons are employed by him on the Works and shall when required produce before the Bank or the consultant, such policy of insurance and the receipt for payment of the earlier premium and the current premium.
- 16.1.2 The insurance shall be effective in such manner that the Bank is indemnified under the policy. In the event of the sub-contractor having affected an insurance against accident etc. to the workmen the Contractor shall require such sub-contractor to produce to the Bank / consultant when required, such policy of insurance and the receipt for the payment of the current premium, then in that event insurance under clause (vii) hereof by the Contractor shall not be necessary.
- 16.1.3 The Contractor shall provide for adequate cover to the Bank as per the provisions of Workmen Compensation Act.
- 16.1.4 The Contractor shall make available the insurance cover note before the commencement of the Work and shall notify any change in the nature or extent of the Work and also make available additional insurance of Works if required in special circumstances.

## 17 DEFECTS LIABILITY

- 17.1 Any defects, shrinkages or other faults which shall appear within the Defects Liability Period of 12 months from the date of handing over the works and which are due to materials or workmanship not in accordance with this contract or on account of failure on the part of the Contractor to comply with any of his obligations expressed or implied shall be specified by the consultant in a schedule of defects which he shall deliver to the Contractor not later than 14 days after the expiration of the Defects Liability Period, and within a reasonable time after receipt of such schedule the defects, shrinkages and other faults therein specified shall be made good by the Contractor and (unless the consultant shall otherwise instruct, in which case the contract sum shall be adjusted accordingly) entirely at his own cost.
- 17.2 The Contractor shall make good at his own costs and to the satisfaction of the consultant, all defects, shrinkages or small faults arising in the opinion of the consultant / engineer from Work or materials not being in accordance with the drawings or specifications or schedule of quantities or the instructions of the Engineer / consultant, which may appear within the "Defects Liability Period of 12 months from the date of handing over completed site" referred to in the Appendix to General Conditions. All defects, shrinkages or small faults arising from any other cause not attributable to the Contractor shall be rectified by the Contractor as an additional work.
- 17.2.1 In the event of failure of the Contractor to carry out any such work to the satisfaction of the Engineer / consultant, the Bank shall be entitled to carry out the same at the Contractor's costs and all expenses consequential and incidental thereto shall be deducted by the Bank from any monies due or to become due to the Contractor.
- 17.2.2 When in the opinion of the Engineer / consultant any defects, shrinkages or other faults which he may have required to be made good under sub-clause (1) and (2) of this condition shall have been made good he shall issue a certificate to that effect, and completion of making good defects shall be deemed for all the purposes of this contract to have taken place on the day named in such certificate.
- 18 SPECIAL RISK  
The Contractor shall not be liable for or in respect of any consequences arising out of any special risks. The responsibilities, rights and liabilities of the parties in such case shall be determined with respect to Conditions mentioned in General Conditions.

## 19 STATUTORY OBLIGATIONS, NOTICES, FEES AND CHARGES

The Contractor shall comply with and give all notices required by any Act of Parliament, any instrument rule or order made under any Act of Parliament, or any regulation or byelaw of any local authority or of any statutory undertaker which has

any jurisdiction with regard to the Works or with whose systems the same area or will be connected. The Contractor before making any variation from the contract drawings or the contract bills necessitated by such compliance shall give to the Engineer / consultant a written notice specifying and giving the reason for such variation and the Engineer / consultant may issue instructions in regard thereto. If within 7 days of having given the said written notice the Contractor does not receive any instructions in regard to the matters therein specified, he shall proceed with the Work confirming to the Act of Parliament, instrument, rule, order, regulation or byelaw in question and any variation thereby necessitated shall be deemed to be a variation required by the Engineer / consultant.

## **20 MATERIALS, WORKMANSHIP, SAMPLES, TESTING OF MATERIALS**

- 20.1.1 All the Works specified and provided for in the specifications or which may be required to be done in order to perform and complete any part thereof shall be executed in the best and most workmanlike manner with materials of the best and approved quality of the respective kinds in accordance with the particulars contained in and implied by the specifications and as represented by the drawings or according to such other additional particulars, and instructions as may from time to time be given by the consultant /Engineer during the execution of the Work, and to his entire satisfaction.
- 20.2 If required by the consultant /Engineer the Contractor shall have to carry out tests on materials and workmanship in approved materials testing laboratories or as prescribed by the consultant /Engineer at his own cost to prove that the materials etc., under test conform to the relevant I.S. Standards or as specified in the specifications. The necessary charges for preparation of mould (in case of concrete cube) transporting, testing etc., shall have to be borne by the Contractor. No extra payment on this account should in any case be entertained.
- 20.2.1 In case contractor is delaying or refusing or avoiding testing of material, the consultant/engineer shall arrange for carrying out testing of material and the necessary expenditure in carrying out the testing, transportation and incidental expenses shall be recovered from the contractor.
- 20.2.2 All the materials (except where otherwise described) stores and equipment required for the full performance of the Work under the contract must be provided through normal channels and must include charge for import duties, GST, sales tax, octroi and other charges and must be the best of their kind available and the Contractor/s must be entirely responsible for the proper and efficient carrying out of the Work. The Work must be done in the best workmanlike manner. Samples of all materials to be used must be submitted to the Consultant/Engineer when so directed by the Consultant / Engineer and written approval from Consultant / Engineer must be obtained prior to placement of order.

20.2.3 During the inclement weather the Contractor shall suspend concreting and plastering for such time as the Consultant /Engineer may direct and shall protect from injury all Work when in course of execution. Any damage (during constructions) to any part of the Work for any reason due to rain, storm or neglect of Contractor shall be rectified by the Contractor in an approved manner at no extra cost.

21 If the Work be suspended by reason of rain, strike, lock-outs or any other cause, the Contractor shall take all precautions necessary for the protection of Work and at his own expenses shall make good any damage arising from any of these causes.

22 The Contractor shall cover up and protect from damage from any cause, all new Work and supply all temporary doors, protection to windows, and any other requisite protection for the execution of the Work whether by himself or special tradesmen or sub-contractor and any damage caused must be made good by the Contractor at his own expenses.

## 23 SUBSTITUTION

Should the Contractor desire to substitute any materials and workmanship, he/they must obtain the approval of the Bank / Consultant in writing for any such substitution well in advance. Materials designated in this specification indefinitely by such term as “Equal” or “Other approved” etc. specific approval of the Bank/Consultant has to be obtained in writing. The term equivalent means, if material specified is not available, then after satisfying to the fact, the consultant / engineer may give other material to be used which will be subject to adjustment in purchase prices.

## 24 INSPECTION OF WORKS

24.1 All materials and workmanship shall be subject to inspection, examination and test at any and all times during manufacture and/or construction. The Consultant may issue instructions requiring the Contractor to open up for inspection any Work covered up or to arrange for or carry out any test at any and all times.

24.2 The Consultant / Engineer shall have the right to reject the defective material and workmanship or require its correction.

24.3 The test of any materials or goods (whether or not already incorporated in the Works) or of any executed Work, and the cost of such opening up or testing (together with the cost of making good in consequence thereof) shall be added to the contract sum unless provided for in the contract bills or unless the inspection or test shows that the Work, materials or goods are not in accordance with this contract.

- 24.3.1 The Consultant / Engineer may issue instructions in regard to the removal from the site of any Work, materials or goods, which are not in accordance with this contract.
- 24.4 The Engineer may issue instructions requiring the dismissal from the Works of any person employed thereon.
- 24.5 On the failure of the Contractor to comply with any of the Engineer's instructions the Engineer may proceed to replace or correct such material/workmanship entirely at the cost of the Contractor.

## 25 REMOVAL OF IMPROPER WORK

The Bank shall during the progress of the Work have power to order in writing from time to time the removal from the Work within such reasonable time or times as may be specified in the order of any materials which in the opinion of the Consultant / Engineer are not in accordance with specification or instructions, the substitution or proper re-execution of any Work executed with materials or workmanships not in accordance with the drawings and specifications or instructions. In case the Contractor refuses to comply with the order the Bank shall have the power to employ and pay other agencies to carry out the Work and all expenses consequent thereon or incidental thereto as certified by the Consultant / Engineer shall be borne by the Contractor or may be deducted from any money due to or that may become due to the Contractor. No certificate which may be given by the Engineer shall relieve the Contractor from his liability in respect of unsound Work or bad materials.

## 26. PROTECTIVE MEASURES

The Contractor from the time of being placed in possession of the site must make suitable arrangements for watching, lighting and protecting the work, the site and surrounding property by day, by night, on Sundays and other holidays.

Contractor shall indemnify the Bank against any possible damage to the building, roads, or members of the public in course of execution of the work.

The contractor shall provide necessary temporary enclosures etc. for the protection of the work and materials and for altering and adopting the same as may be required and removing on completion of the works and making good all works disturbed.

## 27 . NOTICE AND PATENTS OF APPROPRIATE AUTHORITY AND OWNERS.

- a. The Contractor shall conform to the provisions of any Acts of the Legislature relating to the Work, and to the Regulations and Bye-laws of authorities, and/or

any water, lighting and other companies, and/or authorities with whose systems the structures were proposed to have connection and shall before making any variations from the drawings or specification that maybe associated to so conform, give the Consultant / Engineer written notices, specifying the variations proposed to be made and the reasons for have making them and apply for instruction thereon. The Consultant / Engineer on receipt of such intimation shall give a decision within a reasonable time.

- b. The Contractor/s shall arrange to give all notices required for by the said Acts, Regulations or Bye-laws to be given to any authority, and to pay to such authority or to any public officer all fees that may be properly chargeable in respect of the Work and lodge the receipts due with the Bank.

## **28      ASSIGNMENT AND SUB-LETTING**

- a. The whole of the Works included in the contract shall be executed by the Contractor and the Contractor shall not directly or indirectly transfer, assign or underlet the contract or any part, share or interest therein nor, shall take a new partner, without written consent of the Bank and no subletting shall relieve the Contractor from the full and entire responsibility of the contract or from active superintendence of the Work during their progress.
- b. The Contractor shall not assign the Contract or any benefit or interest therein or there under, otherwise than by a charge in favour of the Contractor's bankers of any monies due or to become due under this Contract, without the prior written consent of the Bank.
- c. The Contractor shall not sub-let the whole of the Works except where otherwise provided by the contract, the Contractor shall not sublet any part of the Works without the prior written consent of the Engineer, which shall not be unreasonably withheld, and such consent, if given shall not relive the Contractor from any liability or obligation under the contract and he shall be responsible for the acts, defaults and neglects of any sub-contractor, his agents, servants or workmen as fully as if they were the acts, defaults or neglects of the Contractor, his agents, servants or workmen. Provided always that the provision of labour on a piecework basis shall not be deemed to be a subletting under this clause. The Contractor shall co-ordinate and shall be responsible for all aspects of his sub-contractor(s) without being relieved of any of his obligation under the contract.
- d. If, the contracting agencies are violating the tender terms and sub-let the work without bank's consent and the same is brought to the notice of the Bank, the Bank will be entitled to recover 10% cost of such work as penalty besides initiating measures as provided in contract.

33. If, at any time during the execution of the Works, the Consultant / Engineer shall require the Contractor to make boreholes or to carry out exploratory excavation, such requirement shall be ordered in writing and shall be deemed to be an addition ordered under the provisions of the General Conditions unless a provisional sum in respect of such anticipated Work shall have been included in the Bill of Quantities.
34. The Contractor shall in connection with the Works provide and maintain at his own costs all lights, guards, fencing and watching when and where necessary or required by the Consultant / Engineer or the Bank, or by any duly constituted authority, for the execution and for the protection of the Works, and/or for the safety and convenience of the public / others.
35. The Contractor shall, in accordance with the requirements of the Consultant / Engineer, afford all responsible opportunities for carrying out their Work to any other Contractors employed by the Bank and their workmen and to the workmen of the Bank and of any other duly constituted authorities who may be employed in the execution on or near the Site of any Work not included in the contract or of any contract with the Bank may enter into in connection with or ancillary to the Works. The Contractor will not be paid any compensation on this account.
36. Shall keep the Site reasonably free from unnecessary store of constructional plant and machinery, wreckage and rubbish during progress of Works and on completion leave the whole site clean and in a workmanlike condition to the satisfaction of the Consultant / Engineer.

**37. Default of Contractor**

**37.1 If the Contractor**

- i. being a company presents a petition for winding up and/or goes into liquidation (other than a voluntary liquidation for the purposes of amalgamation or reconstruction) or
- ii. shall make an assignment or a composition for the benefit of the greater part, in number of amounts of his creditors or shall enter into a Deed or arrangement with his creditors, or
- iii. if a Receiver of the Contractor's firm appointed by the court shall be unable, within fourteen days after notice to him requiring him to do so, to show to the reasonable satisfaction of the Bank that he is able to carry out and fulfill the contract, and if so required by the Bank to give reasonable security therefore, or
- iv. if the Contractor shall suffer execution to be issued, or
- v. shall suffer any payment under this contract to be attached by or on behalf of and of the creditors of the Contractor, or

- vi. shall assign, charge or encumber this contract or any payments due or which may become due to the Contractor without the consent in writing of the Bank first obtained, thereunder, or
- vii. shall agree to carry out the contract under a committee of inspections of his creditors, or
- viii. shall have an execution levied on his goods, or
- ix. shall use improper materials or workmanship in carrying on the Works, or
- x. shall in the opinion of the Bank not exercise such due diligence and make such due progress as would enable the Work to be completed within due time agreed upon, and
- xi. the Consultant / Engineer certifies in writing that the Contractor has failed to commence the Works or failed to proceed with the Works after the suspension order when so called upon by the Consultant / Engineer, or
- xii. shall abandon the contract,
- xiii. Has submitted to Bank documents which turned out to be false/incorrect
- xiv. without reasonable excuse has failed to commence the Works or have suspended the progress of Works for 28 days after receiving from the Consultant / Engineer written notice to proceed on
- xv. has failed to remove materials from the site or to pull down or replace for 28 days after receiving from the Consultant / Engineer written notice that the said materials or Work has been condemned and rejected by the Consultant / Engineer under these conditions or
- xvi. despite previous writings by the Consultant / Engineer in writing has failed to execute Works in accordance with the contract, or is persistently or flagrantly neglecting to carry out his obligations under the contract or as to the detriment of good workmanship or in defiance of the Consultant / Engineer's instructions to the contrary, sublet any part of the contract then and in any of the said cases the Bank may notwithstanding previous waiver
  - a) determine the contract by after giving 14 days notice in writing to the effect as hereinafter mentioned, but without thereby affecting the powers of the Bank or the obligations and liabilities of the Contractor the whole of which shall continue in force as fully as if the contract, had not been so determined and as if the Works subsequently executed had been executed by or on behalf of the Contractor (without thereby creating any trust in favour of the Contractor)

- b) further the Bank or his agent, or servants, may enter upon the Site and take possession of the Work and all Constructional Plant, amenities, unused materials, tools, scaffolding, sheds, machinery, steam and other power, utensils and materials lying upon premises or the adjoining lands or roads reserved for the execution of the Works and
- sell the same as his own property or
  - may employ the same by means of his own servants and workmen in carrying on and completing the Works or
  - by employing any other Contractors or other persons or person to complete the Works, and the Contractor shall not in any way interrupt or do any act, matter of thing to prevent or hinder such other Contractors or other persons or person employed from completing and finishing or using the materials and plants for the Works when the Works shall be completed, or as soon thereafter as conveniently may be, the Bank shall give notice in writing to the Contractor to remove his surplus materials and plants and should the Contractor fail to do so within a period of 14 days after receipt by him the Bank may sell the same by Public Auction and shall give credit to the Contractor for the amount so realized.
- 37.2 Any expenses or losses incurred by the Bank in getting the Works carried out by other Contractors shall be adjusted against the amount payable to the Contractor by way of selling his tools and plants or due on account of Work carried out by the Contractor prior to engaging other Contractors or against the Security Deposit.
- 37.2.1 Upon such entry and expulsion by the Bank the Consultant / Engineer may adopt an appropriate mode at his discretion and certify the amounts, if any, that had at the time of such entry and expulsion reasonably been earned in respect of the work actually done by him and the value of any unused or partially used materials, any Constructional Plant and any amenities brought into existence exclusively for execution of the Works.
- 37.3 If the Bank shall enter and expel [the Contractor] under this Clause, he shall not be liable to pay to the Contractor any money on account of the Contract, until the expiration of the Defects Liability Period and thereafter until the costs of execution, damages for delay in completion, if any, and all other expenses incurred by the Bank have been ascertained and the amount thereof certified by the Consultant / Engineer. The Contractor shall then be entitled to receive only such sum or sums, if any, as the Consultant / Engineer may certify would have been payable to him upon due completion by him after deducting the said amount. If such amount shall exceed the sum which would have been payable to the Contractor on due completion by him, then the Contractor shall, upon demand, pay to the Bank the amount of such excess and it shall be deemed a “debt due” by the contractor to the Bank and shall be recoverable accordingly.

### 38 DEFAULT OF THE BANK

#### 38.1 The Contractor may, if -

- a. The Bank does not pay to the Contractor for reasons not attributed to the amount due on any certificate within six weeks from the receipt of Certificate from the Consultant honouring certificates named in the appendix to these conditions and continues such default for 7 days after receipt by registered post or recorded delivery of a notice from the Contractor stating that notice of determination under this condition will be served if payment is not made within 7 days from receipt thereof; or
- b. The Bank becomes bankrupt or makes a composition or arrangement with his creditors or has a winding up order or (except for the purposes of reconstruction) a resolution for voluntary winding up passed or a receiver or manager of his business or undertaking is duly appointed, or possession is taken by or on behalf of the holders of any debentures secured by a floating charge, of any property comprised in or subject to the floating charge,
- c. if the Bank gives a formal notice of his inability to meet his contractual obligations after giving 14 days prior written notice by registered post or recorded delivery to the Bank with a copy to the Consultant / Engineer terminate the employment of the Contractor PROVIDED that such notice shall not be given unreasonably or vexatiously.

38.2.1 Upon the expiry of 14 days notice referred to herein, the Contractor shall with all reasonable dispatch remove from the site all constructional plant brought by him thereon.

38.2.2 Upon such determination for default, without prejudice to the accrued rights or remedies of either party or to any liability which may accrue either before the Contractor or any sub-contractors shall have removed his temporary buildings, plant, tools, equipment, goods or materials or by reason of his or their so removing the same, the respective rights and liabilities of the Contractor and the Bank shall be as follows, that is to say:

- a. The Contractor shall with all reasonable dispatch and in such manner and with such precautions as will prevent injury, death or damage of the classes in respect of which before the date of determination he was liable to indemnify the Bank remove from the site all his temporary buildings, plant, tools, equipment, goods and materials and shall give facilities for his sub-contractors to do the same;
- b. After taking into account amounts previously paid under this contract the Contractor shall be paid by the Bank for;
  - The legitimate total value of Work completed at the date of determination;

- The total value of Work begun and executed but not completed at the date of determination, the value being ascertained if such Work were a variation required by the Consultant / Engineer;
- The cost of materials or goods properly ordered for the Works for which the Contractor shall have paid or for which the Contractor is legally bound to pay, and on such payment by the Bank any materials or goods so paid for shall become property of the Bank;
- And in addition, the amounts payable in respect of any preliminary item, so far as the work or service comprised therein has been carried out or performed and a proper proportion as certified by the Consultant / Engineer of any such item, work or service comprised in which has been partially carried out or performed.
- A sum certified by the Bank being the amount of any expenditure reasonably incurred by the Contractor in the expectation of completing the whole of the Works in so far as such expenditure shall not have been covered by the payments made under this clause.

Provided always that against any payment due from the Bank under this sub-clause, the Bank shall be entitled to be credited with any outstanding balances due from the Contractor for advances in respect of constructional plant and materials and any other sums which at the date of termination were recoverable by the Bank from the Contractor under the terms of the Contract. The Bank shall also return all Bank Guarantees and Retention after proper accounts have been settled between the Contractor and the Bank.

Provided that in addition to all other remedies the Contractor upon such determination take possession of and shall have a lien upon all unfixed goods and materials, which may have become the property of the Bank until payment of all monies due to the Contractor from the Bank.

- 38.3 If a war or other circumstances outside the control of both the parties, arises after the Contract is made, so that either party is prevented from fulfilling his contractual obligations, or under the law governing the Contract, the parties are released from further performance, then the sum payable by the Bank to the Contractor in respect of the Work executed shall be the same as that which would have been payable under Clause 32 hereof as if the Contract had been terminated under the provisions of Clause 32 hereof. Performance of obligations becoming more onerous shall not be consider as a cause for “Frustration”.

## 39 NOTICES

- 39.1.1 All certificates, notices or written orders to be given by the Bank or by the Consultant / Engineer to the Contractor under the terms of the Contract shall be served by sending by registered post or by Courier or delivering the same to the Contractor's principal place of business, or such other address as the Contractor shall nominate for this purpose.
- 39.1.2 All notices to be given to the Bank or to the Consultant / Engineer under the terms of the Contract shall be served by sending by registered post or by Courier or delivering the same to the respective addresses nominated for that purpose in Part II of these conditions.
- 39.1.3 Either party may change a nominated address to another address in the country where the Works are being executed by prior written notice to the other party and the Consultant / Engineer may do so by prior written notice to both parties.

## 40 ARBITRATION

- 40.1.1 Wherever, in any of the documents forming part of the Contract, the Consultant / Bank has been vested with the final powers, his decision, opinion, certificate or any other discretion shall be final conclusive and binding on the parties and shall be without appeal. All other matters shall be subject to the right of arbitration.
- 40.1.2 All disputes or differences of any kind whatsoever save and except matters referred to in clause 1) arising out of or in connection with the Contract, whether during the progress of Work or after Completion and shall after written notice by either party to the contract to the other of them and to the Bank hereinafter mentioned be referred for adjudication to two Arbitrator, one each to be nominated by the Contractor and the Bank, who shall thereafter appoint an Umpire. The provisions of Indian Arbitration and Conciliation Act 1996 shall apply for the purposes.
- 40.1.3 The Work under the Contract shall, however, continue during the arbitration proceedings and no payment due or payable to the Contractor shall be withheld on account of such proceedings.
- 40.1.4 The Arbitrator shall be deemed to have entered on the reference on the date he issued notice to both the parties fixing the date of the first hearing.
- 40.1.5 The Arbitrator may from time to time, with the consent of the parties, enlarge the time for making and publishing the award.
- 40.1.6 The Arbitrator shall give a separate award in respect of each dispute or difference referred to him. The Arbitrator shall decide each dispute in accordance with the terms of the contract and give a reasoned award. The venue of arbitration shall be such place as may be fixed by the Arbitrator in his sole discretion.

40.1.7 The fees, if any, of the Arbitrator shall, if required to be paid before the award is made and published, be paid half and half by each of the parties. The cost of the reference and of the award including the fees, if any, of the Arbitrator who may direct to and by whom and in what manner, such costs or any part thereof shall be paid and may fix or settle and amount of costs to be so paid.

40.1.8 The award of the Arbitrator shall be final and binding on both the parties.

40.1.9 Subject to aforesaid the provisions of the Arbitration & Conciliation Act 1996 or any statutory modification or re-enactment thereof and the rules made thereunder, and for the time being in force, shall apply to the arbitration proceeding under this clause.

40.1.10 The Bank and the Contractor hereby also agree that arbitration under clause shall be a condition precedent to any right to action under the contract with regard to the matters hereby expressly agreed to be so referred to arbitration.

## GENERAL INSTRUCTIONS TO CONTRACTORS AND SPECIAL CONDITIONS

- 1) Canvassing in connection with tenders is strictly prohibited and the tenders submitted by the contractors who resort to canvassing will be liable to rejection.
- 2) The Tender Form must be filled in English and all entries must be made by the hand and written in ink, if any of the documents is missing, or unsigned, the Tender may be considered invalid by the Bank in its discretion.
- 3) 50% of retention money and initial security deposit will be returned against submission of Bank Guarantee valid for a period of 12 months of Defect Liability Period and after I) issue of virtual completion certificate by the Consultant of the work. II) Contractor's removal of his material, equipment's, labour force, temporary sheds / stores, etc. from the site (excepting for small presence required, if any, for defect liability period and approval by the bank)

Balance 50% of retention money and security deposit shall be released to the contractor fourteen days after the end of completion of defect liability period provided he has satisfactorily carried out all the works and attended to all the defects in accordance with the conditions of contract including site clearance.

- 4) He shall not sub-let any portion of the contract except with the written consent of the Bank. In case of breach of these conditions, the Bank may serve a notice in writing on the contractor rescinding the contract whereupon the Security Deposit shall stand forfeited to the Bank, without prejudice to his other remedies against the contractor. Central Govt. / State Govt. organization will not be allowed to sublet the work on back to back basis.
- 5) The contractor shall carry out of all the work strictly in accordance with Drawings, details and instructions of the Architect, Consultant and the Bank. If in the opinion of the Architect, consultant or the Bank, changes have to be made in the design and with the prior approval in writing of the Bank, they desire the contractor to carry out the same, the contractors shall carry out the same without any extra charge. The Bank's decision in such cases shall be final and shall not be open to arbitration.
- 6) A Schedule of probable quantities in respect of each work and specifications accompany these special conditions. The Schedule of probable quantities is liable to alteration by omission, deductions or additions at the discretion of the Architect/ Bank. No claim will be entertained from the contractor on account of loss of profit over revising the tender rates.
- 7) The Tenderer must obtain for himself on his own responsibility and at his own expenses all the information which may be necessary for the purpose of filling of Tender and for entering into a contract and must examine the drawings and must inspect the site of the work and acquaint himself with all local conditions, means

of access to the work, nature of the work and all matters pertaining thereto. No compensation will be paid on account of not getting proper information.

- 8) The rates quoted in the Tender shall be inclusive of all charges for clearing of site before commencement as well as after completion, water, electrical consumption, meters, double-scaffolding, centering, boxing, staging, planking, timbering and pumping out water, including bailing, planking, timbering and pumping out water, hoarding, plant and equipment, storage sheds, watching and lighting by night as well as day, including Sundays and Holidays, temporary plumbing and electric supply, protection of the public and safety of adjacent roads, streets, cellars, vaults, open pavements, walls, houses, buildings and all other erections, matters or things and the contractor shall take down and remove any or all such centering, scaffolding, staging, planking, timbering, strutting, shoring, etc. as occasion shall require or when ordered so to do, and fully reinstate and make good all matters and things disturbed during the execution of the work and to the satisfaction of the Bank / Consultant.
- 9) Time allowed for carrying out the work as mentioned in the Memorandum shall be strictly observed by the contractor and its shall be reckoned from the 10 days after acceptance of order to commence the work or the date of handing over the site to the contractor whichever is later. The work shall throughout the stipulated period of the contract be proceeded with all due diligence and if the contractor fails to complete the work within the specified period i.e. 45 days, he shall be liable to pay compensation as defined in the conditions of contract.
- 10) The contractor shall not be entitled to any compensation for any loss suffered by him on account of delays in commencing or executing the work, whatever the case of delays may be, including delays arising out of modifications to the work entrusted to him or in any sub-contract connected therewith or delays in awarding contracts for other trades if the project or in commencement or completion of such works or in procuring government controlled or other building materials or in obtaining water and power connections for construction purposes or for the other reasons whatsoever and the Bank shall not be liable for any claim in respect thereof. The Bank does not accept liability for any sum besides the Tender amount, subject to such variations as are provided for herein.
- 11) The successful Tenderer is bound to carry out any items of work necessary for the completion of the job even though such items are not included in the quantities and rates. Schedule of instructions in respect of such additional items and their quantities will be issued in writing by the Architect / consultant with the prior consent in writing of the Bank.
- 12) The successful Tenderer must co-operate with the other contractors appointed by the Bank so that the work shall proceed smoothly with the least possible delay and to the satisfaction of the Architects / Consultant.

- 13) The contractor must bear in mind that all the work shall be carried out strictly in accordance with the specifications made by the Architect / Consultant and also in compliance of the requirements of the Authorities concerned and no deviation on any account will be permitted.
- 14) (i) The rates quoted in the Schedule rates also include the expenditure for providing all the water required for the work and the contractor shall make his own arrangements for the supply of good quality water including obtaining Municipal connection for his labour as well as for construction purpose and all charges shall be borne by him. If Municipal water connection is not available and should it become necessary for the contractor to drill a bore well for obtaining water for construction purposes or to bring water from outside by Tankers, The Bank shall not be liable to pay any charges in connection therewith.
- (ii) The rates quoted in the Tender shall also include Electric consumption charges for Power. If no power is available at site, the contractor shall have to make his own arrangement to obtain electric power connection and maintain at his own cost an efficient service of electric light and power and shall pay for the electricity consumed.
- (iii) For water and power, the contractor to whom the work is allotted shall maintain the same in good working conditions.
- (iv) Contractor for other trades appointed by the Bank shall also be allowed to use water and power available by fixing reasonable charges mutually agreed.
- (v) Any dispute regarding payment for water and power charges by the other contractor and or by subsidiary agencies appointed by the Bank to the contractor, who has obtained the temporary connections and allowed sub-connections, will be settled by the Bank / Consultant and the decision taken by the Bank / Consultant shall be final and shall be that of the contractor.
- (vi) The Bank as well as the Consultant shall give all possible assistance to the Contractor to obtain the requisite permission from the various authorities, but the responsibility for obtaining the same shall be that of the contractor.
- (vii) If no such facility is available at the site of work and if available found inadequate, it shall be the responsibility of the contractor to make his own arrangement for obtaining water and power at his cost.
- 15) The contractor will have to obtain completion / clearance certificate in respect of services such as water supply, sewerage, etc. The contractor will also obtain permanent water connection for the entire project. The Bank will pay necessary fee to be made to Govt. authorities.
- 16) The Contractor shall strictly comply with provision of safety code annexed hereto.

- 17) The contractor shall indemnify Union Bank of India, against any claim or legal action arising out of the said Act due to the failure of non-compliance of the provisions of the said Act and the penalty or any other amount levied by the authorities, shall be recoverable from the payments due to the contractors.
- 18) The Contractor shall comply with the provision of the Apprentices Act, 1961, and the Rules and Orders issued there under from time to time. Failure to do so will be in a breach of the contract and the Architect / consultant and the Bank may in their discretion cancel the contract. The contractor shall also be liable for any pecuniary or other liabilities arising on account of any violation by him of the provisions of the Act.
- 19) The Security Deposit of the successful Tender will be forfeited if he fails to comply with any of the conditions of the contract.
- 20) The contractor shall be responsible for the observance of all Central Rules and Regulation framed by the Central Government under the Contract Labour (Regulation and Abolition) Act, 1970. The Bank shall be entitled to deduct all damages, which it might suffer on account of non-observance of these rules by the Contractor, from the amount payable to the Contractor.
- 21) Contractors are not allowed to remove materials brought at Site against which advances have been paid.
- 22) The Contractor is to provide at all times during the progress of the works and the maintenance period / defect liability period proper means of access, with ladders, gangways, etc., and the necessary attendance to move and adopt as directed for the inspection or measurement of the works by the Consultant or their representatives.
- 23) Materials shall be of approved quality and the best of their kind available and shall generally conform to I.S. Specifications. The Contractor shall order all the materials required for the execution of work as early as necessary and ensure that such materials are on site well ahead of requirement for use in the work. The work involved calls for approved standard of workmanship combined with speed and to the entire satisfaction of the Architect/ consultant. All the material shall be approved by the Consultant / Bank before use. Contractor to arrange samples well in time.
- 24) The Contractors shall after completion of the work clear the Site of all debris and left over materials at his own expenses to the entire satisfaction of the Bank / Consultant and Municipal or other public authorities.
- 25) The contractor herewith agrees that in respect of inspection of works by the Chief Technical Examiner of the works, wing of Central Vigilance Commission and the bills of the contractor including all supporting vouchers, abstract etc. to be made

after payment of the bills and if as a result of such audit and technical examination any sum is found to have been over paid in respect of any work done by the contractor under the contract of any work claimed by him to have been done by him under the contract and found not to have been executed or any work is found not to have been executed in accordance with the contract, the contractor shall be liable to refund the amount of over payment made already and it shall be lawful for the bank to recover the same from him in any manner the bank deems fit either from any payments due and / or becoming due to the contractor or from the security deposit or retention money or through any further bills and / or final bill or in any other manner whatsoever not excluding through recourse to legal action. The certification of bills / measurements by consultant / Architect and Engineer will be scrutinized by the Bank's Central Office / Audit / Vigilance and any deficiency will be corrected accordingly. Contractor cannot insist for payment just because it is signed by consultant / architect / engineer. The contractor herewith agrees to co-operate with the Bank / Consultant while such examinations of works and redo the things without any extra cost to the Bank. It is essential and agreed condition of the contract that any such action taken by the bank shall be deemed to be the fully legal and valid and binding on the contractor.

- 26) Contractors are requested to note that no extra item or deviated item of work to be executed without taking prior permission, the Bank shall not be held responsible for the payment of such works executed. Contractors will have to submit all the particulars including purchase bills/price list for the materials along with the rate analysis for verification of item rates.
- 27) If it is observed the existing compound wall, gates railings are damaged then the contractors will have to make good the same at their own cost.
- 28) If contractors fail to pay the taxes/royalties to the Authorities concerned, the bank reserve their rights to recover the said amount from the amount payable to the contractor and pay the same to the Authorities concerned.
- 29) Work is to be executed & measurements are to be paid as per the detail specification & description of item given in the Standard Specification Book except for the items which are specifically mentioned in the tender for which the details of item and mode of measurements to be followed as indicated separately in the conditions of contractors.
- 30) If there are any contracting clauses mentioned in the tender, the interpretation of the same will be done by the Architect / consultant. However, the decision of the Bank will be final and binding.
- 31) After awarding the work, contractor shall get registered with the office of the Labour commissioner and inform Bank accordingly. Contractors shall follow all rules and regulations stipulated by the Labour Commissioner strictly.

- 32) Contractors shall quote consistent rates for the items of similar nature or analogous in specifications for the sections in schedule of quantities. If it is observed that the rates quoted for similar nature of items or analogous in specification under different sections, are inconsistent, then the Bank reserves his right to consider the lowest of rates for all such items and work out the final amount for payment, unless the competent authority finds that there is justifications for such inconsistent rates.
- 33) The contractor shall give a list of his relatives working with the bank along with their designations and addresses.
- 34) No employee of the bank is allowed to work as a contractor for a period of two years of his retirement from bank service, without the previous permission of the bank. The contract is liable to be cancelled if either the contractor or any of his employees is found at any time to be such a person who had not obtained the permission of the bank as aforesaid before submission of the tender or engagement in the contractor's service.

### THE CONDITIONS HEREINBEFORE REFERRED TO

- (l) “Priced Scheduled of Quantities” shall mean the schedule of quantities duly priced with the accepted quoted rates of the contractor.
- (m) “Net Prices” If in arriving at the contract amount, the contractor shall have added to or deducted from the total of the items in the Tender any sum either as a percentage or otherwise, then the net price of any item in the Tender shall be the sum arrived at by adding to or deducting from the actual figure appearing in the Tender as the price of that item a similar percentage or proportion of the sum so added or deducted of the sum so added or deducted by the contractor the amount of any Prime Cost items and provisional sums of money shall be deducted from the total amount of the Tender. The expression “net rates” or “net prices” when used with reference to the contract or accounts shall be held to mean rates or prices so arrived at.

## 2. SCOPE OF WORK:

Union Bank of India is a nationalized public sector bank having Central Office at 239, Vidhan Bhavan Marg, Nariman Point, Mumbai. The bank invites tenders in two part bid systems from the eligible PWD Class 1 contractors (contracting agencies) having office in Bengaluru and should be operating from Bengaluru to carry out the work of Civil Repair and Renovation work of existing Auditorium Building at campus of Staff College, Kalkere, Bengaluru-560083, Karnataka. The scope of works consists of heightening/renovation/repairs to the boundary walls with barbed wire fencing.

It includes furnishing all materials, labour, tools and equipment and management necessary for and incidental to the construction and completion of the work. All work, during its progress and upon completion shall conform to the lines, elevations and grades as shown by the Bank / architects. Should any detail essential for efficient completion of the work be omitted from the specifications it shall be the responsibility of the contractor to inform the Bank / Consultant and to furnish and install such detail with Bank / Consultant’s concurrence, so that upon completion of the proposed work the same will be acceptable and ready for use.

## 3. CONTRACTOR’S RESPONSIBILITY

The Contractor shall carry out and complete the said work in every respect in accordance with this contract and with the directions of and to the satisfaction of Consultant /Bank. The Consultant may in his absolute discretion and in consultation

with the Bank (with prior approval from the Bank) and from time to time issue drawings and/or written instruction, details directions and explanations which are hereafter collectively referred to as “Consultant /Bank’s Instruction”.

In regard to:-

- a. The variations or modifications of the design, quality or quantity of works or the additions or omission or substitution of any work.
- b. Any discrepancy in the drawings or between the schedule of quantities and/or drawings and or drawings and or specification.
- c. The removal from the site of any defective materials brought thereon by the contractor and the substitution of any other materials thereof.
- d. The removal and/or re-execution of any works executed by the contractor.
- e. The dismissal from the works of any person employed thereupon.
- f. The opening up for inspections of any work covered up.
- g. The amending and making good of any defects under clauses 19 hereof and those arising during the maintenance / defect liability period.

The contractor shall forthwith comply with and duly execute any work comprised in such Consultant /Bank instructions, provided always that the verbal instructions, directions, and explanations given to the contractor or his representative upon the works by the Consultant /Bank shall, if involving a variation, be confirmed in writing by the contractor within seven days, and if not dissented from in writing within a further seven days by the Consultant, such shall be deemed to be Consultant /Bank instructions within the scope of the Contract.

#### 4. VISIT TO SITE

The contractor shall visit the site and make him thoroughly acquainted with the local site condition, nature and requirements of the works, facilities of transport condition, effective labour and materials, access and storage for materials and removal of rubbish. The tenderer shall provide in their tender for cost of carriage, freight and other charges as also for any special difficulties and including police restriction for transport, etc. for proper execution of work as indicated in the drawings. The successful tenderer will not be entitled to any claim of compensation for difficulties faced or losses incurred on account of any site condition which existed before the commencement of the work or which in the opinion of the Bank or Consultant might be deemed to have reasonably been inferred to be so existing before commencement of work.

#### 5. AGREEMENT

The successful contractor is required to sign agreement as may be drawn upto suit local conditions and shall pay for all stamps and legal expenses, incidental thereto

## 6. PERMITS AND LICENSES

Permits and licenses for release of materials which are under Government control will be arranged by the contractor. The Bank will render necessary assistance, sign any forms or applications that may be necessary.

The contractor shall at his own cost arrange for storage shed adequate for taking delivery and storing of the quantity of controlled materials released by the authorities or supplied by the Bank. The costs of storing, transporting, etc. of all materials including those under Government control are to be included by the tenderer in his quoted rates.

The Bank / Consultant shall be indemnified against all Government or legal actions for theft or misuse of any controlled materials in the custody of the contractor.

## 7. GOVERNMENT AND LOCAL RULES

The contractor shall conform to the provisions of all local Bye-laws and Acts relating to the work and to the Regulations etc. of the Government and Local Authorities and of any company with whose system the structure is proposed to be connected. The contractor shall give all notices required by said Act, Rules, Regulations and Bye-laws, etc. and pay all fees payable to such authority / authorities for execution of the work involved. The cost, if any, shall be deemed to have been included in his quoted rates, taking into account all liabilities for license, fees for footpath encroachment and restorations etc. and shall indemnify the Bank against such liabilities and shall defend all actions arising from such claims or liabilities.

## 8. QUANTITY OF WORK TO BE EXECUTED

The quantities shown in the schedule of quantities are intended to cover the entire new structure indicated in the drawings but the Bank reserves the right to execute only a part or the whole or any excess thereof without assigning any reason there for.

## 9. VARIATIONS TO BE APPROVED BY THE BANK / CONSULTANT

Notwithstanding anything herein contained, the Consultant or his representative shall not, without prior concurrence in writing of the Bank, issue any instructions, verbal or in writing. The contractor shall submit through the Consultant, a statement of variations giving rise quantity and rates duly supported by analysis of rates, vouchers, etc. The rates on scrutiny and final acceptance by the Bank shall form a supplementary tender. The Bank shall not be liable for payment of such variations until these statements are sanctioned by the bank.

10. DRAWINGS AND SCHEDULE OF QUANTITIES AND AGREEMENT.

The contractor on the signing hereof shall be furnished by the Consultant free of cost one copy of each of the said drawings and of the specifications and one copy of all further Drawings issued during the progress of the works. Any further copies of such drawings required by the contractor shall be paid by him. The contractor shall keep one copy of all drawings on the works and the Consultant / Bank or their representatives shall at all reasonable times have access to the same.

11. CONTRACTOR TO PROVIDE EVERYTHING NECESSARY:

The contractor shall provide everything necessary for the proper execution of the works according to the intent and meaning of the Drawings, Schedule of quantities and Specification taken together whether the same may or may not be particularly shown or described therein provided that the same can be reasonably be inferred there from, and if the contractor finds any discrepancies therein, he shall immediately and in writings, refer the same to the Bank / Consultant whose decision shall be final and binding. The contractor shall provide himself for ground and fresh water for carrying out of the works at his own cost. The Bank shall not be responsible for the expenses incurred by the contractor for hired ground or fresh water obtained from elsewhere.

- (i) The rates quoted against individual items will be inclusive of everything necessary to complete the said items work within the contemplation of the contract, and beyond the unit price no extra payment will be allowed for incidental or contingent work, labour and /or materials inclusive of all taxes and duties whatsoever except for specific items, if any, stipulated in the tender documents.
- (ii) The contractor shall supply, fix and maintain at his own cost, for the execution of any work, all tools, tackles, machineries and equipments and all the necessary centering, scaffolding, staging, planking, timbering, strutting, shoring, pumping, fencing, boarding, watching and lighting by night as well as by day required not only for the proper execution and protection of the said work but also for the protection of the public and safety of any adjacent roads, streets, walls, houses, buildings, all other erections, matters and things and the contractor shall take down and remove any or all such centering, scaffolding, plumbing, timbering, strutting, shoring etc., as occasion shall be required or when ordered so to do, and shall fully reinstate and make good all matters and things disturbed during the execution or when ordered so to do, and shall fully reinstate and make good all matters and things disturbed during the execution of works to the satisfaction of the Bank / Consultant.
- (iii) The Contractor shall also provide such temporary road on the site as may be necessary for the proper performance of the contract, and for his own convenience but not otherwise. Upon completion, such roads shall be broken up and leveled where so required by the drawings unless the Bank shall otherwise direct.

- (iv) The contractor shall at all times give access to workers employed by the Bank or any men employed on the buildings and to provide such parties with proper sufficient and if required, special scaffolding, hoists and ladders and provide them with water and lighting and leave or make any holes, grooves etc., in any work, where directed by the Bank as any be required to enable such workman to lay or fix pipes, electrical wiring, special fittings etc. The quoted rates of the tenderers shall accordingly include all these above-mentioned contingent works.

## 12. AUTHORITIES NOTICES AND PATENTS

The contractor shall confirm to the provisions of any Act of the legislature relating to the works, and to regulations and bye-laws of any authority, and or any water electric supply and other companies and /or authorities with and whose the systems the structures is proposed to be connected, and shall, before making any variations from the drawing or specifications that may be associated to so confirming, give to the Architect written notice, specifying the variations proposed to be made and the reason for making it and apply for instructions thereon. In case the contractor shall not within ten days receive such instructions he shall proceed with the work confirming to the provisions, regulations, or byelaws in questions, and variations so necessitated shall be dealt with under clause 13 hereof.

The contractor shall bring to the attention of the Consultant / bank all notices required by the said Acts, regulations or bye-law to be given to any authority and pay to such authority, or to any public office, all fees that may be properly chargeable in respect of the said work and lodge the receipt with the Consultant / Bank.

The contractor shall indemnify the Bank against all claims in respect of patent rights, royalties, damages to buildings, roads or members of public in course of execution of work and shall defend all actions arising from such claims and shall keep the Bank saved harmless and indemnified in all respects from such actions, costs and expenses.

## 13. CLEARING SITE AND SETTING OUT WORKS

The site shall be cleared of all obstructions, loose stone, and material rubbish of all kind. All holes or hollows either originally existing or produced by removal of loose stone or material shall be carefully filled up with earth, well rammed and leveled off as directed at his own cost. The contractor shall set out the works and shall be responsible for the true and perfect setting out of the work and for the correctness of the positions, dimensions, levels and the alignment of all the parts thereof. If at any time any error in this respect shall appear during the progress of any part of work or within the period of one year from the completion of the works, the contractor shall at his own expenses rectify such error to the satisfaction of the Consultant / Bank.

**14. DATUM**

The average ground level will be considered as the crown of the nearest road, which should be taken as “Datum” which is however, subject to final confirmation by the Bank / Consultant. All levels shown in the drawings are to be strictly adhered to.

**16. BENCHES**

The contractor is to construct and maintain proper benches of all the main walls, in order that the lines and levels may be accurately checked at all times.

These benches will consist of salwood post of adequate length and minimum diameter 75mm to be driven in the ground at suitable distance as directed encased with brickwork. The wire nails will be driven on the top of salwood post on the center lines of columns, walls, inside and outside faces of foundation trenches, in order that lines may be stretched between the benches and accurate intersection of excavation. Centre line of walls, columns, etc. may be clearly indicated and checked at any time if it is so required.

**17. CONTRACTOR IMMEDIATELY TO REMOVE ALL OFFENSIVE MATTERS**

All soil, filth or other matters of any offensive nature taken out of any trench, sewer, drain, cesspool or other place shall not be deposited on the surface but shall be at once carted away by the contractor to place provided by him.

The contractor shall keep the foundations and works free from water and shall provide and maintain at his own expenses electrically or other power driven pumps and other plant to the satisfaction of the Bank for the purpose, until the building is handed over to the Bank. The contractor shall arrange for the disposal of the water so accumulated to the satisfaction of the Bank and local authority and no claims will be entertained afterwards if he does not include in his rates for the purpose.

**18. MATERIALS, WORKMANSHIP, SAMPLES, TESTING OF MATERIALS:**

All the works specified and provided for in the specifications or which may be required to be done in order to perform and complete any part thereof shall be executed in the best and most workman like manner with materials of the best and approved quality of the respective kinds in accordance with the particulars contained in and implied by the specifications and represented by the drawings or according to such other additional particulars and instructions as may from time to time be given by the Bank / Consultant during the execution of the work, and to his entire satisfaction.

The contractor shall have to carry out test on materials and workmanship in approved materials testing laboratories or as prescribed by the Bank / Consultant at own cost to prove the materials quality and test sample, confirm to the relevant I.S. Standard or as specified in the specifications. The necessary charges for preparation of mould (in case of concrete cube) transporting testing etc. shall have to borne by the contractors. No extra payment on this account should in any case be entertained.

All the materials (except where otherwise described) store and equipment required for the full performance of the work under the contract must be provided through normal channels and must include charges for import duties, GST, sales tax, octroi and other charges and must be the best of their kind available and the contractors/must be entirely responsible for the proper and efficient carrying out the work. The work must be done in the best workman like manner. Samples of all materials to be used must be submitted to the Bank / Consultant when so directed by the Engineer/ Consultant and written approval from Bank / Consultant must be obtained prior to placement of order.

The Contractor shall set up a field laboratory with necessary equipment for day to day testing of material like sand, brick, aggregate etc.

#### 19. INCLEMENT WEATHER

During the inclement weather the contractor shall suspend concreting and plastering for such time as the Bank / consultant may direct and shall protect from injury all work when in course of execution. Any damage (during construction) to any part of the work for reasons due to rain, storm, or neglect of contractor shall be rectified by the contractor in an approved manner at no extra cost.

Should the work be suspended by reason of rain, strike, lockouts or any other cause, the contractor shall take all precautions necessary for the protection of work and at his own expenses shall make good any damage arising from any of these causes. The contractor shall cover up and protect from damage, from any cause, all new work and supply all temporary doors, protection to window, and any other requisite protection for the execution of the work whether by himself or special tradesmen or sub-contractor and any damage caused must be made good by the contractor at his own expenses.

#### 20. MATERIALS AND WORKMANSHIP TO CONFORM TO DESCRIPTIONS:

All materials and workmanship shall so far as procurable be of the respective kinds described in the schedule of quantities and / or specifications and in accordance with the Consultant's instructions, and the contractor shall upon the request of the Consultant furnish him with all invoices, accounts, receipts and other vouchers to prove that the materials comply therewith. The contractor shall at his own cost

arrange for and / or carry out any test of any materials which the architects may require.

**21. CONTRACTOR'S SUPERINTENDENCE & REPRESENTATIVE ON THE WORKS.**

The contractor shall give all the necessary personal superintendence during the execution of the works, and as long thereafter as the Bank / Consultant may consider necessary until the expiration of the defects liability period stated in the Appendix hereto. The contractor shall also during the whole time the works are in progress employ;

- a) an experienced graduate Civil Engineers ( 1 Nos.) as required who shall be in constantly attendance at work while the men are at work. Any directions, explanations, instructions, or notices given by the Bank / Consultant to such representative shall be held to be given to the contractor.

For non-compliance an amount of Rs. 25000.00 pm / per Engineer shall be deducted from the contractor for the period required engineers are not provided. However, deduction of payment shall not exonerate contractor for his responsibility for executing quality work.

**22. DEPLOYMENT OF LABOURS**

No labourer below the age of eighteen years shall be employed on the work.

Any labourer supplied by the contractor to be engaged on the work on day-work basis either wholly or partly under the direct order or control of the Bank or his representative shall be deemed to be a person employed by the contractor.

The contractor shall comply with the provisions of all labour legislation including the requirement of

- a) The payment of Wages Act
- b) Workmen's Compensation Act
- c) Contract Labour (Regulation & Abolition) Act, 1970 and Central Rules 1971.
- d) ESIC, Minimum Wages Etc.,

**23. FACILITIES TO BE PROVIDED TO WORKERS**

The contractor shall comply at his own cost with the order of requirement of any Health Officer of the State or any local authority or of the Bank regarding the maintenance of proper environmental sanitation of the area where the contractor's labourers are housed or accommodated, for the prevention of small pox, cholera, plague, typhoid, malaria and other contagious diseases. The contractor shall provide, maintain and keep in good sanitary condition adequate sanitary

accommodation and provide facilities for pure drinking water at all times for the use of men engaged on the works and shall remove and clear away the same on completion of the works. Adequate precautions shall be taken by the contractor to prevent nuisance of any kind on the works or the lands adjoining the same.

The contractor shall arrange to provide first-aid treatment to the labourers engaged on the works. He shall within 24 hours of the occurrence of any accident at or about the site or in connection with execution of the works, report such accident to the Bank and also the competent authority where such report is required by law.

**24. DISMISSAL OF WORKMEN**

The contractor shall at the request of the Bank / Consultant immediately dismiss from the works, any person employed thereon by him who may in the opinion of the Bank / Consultant incompetent or misconduct himself and such person shall not be engaged again. Such discharges shall not be the basis of any claim for compensation or damages against the Bank or any of their officer or employee.

**25. ACCESS TO WORK**

The Bank / Consultant and their responsible representative shall at all reasonable times have free access to the works and/ or to the workshops, factories or other places where materials are being prepared or constructed for the work and also to any place where the materials are lying or from where they are being obtained the contractor shall give every facility to the Bank, the Consultant and their representative necessary for inspection and examination and test of the materials and the workmanship. No. persons not authorized by the Bank or the Consultant except the representatives of Public Authorities shall be allowed on the works at any time.

**26. ASSIGNMENT / SUB-LETTING**

The whole of the works included in the contract shall be executed by the contractor and the contractor shall not directly or indirectly transfer, assign, or under-let the contract or any part share thereof or any interest therein without the prior written consent of the Bank and no undertaking shall relieve the contractor of the full and entire responsibility of the contract or from active superintendence of works during their progress. Central Govt. / State Govt. companies shall not be allowed to sublet the work on back to back basis / labour basis without approval from the Bank. In case, in case contractor sub-let the work, the bank will be entitled to deduct 10% of cost of work executed besides initiating other measures provided in the contract.

## 27. VARIATIONS

No alterations, omissions or variations shall vitiate this contract, but in case the Architect thinks proper at any time during, the progress of the works to make any alterations in, or additions to or omissions from, the work or any alteration in the kind or quality of materials to be use therein and shall give notice thereof in writing under his hand to the contractor, the contractor shall alter, add to, or omit from, as the case may be, in accordance with such notice, but the contractor shall not do any work extra to or make any alterations or additions to or omissions from the works or any deviations from any of the provisions of the contract, stipulation specifications or contract drawings without the previous consent in writing of the consultant /Architect / bank and the values of such extras, alternations, additions or omissions shall in all cases be determine by the Consultant with the prior approval in writing of the Bank in accordance with the provision of the Clause hereof, and the same shall be added to, or deducted from the contract amount, as the case may be accordingly.

## 28. SCHEDULE OF QUANTITIES

The Schedule of quantities, unless otherwise stated shall be deemed to have been prepared in accordance with the standard method of quantity measurement.

Any error in description or in quantity or in omission of items from the Schedule of quantities shall not vitiate this contract but shall rectified and the value thereof shall be added to or deducted, from the contract amount (as the case may be), provided that no rectification of errors, if any, shall be allowed in the contractor's Schedule of rates.

The contractor shall be deemed to have satisfied himself before tendering as to the correctness and sufficiency of this tender for the works and the prices stated in the Schedule or quantities and or the schedule of rates and prices which rates and prices shall cover all his obligations under the contract and all matters and things necessary for the proper completion of works.

The quantities of work may vary to any extent or may be omitted, the contractor cannot claim loss of profit / overhead on this account.

## 29. MEASUREMENT OF WORKS

- (i) The Consultant may from time to time intimate to the contractor and the Bank that he requires works to be measured, and the contractor shall forth with attend or send a qualified agent to assist the Consultant in taking such measurements and calculations and to furnish all the particulars or to give all assistance required by any of them.

- (ii) The Engineer will take measurement of the work jointly with the contractor and enter the same in measurement books. Based on these measurements the contractor will raise the bill as per the prescribed format. Consultant to verify the bill/measurement and issue certificate stating that the work completed is as per the specifications and the measurement claimed for the works, are actually executed at site. This certificate shall be issued within 7 days after bill submission by the Contractor. The bank has to release bill amount within 10 days. If for some reason checking of the bill / measurement is not completed, 75% of the bill amount atleast shall be released within 10 days and the balance within 30 days.
- (iii) Should the contractor not attend or neglect or omit to send such agent then the measurement taken by the Architect or a person approved by him shall be final and binding on the contractors.
- (iv) The contractor or his also supply without charge the requisite number of person with means and materials necessary for the purpose of measurements or examinations at any time and from time to time of the work or counting weighting of the materials, etc.
- (v) All authorized extra works, omissions and all variations made without the Consultant's knowledge, if subsequently sanctioned by him in writing (with the prior approval in writing of the Bank) shall be included in such measurement.
- (vi) Measurements shall be recorded as per IS 1200 mode measurement and in metric system. Measurement shall be recorded in 100 pages bounded measurement book to be supplied by Union Bank of India. Such measurement shall be recorded by the Engineer or Bank's officer and not by contractor. M.B. shall be kept in the custody of the consultant / Bank.

### 30. PROCEDURE FOR MEASUREMENT AND BILLING OF WORK IN PROGRESS:

#### a. Advance against materials brought at Site:

Contractor may be allowed Secured advance on security for materials brought to site for execution on contracted item of work to the extent of 75% of the value of the materials provided that the materials of the imperishable nature is safeguarded against losses due to the contractor postponing execution of the work or to the storage or misuse the materials and against the expenses entitled for their proper watch and safe custody. Recoveries of advances so made would be from running bills. The secured advance may be given against the following materials brought to the site and stored properly.

- i) Cement
- ii) Steel
- (iii) Plumbing / Sanitary / Pipes and fittings.
- (iv) Electrical items (one time only)
- (v) Any other item of non-perishable nature and as decided by the Bank

The Contractors will have to submit the bills for the materials purchased, in triplicate, to verify the cost of the materials purchased and brought at Site.

No advances against perishable materials purchased and brought at Site will be made.

The Contractors will have to keep the materials at Site under their safe custody and at their risk and cost.

The Bank is not responsible for damages and losses of such materials brought at site.

The contractor to submit undertaking marking lien on the material brought at site against which bank has granted advance payment.

b. Running Account Payments to be regarded as Advances:

All running account payments shall be regarded as payments by way of advance against the final payment only and not as payments for work actually done and completed and accepted and shall not preclude the requiring of bad, unsound and imperfect or unskilled work to be removed and taken away and reconstructed or re-erected or be considered as an admission of the due performance of the contract, or any part thereof, in this respect, or the accruing of any claim, nor shall it conclude, determine or effect in any way the powers of the bank / consultant under these conditions or any of them as to the powers of the bank / consultant under these conditions or any of them as to the final settlement and adjustment of the accounts or otherwise, or in any other way vary/affect the contract. The final bill shall be submitted by the contractor within two months of the date fixed for completion of the work, other wise the Consultant / Engineer-in-charge's certificate of the measurement and of the total amount payable for the work accordingly shall be final and binding on all parties. The Contractor shall submit " No further claim certificate " along with the final bill.

31. COMPLETION CERTIFICATE

(i) APPLICATION FOR COMPLETION CERTIFICATE

The Consultant /Engineer-In-Charge shall normally issue to the contractor the completion certificate within one month after receiving, an application thereof from the contractor and after verifying from the completion documents and satisfying himself that the work has been completed in accordance with and as set out in the construction and erection drawing and contract documents.

The contractor, after obtaining the completion certificate, is eligible to present the final bill for the work executed by him under the terms of contract.

(ii) Completion Certificate

Within one month of the completion of the work in all respects, the Contractor shall be furnished with a certificate by the Consultant / Engineer-In-Charge of such completion but no certificate shall be given nor shall the work be deemed to have been completed until all scaffolding, surplus materials and rubbish is cleared of the site completely. The work will not be considered as complete and taken over by the Bank, until all the temporary works, labour and staff colonies etc., constructed, are removed and the works site cleared / cleaned to the satisfaction of the Consultant / Engineer.

If the Contractor shall fail to comply with the requirements of this clause on or before the date fixed for the completion of the work, the Consultant / Engineer-In-Charge may at the expenses of the contractor remove such scaffolding, surplus materials and rubbish and dispose off the same as he thinks fit and clean up the site and the contractor shall forthwith pay the bank for all expenses so incurred and shall have no claim in respect of any such scaffolding or surplus materials as aforesaid except of any sum actually realized by the sale thereof.

(iii) CERTIFICATE

It is certified that various items of works claimed in the ..... RA Bill by Contractor ..... has been completed to the extent claimed and at appropriate rates and that the items are in accordance with and fully conforming to the standard and/or prescribed specifications and drawings. We further certify that we have checked the measurement to the extent of 100 per cent of each item claimed in this bill. As net amount of Rs..... (Rupees ..... ) is recommended to be paid to the contractor making the total upto date payment of Rs.....

(Rs. .... )

DATE :

SITE ENGINEER / CONSULTANT

The above certification shall be endorsed in the relevant Measurement Books also by the Consultant.

21.	6 mm thick in CM (1:4)	100Sq.M.	5.48

### 32. ENGINEER

The Site Engineer or any representative of the Architect / Consultant, or the Bank shall have power to give notice to the contractor or to his representative, of non-approval of any work or materials and such work shall be suspended or the use of such materials shall be discontinued until the decision of the Architect is obtained. The work will be from time to time be examined by the Architect / the Bank's Engineer or the Architect's representative, but such examination shall not in any way exonerate the contractor from the obligations to remedy any defects which may be found to exist at any stage of the works or after the same is complete. Subject to the limitations of this clause, the contractor shall take instructions only from the Architect / Bank.

### 33. DUTIES OF ENGINEER

- i. To make a thorough study of contract documents, Architectural/Structural drawings and other details so as to bring out ambiguities/discrepancies between them and to obtain clarification from the Competent Authority well in time to avoid delays.
- ii. To render a certificate to the Competent Authority to the effect that he has studied the contract documents, drawings and specifications.
- iii. To approve the centerline layout of building pegged out on site by the contractor and the benches for ground floor and other levels.
- iv. To take charge of objects of value and antiquity found on site or in excavations, immediately, after their discovery, to hold them in safe custody and to hand them over to the Competent Authority of the Bank for further action.
- v. To approve the foundation strata when the appropriate depth of excavation is reached in consultation with the architects.

- vi. To ensure that the quality of materials and workmanship as laid down in the contract is maintained and the accuracy of dimension shown on drawings is attained in the construction.
- vii. To watch the validity of the building permission issued by the Local Authority and to ensure that the revalidation, if necessary, is obtained well in time.
- viii. To arrange periodical reconciliation of cement and steel account and ensure that proper recoveries are effected from contractor's running account bills.
- ix. To maintain the undernoted records at the site of work, in addition to normal routine requirements of an office:
  - a. Daily Progress Record
  - b. Work Site Order Book.
  - c. Instruction by Bank's Officers.
  - d. Cement Statement (Receipt/Consumption/Balance).
  - e. Steel Register/any other costly Material Register.
  - f. Contract Pour Reports including Slump Test Record.
  - g. Concrete Cube Test Register.
  - h. Test Registers of other materials/fittings, fixtures, equipments as stipulated in the tender.
  - i. Register of Drawings and Working Details.
  - j. Log Book of Defects.
  - k. The Site Engineer should maintain in a Hindrance Register giving details of commencement and removal of each hindrance.
  - l. Dismantled Materials Account Register.
  - m. Supply and consumption register of scarce/costly materials like bitumen, lead, laminates, special paints etc.
  - n. Record of cement used/received: Day to day record of cement used/received shall be entered in the register and signed by the Site Engineer of the Bank as well as contractors representative at site.
  - o. Record of reinforcement bars received at site: Necessary entry for reinforcement bars of each category shall be made in the register for steel and signed by the site engineer of Bank and the contractor daily.
- x. To study the quality of approved coarse and fine aggregate and get the design of the concrete mix in accordance with modern practice. The Site Engineer shall ensure that the mix design for RCC work shall be carried out by the Architect/Structural Consultant, if applicable.
  - xi. To record measurements of completed work jointly with the Contractor and to process them in running account bills.
  - xii. To receive running account bills from the contractor and to forward them after checking, to the Competent Authority with his comments and recommendations and accompanied by all supporting documents.
  - xiii. To submit to the Competent Authority the Progress Report fortnightly.
  - xiv. To watch that the concerned contract does not lapse for want of extension of time. Therefore, to keep it alive and in operation from point of consideration that "Time is the essence of contract".

- xv. To ensure that progress on every contract is in accordance with the appropriate stage of its Time and Progress Chart.
- xvi. To prevent contractor from proceeding with any work on which the contractor has got intentions of raising claims of extra/deviated items, until the Competent Authority approves the work to continue.
- xvii. To receive the Final Bill from the contractor, to check it, and forward it with his comments and recommendations to the Competent Authority with all the supporting documents duly attached.
- xviii. To submit the final summary of costs for the project to the Competent Authority.
- xix. To submit the Competent Authority authentic information on and the under noted records pertaining to the completed work in order to enable the Competent Authority to finalise them in the due course:
  - a) Record i.e. as completed drawings.
  - b) Record of Standard Measurements for periodical services.
  - c) Inventory of fittings and fixtures.

To hand over to the Competent Authority a “first draft” of “A Note of Comprehensive Information to the User” containing detailed instructions on how to use and maintain the completed building to the best advantage of the Bank.

#### 34. PRICES FOR EXTRAS ETC. ASCERTAINMENT OF NON-TENDER ITEMS

The contractor may, when authorized, and shall, when directed in written by the Architect / Consultant with the approval of the Bank, add to, omit from, or vary the works shown upon the drawings, or described in the specification or included in the schedule of quantities, but contractor shall make no addition, omission or variation without such authorization or direction. A verbal authority or direction by the Architect / Consultant shall, if confirmed by them in written seven days, be deemed to have been given in writing.

Any such extra is herein referred to as authorized extra and shall be made in accordance with the following provisions.

- (a) (i) The net rates or prices in the original tender shall determine the valuations of the extra tender shall determine the valuation of the extra work where such extra work is of similar character and executed under similar conditions as the work priced therein.
- (ii) Rates for all items, wherever possible, should be derived out of the rates given in the priced schedule of quantities.
- (b) The net prices of the original tender shall determine the value of the items omitted, provided if omissions vary the conditions under which any remaining items of works are carried out, the prices for the same shall be valued under sub-clause C hereof.

- (c) Where the extra works are not of similar character and /or executed under similar conditions as aforesaid or where the omissions vary the conditions under which any remaining items of works are carried out or if the amount of the whole of the contract works or to any part thereof shall be such that in the opinion of the Architect the net rate or price contained in the priced schedule of quantities or tender or for any item of the works involves loss or expense beyond that reasonably contemplated by the contractor or is by reason unreasonable or inapplicable, the Architect shall fix such other rate or price as in the circumstances he shall feel reasonable and proper, with the prior approval in writing of the Bank.
- (d) Where extra work cannot be properly measured or valued the contractor shall be allowed days work prices as the priced schedule of quantities or, if not so stated, then in accordance with the local day work rates and wages for the district; provided that in either case vouchers specifying the daily time (and if required by the Architect, the workman's name) and materials employed to be delivered for verification to the Architect, or his representative at to the Architect or his representative at or before the end of the week following that in which the work has been executed.

Actual cost of materials	.....	Rs.
Add for Labour charges	.....	Rs.
Add for Taxes, Transportation, If any.	.....	Rs.
Add for Wastage of Materials (Upper Limit 5% wherever applicable).....		Rs.
Add for water and electricity Charges if any required, upper limit 2% of basic cost of materials.....		.Rs.
Add for 10% towards contractor's overheads and profit.....		Rs.
Final rate arrived.		Rs.

**35. UNFIXED MATERIALS WHEN TAKEN INTO ACCOUNT TO BE THE PROPERTY OF THE BANK**

Where in any certificate (of which the contractor has received payment), the Architect has included the value of any unfixed materials intended for and /or placed on adjacent to the works, such materials shall become the property of the Bank and they shall not be removed except for use upon the works, without the written authority of the Architect/Bank. The contractor shall be liable for any loss of or damages to such materials.

**36. REMOVAL OF IMPROPER WORKS**

The Architect/Bank shall, during the progress of the works, have power to order in writing from time to time the removal from the work within such reasonable time

or times as may be specified in order, of any materials which in the opinion of the Architect/Bank are not in accordance with the specifications or the instructions, the substitution of proper materials, the removal and proper re-execution of any work executed with materials or workmanship not in accordance with the drawings and specification instruction and the contractor shall forthwith carry out such order at his own cost. In case of default on the part of the contractor to carry such order, the Bank shall have the power to employ and pay other persons to carry out the same and all expenses consequent thereon, or incidental thereto, shall be deducted by the Bank from any money due or that may become due, to the contractor.

No certificate, which may have been issued by the Architect, shall relive the contractor from his liability in respect of unsound work of bad materials.

#### 37. DEFECTS AFTER COMPLETION

The contractor shall make good at his own cost and to the satisfactions of the Bank all defects, shrinkage, settlements or other faults, which may appear within 12 months after completion of the work. In default the Bank may employ and pay other persons to amend and make good such damages, losses and expenses consequent thereon or incidental there to shall be made good and borne by the contractor and such damages, loss and expenses shall be recoverable from him by the Bank or may be deducted by the Bank, in lieu of such amending and making good by the contractor, deduct from any amount due to the contractor, a sum equivalent to the cost of amending such work and in the event of the amount retained being insufficient, recover that from the contractor from the amount retained as retention money together with any expenses the Bank may have incurred in connection therewith.

#### 38. CONCEALED WORK:

The contractor shall give due notice to the Bank / architects whenever any work is to be buried in the earth, concrete or in the bodies of walls or otherwise becoming inaccessible later on, in order that the work may be inspected and correct dimensions taken before such burial, in default whereof the same shall, at the opinion of the Bank / architect be either opened up for measurement at the contractor's expense or no payment may be made for such materials. Should any dispute or differences arise after the execution of any work as to measurements etc., or other matters which cannot be conveniently tested or checked, the notes of the Bank / architects shall be accepted as correct and binding on the contractor.

#### 39. CERTIFICATE OF VIRTUAL COMPLETION & DEFECTS LIABILITY PERIOD

The work shall not be considered as completed until the architect has certified in writing that they have been virtually completed. The defects Liability Period shall

commence from the date indicated in the virtual completion certificate issued by the Architect.

#### 40. NOMINATED SUB-CONTRACTORS

All specialist, Merchants, Tradesmen and others executing any work of supplying and fixing any goods for which prime cost prices or provisional sums are included in the Schedule of Quantities and/or Specifications who may be nominated or selected by the Architect/ Bank are hereby declared to be Sub-Contractors employed by the Contractors and are herein referred to as nominated Sub-Contractors.

No nominated Sub-Contractor shall be employed on or in connection with the works against whom the Contractor shall make reasonable objection or (save where the Architect and Contractor shall otherwise agree) who will not enter into a Contract providing:-

- a. That the nominated Sub-Contractor shall indemnify the Contractor against the same obligations in respect of the Sub-Contract as the Contractor is under in respect of this contract.
- b. That the nominated Sub-Contractor shall indemnify the Contractor against claims in respect of any negligence by the Sub-Contractor, his servants or agents or any misuse by him or them of any scaffolding or other plant, the property of the Contractor or under any workmen's Compensation Act in force.
- c. Payment shall be made to the nominated Sub-Contractor within fourteen days of his receipt of the Architect's Certificates provided that before any certificate is issued, the contractor shall upon request furnish to the architect proof that all nominated Sub-Contractor's accounts included in the previous Certificate have been duly discharged; in default whereof the Bank may pay the same upon a Certificate or the Architect and deduct the amount thereof from any sums due to the Contractor. The exercise of this power shall not create privacy of Contract as between Bank and Sub-Contractor.

#### 41. OTHER PERSONS ENGAGED BY THE BANK

The Bank reserves the right to execute any part of the work included in this contract by other agency or persons and contractor shall allow all reasonable facilities and use of his scaffolding for the execution of such work. The main contractor shall extend all co-operations in this regard.

#### 42. INSURANCE

- a. IN RESPECT OF DAMAGE TO PERSONS AND PROPERTY

- (i) The contractor shall be responsible for all injury to the work or to persons, animals or things, and for all damages to the structural and / or decorative part of the property which may arise from the operation or neglect of himself or of any nominated sub-contractor or any of his / sub-contractor's employee, whether such damage/ injury arises from carelessness, accident or any other cause whatsoever in any way connected in the carrying out of this contract. This clause shall be held to include inter alias, any damage to buildings, whether immediately adjacent or otherwise, and any damage to the roads, streets, foot-paths, bridge or ways as well as damage caused to the building and work forming the subject of this contract by rain, wind or other inclement of the weather. The contractor shall indemnify the Bank and hold it harmless in respect of all and any expense arising from such injury or damage to persons or property as aforesaid and also in respect of any claim made in respect of injury and damage under any Act of any Legislature or otherwise and also in respect of any award of compensation or damage consequent upon such claims.
- (ii) The contractor shall reinstate all damage of every sort mentioned in this clause, so as to deliver up the whole of the contract works complete and perfect in every respect and so as to make good or otherwise satisfy all claims for damage to the property or third parties.
- (iii) The contractor shall indemnify the Bank against all claims which may be made against the Bank by any member of the Public or third party in respect of under the scope of tender which may arise in respect of the works or in consequence thereof and shall at his own expense arrange to effect and maintain, until the virtual completion of the contract, with an approved office, a Policy of Insurance in the name of the Bank and the contractor against such risks and deposit such policies with the Bank from time to time during the currency of this contract. The contractor will also similarly indemnify the Bank of all claims which may be made upon the Bank whether under the Workmen's Compensation Act or any other statute in force during the currency of this contract or at common law in respect of any employee of the contractor or any sub-contractor and shall at his own expense effect and maintain, until the virtual completion of the contract, with an approved office, a Policy of Insurance in the joint name of the Bank and the Contractor against such risks and deposit such policy or policies with the Bank from time to time during the currency of the contract.
- (iv) The contractor shall be responsible for any liability which may be excluded from the Insurance Policies above referred to and also for all other damages to any person animal or property arising out of incidental or defective carry in out of this contract. He shall also indemnify the Bank in respect of any cost, charges or expenses arising out of claims or proceeding and also in respect of any award of composition and damages arising there from.
- (v) The Bank shall be entitled to deduct the amount of any damage, compensation, cost, charges and expenses arising from or accruing from, or in respect of, any such

claims or damage from any or all sums due or to become due to the contractor without prejudice to the Bank's other rights in respect thereof.

**b. FIRE INSURANCE**

- (i) The Contractor shall, within fourteen days from the date of commencement of works, insure the works at his cost and keep them insured until the virtual completion of the contract, against loss or damage by fire and / or earthquake, flood with an office to be approved by the Architect in the joint name of the Bank and the Contractor (the name of the former being placed first in the policy), for the contract amount only. The Contractor shall deposit the policy and receipts for the premium with the owner within 21 days from the date of issue of work order, unless otherwise instructed by commencement of the works, unless otherwise instructed by the Architect. In default of the Contractor insuring as provided above, the Bank or the Architect on his behalf, may so insure the works and may deduct the premium paid from any money due or which may become due to the Contractor without prejudice to the other rights of the Bank in respect of such default. In case it becomes necessary to suspend the works, the Contractor shall as soon as the claim under the policy is settled, or work reinstated by the Insurance office should they elect to do so, proceed with all due diligence with the completion of the works in the same manner as though the incident had not occurred and in all respects under the same conditions of the Contract. The contractor in case of rebuilding or reinstatement after fire, shall be entitled to such extension of time for completion as the Bank / Architect deemed fit.
  - (ii) The amount so due as aforesaid shall be the total value of the works duly executed and of the contract materials and goods delivered upon the site for use in works upto and including a date not more than seven days prior to the date of the said Certificate less the amount to be retained by the Bank (as hereinafter provided) and less any installments previously paid under this clause. Provided that such Certificate shall only include the value of the said materials and goods as and from time to time as they are reasonably, properly and not prematurely brought upon the site and then only if properly stored and/or protected against weather.
- c) The Contractors will have to take out following Insurance Policies:**
- 1) Contractors All Risks Insurance Policy to cover-  
 Earthquake- Fire & Shock  
 Landslide/Rockslide/Subsidence.  
 Flood/Inundations.  
 Storm/Tempest/Hurricanes/Typhoon /Cyclone Collapse.  
 Theft/Burglary.  
 Damage to material brought at Site and to be subsequently used in the work.
  - 2) Third party Insurance Policy
    - a. For accidental loss or damage caused to the property of other persons.

- b. For fatal or non-fatal injury to any person other than insured own employees or work men of employees of the owner of the works any other construction work thereon, or member of the Insured's family or of any of the aforesaid; directly consequent upon of solely due to the construction of any property described in the Schedule.

3) Workmen's Compensation Insurance.

43. ACCOUNTS RECEIPTS & VOUCHERS:

The contractor shall, upon the demand made by bank furnish them with all the invoices, accounts, receipts and other vouchers that they may require in connection with the works under this contract. If the contractor shall use materials less than what he is required under the contract, the value of the difference in the quantity of the material he was required to use and that he actually used shall be deducted from his dues. The decision of the Bank shall be final and binding on the contractor as to the amount of materials the contractor is required to use for any work under this contract.

45. LIQUIDATED DAMAGES / DAMAGES FOR NON-COMPLETION

If the Contractor fails to complete the works by the date stated in the Appendix or within any extended time and the Architect certifies in writing that in his opinion, the same ought reasonably to have been completed, the Contractor shall pay the Bank liquidated damages @ 1% of the contract amount per week of delay subject to maximum deduction of 10% of the contract amount.

46. TOOLS, STORAGE OF MATERIALS, PROTECTIVE WORKS AND SITE OFFICE REQUIREMENTS

- i) The contractor shall provide, fix up and maintain in an approved position proper office accommodation for the contractor's representative and staff which offices shall be open at all reasonable hours to receive instruction notices or communications and clear away on completion of the works and make good all work disturbed.
- ii) All drawings maintained on the site are to be carefully mounted on Boards of appropriate size and covered with a coat of approved varnish. They are to be protected from ravages of termites, ants and other insects.
- lii) The contractor shall provide at his own cost all artificial light required for the work and to enable other contractors and sub-contractors to complete the work within the specified time.

- iv) The contractor shall provide a suitable temporary hut for the watchmen and clear away the same when no longer required and to provide all necessary attendance, lights, etc. required.
- v) The contractor shall arrange for temporary latrines for the use of workers and field staff and keep the same in a clean and sanitary condition to the satisfaction of the Public Health Authorities and shall cause such latrines and soil to be cleared away whenever necessary and shall make good all the works disturbed by these conveniences.
- vi) Every precaution shall be taken by the contractor to prevent the breeding of mosquitoes on the works during the construction and all receptacles, cisterns, water tanks, etc., used for the storage of water must be suitably protected against breeding of mosquitoes. The contractor shall indemnify the Bank against any breach of rules in respect of anti-malarial measures.
- vii) The contractor shall not fix or place any placards or advertisement of any description or permit the same to be fixed or placed in or upon any boarding, gantry, building structure other than those approved by the Bank.

#### 47. PROTECTIVE MEASURES

The contractor from the time of being placed in possession of the site must make suitable arrangements for watching, lighting and protecting the work, the site and surrounding property by day, by night, on Sundays and other holidays.

Contractor shall indemnify the Bank against any possible damage to the building, roads or members of the public in course of execution of the work.

The contractor shall provide necessary temporary enclosures, gates, entrances, etc. for the protection of the work and materials and for altering and adoption the same as may be required and removing on completion of the works and making good all works disturbed.

**Storage of materials:** The contractor shall provide and maintain proper sheds for the proper storage and adequate protection of the materials etc. and other work that may be executed on the site including the tools and materials of sub-contractors and remove same on completion.

Cement godown shall be constructed for storing about six weeks' requirement of cement and stored as per norms with a stack of 10 bags each and 2 feet opening all around with 2 feet passage of each stack. Structure shall be water-proof from all the sides and top. Cement should be stored one foot above the ground level and have pucca raised floor.

So also reinforcement bars are to be stored above the ground level to prevent the same from getting rusted.

Tools: Theodolite levels, prismatic compass, chain, steel and metallic taps and all other surveying instruments found necessary on the works shall be provided by the contractor for the due performance of this contract as instructed by the site engineer.

All measuring tapes shall be of steel and suitable scaffolding and ladders that may be required for safely taking measurement shall be supplied by the contractor.

The mistries and the supervisors on the works shall carry with them always a one meter or two meter steel tape, a measuring tape of 30 meters, a spirit level, a plum bob and a square and shall check the work to see that the work is being done according to the drawing and specifications. The Site Engineer will use any or all measuring instruments or tools belonging to the contractors as he chooses for checking the works executed or being executed on the contract.

The contractor should cover in his rates for making provisions for all reasonable facilities for the use of his scaffolding, tools and plant etc. by sub-contractors for their work.

#### 48. DATE OF COMMENCEMENT & COMPLETION

The Contractor shall be allowed admittance to the Site on the “Date of Commencement” stated in the Appendix hereto, or such later date as may be specified by the Architect / Consultant and he shall there upon and forthwith begin the works and shall regularly proceed with and complete the same (except the painting or other decorative works the Architect / Consultant may desire to delay) on or before the “Date of Completion” stated in the Appendix subject nevertheless to the provision for extension of time hereinafter contained.

#### 49. TIME OF COMPLETION, EXTENSION OF TIME & PROGRESS CHART

(i) Time of completion: The entire work is to be completed in all respects within the stipulated period i.e. 45 DAYS. The work shall deemed to be commenced within 10 days from the date of acceptance of work order or date of handing over of site, whichever is later. Time is the essence of the contract and shall be strictly observed by the contractor. The work shall not be considered as complete until the Bank / Architects have certified in writing that this has been completed and the Defects Liability Period shall commence from the date of such certificate.

(ii) Extension of time: If in the opinion of the Architect / Consultant the work has been delayed

(a) by force majeure; or

- (b) by reason of any exceptionally inclement weather or
- (c) by reason of proceedings taken or threatened by or dispute with adjoining or neighboring owners or public authorities arising otherwise then through the Contractors own default or
- (d) by the works or delay or the other Contractors or tradesmen engaged or nominated by the Bank or the Architect and not referred to in the Schedule of Quantities and/or specification or
- (e) by reasons of the Architect's instructions as per clause 2 hereof or
- (f) by reason of any combination of workmen or strike or lock-out affecting any of the building trades or
- (g) in consequence of the Contractor not having received in due time necessary instructions from the Architect for which he shall specifically applied in writing or
- (h) from other cause which the Bank may consider as beyond the control of the Contractor or
- (i) In the event, the value of work exceed the value of the Priced Schedule of Quantities owing to variation, the architect may with the previous approval in writing of the Bank make a fair and reasonable extension of time for the completion of the Contract works.

In case of such strike or lockout, the Contractor shall as soon as give written notice thereof to the Architect / Consultant, but the Contractor nevertheless constantly use his endeavor to prevent delay and shall do all that may be reasonably required to the satisfaction of the Architect/Bank to proceed with the work and on his doing so that it will be ground of consideration by the Bank for an extension of time as above provided. The decision of the Bank as to the period to be allowed for an extension of time for completion hereunder (which decision shall be final and binding on the contractor) shall be promulgated at the conclusion of such strike or lock-out and the Bank shall then, in the event of an extension being granted, determine and declare the final completion date. The provision in clause with respect to payment of liquidated damages shall, in such case, be read and construed as if the extended date fixed by the Bank were substituted for and the damage shall be deducted accordingly.

- (iii) **PROGRESS OF WORK:** During the period of construction the contractor shall maintain proportionate progress on the basis of a Programme Chart submitted by the contractor immediately before commencement of work and agreed to by the Bank / Architects. Contractor should also include planning for procurement of scare material well in advance and reflect the same in the Programme Chart so that there is no delay in completion of the project.

#### 50. **FAILURE BY CONTRACTOR TO COMPLY WITH ARCHITECT / CONSUSLTANT'S INSTRUCTION**

If the Contractor after receipt of written notice form the Architect / Consultant requiring compliance within ten days fails to comply with such further drawings

and/or Architect's instructions, the Bank may employ and pay other persons to execute any such work whatsoever the may be necessary to give effect thereto, and all costs incurred in connection therewith shall be recoverable from the Contractor by the Bank on the Certificate of the Architect / Consultant as a debt or may be deducted by him from any money due to the Contractor.

51. Idle labour:

Whatever the reasons may be no claim for idle labour, additional establishment cost of hire and labour charges of tools and plants would not be entertained under any circumstances.

52. Suspension:

If the contractor except on account of any legal restraint upon the Bank preventing the continuance of the work or in the opinion of the Bank shall neglect or fail to proceed with due diligence in the performance of his part of the contract or if he shall more than once make default, the Bank shall have the power to give notice in writing to the contractor requiring the work to be proceeded within a reasonable manner and with reasonable dispatch, such notice purport to be a notice under this clause.

After such notice shall have been given the contractor shall not be at liberty to remove from the site of the works or from any ground contiguous thereto any plant or materials to subsist from the date of such notice being given until the notice shall have been complied with. If the contractor fails to start the work within seven days after such notice has been given to proceed with the works as therein prescribed, the Bank may proceed as provided in clause Termination of Contract by Bank.

53. TERMINATION OF CONTRACT BY THE BANK

If the Contractor being a individual or a Firm, commits any "act of insolvency" or shall be adjudged an Insolvent or being an Incorporate company, shall have an order for supervision of the court and the official Assignee or the Liquidator in such acts of insolvency and winding up, as the case may be, shall be unable within seven days after notice to him requiring him to do so, to show the reasonable satisfaction of the Architect that he is able to carry out and fulfill the Contract and to give security therefore, if so required by the Architect / Consultant.

OR if the Contractor (whether an individual, Firm or Incorporated Company) shall suffer execution or other process of court attaching property to be issued to the Contractor.

OR shall suffer any payment under this Contract to be attached by or on behalf of any of the creditors of the Contractors.

OR shall assign or sublet this Contract without the consent in writing of the Bank first obtained.

OR for the misconduct of Contractor or any of the persons engaged by him for the work

OR shall charge or encumber this Contract or any payment due or which may become due to the Contractor hereunder.

OR if the architect / consultant shall certify in writing to the Bank that the contractor:

- i. Has abandoned the Contract, or
- ii. Has failed to commence the works, or has without any lawful excuse under these conditions suspended the progress of the works for fourteen days after receiving from the Architect notice to proceed, or
- iii. Has failed to proceed with the works with such due diligence and failed to make such due progress as would enable the works to be completed within the time agreed upon, or
- iv. Has failed to remove materials from the Site or to pull down and replace work within seven days after receiving from the architect written notice that the said materials or work were condemned and rejected by the Architect under these conditions or,
- v. Has neglected or failed persistently to observe and perform all or any of the acts, matters or things by this Contract to be observed and performed by the contractor to observe or perform the same.
- vi. Commit any kind of default

Then and in any of the said cases the Bank may, notwithstanding any previous waiver, after giving seven days notice in writing to the Contractor, determine the Contract but without thereby affecting the powers of the Architect/Bank or obligations and liabilities of the Contractor, the whole of which shall continue in force as fully as if the contract has not been so determined, and as if the work subsequently executed had been executed by or on behalf of the Contractor, And further, the Bank by his agent or servants may enter upon and take possession of the work and all plant, tools, scaffoldings, shed, machinery, steam and other power utensils and materials lying upon the premises or on the adjoining land or roads and use the same as his own property or may employ the same by means of his own servants and workmen in carrying on and completing the works or by the employing any other contractor or person or persons to complete the works and the contractor shall not in any way interrupt or do any act, matter or thing to prevent or hinder such other contractor or other person or persons employed for completing or

finishing or using the materials and plant for the work. When the work shall be completed or as soon as thereafter as convenient the Architect shall give a notice to the Contractor to remove his surplus materials and plant, and should the Contractor fail to do so within the period of fourteen days after receipt thereof by him, the Bank may sell the same by public auction, and give credit to the Contractor for the net amount realized. The architect shall thereafter ascertain and certify in writing under his hand what (if anything) shall be due or payable to, or by the Bank, for the value of the said plant and materials so taken possession of by the Bank and the expense or loss which the bank shall have been put to in procuring the works to be completed and the amount, if any, owing to the Contractor and the amount, which shall thereupon be paid by the Bank to the Contractor or by the Contractor to the Bank, as the case may be and the certificate of the architect shall be final and conclusive between the parties.

54. Certificates & payments:

The Contractor shall be paid by the Bank from time to time by installments under Interim certificates to be issued to the Contractor on account of the works executed when in the opinion of the Bank's engineer, work to the approximate value named in the appendix as value of work for Interim Certificates (or less at the reasonable discretion of the Engineer has been executed in Accordance with this contract, subject, however, to a retention of the percentage of such value named in the appendix hereto as "retention percentage from Interim Certificate", until the total amount retained shall reach the named in the Appendix as "Total Retention Money", after which time the installments shall be upto the full value of the work subsequently so executed and fixed in the building. The Architect / Consultant may in his discretion include the Interim Certificate, such amount, as he may consider proper on accounts of material delivered upon the site by the contractor for use in the works. And when the works have been virtually completed and the Architect / Consultant shall have certified in writing that they have been completed, the contractor shall be paid by the Bank in accordance with the certificate to be issued by the Architect / Consultant the sum of money named in the Appendix "Installment after virtual completion" being a part of the said Total Retention Money. And the contractor shall be entitled to the payment of the Final Balance in accordance with the Final Certificate to be issued in writing by the Architect at the expiration of the period referred to as "The Defects Liability Period" in the appendix hereto from the date of virtual completion, or as soon after the expiration of such period as the works shall be finally completed and all defects made good according to the true intent and meaning and hereof whichever shall last happen, provided always that the issue of the Architect / Consultant of any certificate during the progress of the works or at or after the completion shall not relieve the contractor from his liability under clause 2 and 20 nor relieve the Contractor from his liability in case of fraud, dishonesty or fraudulent concealment relating to the works or materials or to any matter dealt with in the certificate, and in case of all the defects and insufficiencies in the works or materials which is a reasonable examination would not have disclosed. No certificate of the Architect

shall of itself be conclusive evidence that any works or materials to which it relates are in accordance with the contract, neither will the contractors have a claim for any amounts which the Architect / Consultant might have certified in any interim bill and paid by the Bank and which might subsequently be discovered as not payable and in this respect the Bank's decision shall be final and binding.

The Architect / Consultant shall have power to withhold any Certificate if the works or any parts thereof are not being carried out to his satisfaction.

The Architect / Consultant may by any certificate make any correction in any previous certificate, which shall have been issued by him.

No certificate of payment shall be issued by architect if the contractor fails to insure the works and keep them insured till the issue of Virtual completion certificate.

All the interim payments shall be regarded as payments by way of advance against the final payment only and not as payments for work actually done and completed and shall not preclude the requiring of bad, unsound and imperfect or unskilled work to be removed and taken away and reconstructed or re-erected or be considered as an admission of the due performance of the contract, or any part thereof in any respect or the accruing of any claim nor shall it conclude determine or affect in any way the power of the Bank under these conditions or any of terms as to the final settlement and adjustment of the accounts or otherwise or in any other way vary or affect the contract.

**55. EXCEPTED MATTERS / MATTERS TO BE FINALLY DECIDED BY THE BANK / ARCHITECT / CONSULTANT:**

The decisions, opinion, direction, certificate (except for payment) with respect to all or any of the matters under this tender shall be final and conclusive and binding on the parties hereto and shall be without appeal. Any other decision, opinion, direction, certificate or valuation of the architect or any refusal of the architect to give any of the same, shall be subject to the right of arbitration and review. The Architect has to give recommendations/ opinion in respect of interpreting the various clauses. However, the decision from the competent authority of the bank shall be final and binding.

**56. SETTLEMENT OF DISPUTES BY ARBITRATION**

Wherever, in any of the documents forming part of the Contract, the Consultant / Bank has been vested with the final powers, his decision, opinion, certificate or any other discretion shall be final conclusive and binding on the parties and shall be without appeal. All other matters shall be subject to the right of arbitration.

All disputes or differences of any kind whatsoever save and except matters referred to in clause 1) arising out of or in connection with the Contract, whether during the progress of Work or after Completion and shall after written notice by either party to the contract to the other of them and to the Bank hereinafter mentioned be referred for adjudication to two Arbitrator, one each to be nominated by the Contractor and the Bank, who shall thereafter appoint an Umpire. The provisions of Indian Arbitration and Conciliation Act 1996 shall apply for the purposes.

The Work under the Contract shall, however, continue during the arbitration proceedings and no payment due or payable to the Contractor shall be withheld on account of such proceedings.

The Arbitrator shall be deemed to have entered on the reference on the date he issued notice to both the parties fixing the date of the first hearing.

The Arbitrator may from time to time, with the consent of the parties, enlarge the time for making and publishing the award.

The Arbitrator shall give a separate award in respect of each dispute or difference referred to him. The Arbitrator shall decide each dispute in accordance with the terms of the contract and give a reasoned award. The venue of arbitration shall be such place as may be fixed by the Arbitrator in his sole discretion.

The fees, if any, of the Arbitrator shall, if required to be paid before the award is made and published, be paid half and half by each of the parties. The cost of the reference and of the award including the fees, if any, of the Arbitrator who may direct to and by whom and in what manner, such costs or any part thereof shall be paid and may fix or settle and amount of costs to be so paid.

The award of the Arbitrator shall be final and binding on both the parties. Subject to aforesaid the provisions of the Arbitration & Conciliation Act 1996 or any statutory modification or re-enactment thereof and the rules made there under, and for the time being in force, shall apply to the arbitration proceeding under this clause.

The Bank and the Contractor hereby also agree that arbitration under clause shall be a condition precedent to any right to action under the contract with regard to the matters hereby expressly agreed to be so referred to arbitration.

The Bank and the contractor hereby also agree that arbitration under clause shall be a condition precedent to any right to action under the contract with regard to the matters hereby expressly agreed to be so referred to arbitration.

Jurisdiction: All matters arising out of or in any way connected with this contract shall be deemed to have arisen in Bengaluru and only the courts in Bengaluru shall have jurisdiction to determine the same.

**57. RIGHT OF TECHNICAL SCRUTINY OF FINAL BILL**

The Bank shall have right to cause a technical examination of the works and the final bill of the works and the final bill of the contractor including all supporting vouchers, abstracts, etc., to be made at the time of payment of the final bill. If as a result of this examination or otherwise any sum is found to have been overpaid or over certified, it shall be lawful for the Bank to recover the sum. The Bank reserves the right to alter / reduce amount certified by Consultant / Engineer, if noticed that certification is not proper.

The subject work will be scrutinized by the Chief Technical Examiner's Office, a technical wing of Central Vigilance Commission and other Vigilance and Audit Authorities of the Bank. Decision of this Authority shall be binding on the contractor. Any discrepancy noted defected shall be rectified by the contractor free of cost or appropriate amount will be recovered from the contractor's payment.

**58. BANK ENTITLED TO RECOVER COMPENSATION PAID TO WORKMEN:**

In the event of a direction to bank by statutory authority/court or by the virtue of the provisions of the workmen's compensation Act, 1923, or any statutory modification or re-enactment thereof to pay compensation to a workman employed by the contractor in execution of the works, the Bank shall be entitled to recover from the contractor the amount of compensation so paid, and without prejudice to the rights of the bank under said Act. The Bank shall be at liberty to recover such amount or any part thereof by deducting it from the security deposit or from any sum due to the contractor under this contract or otherwise. The bank shall not be bound to contest any claim made against it under the said Act, except on written request of the contractor and upon his giving to the bank full security to the satisfaction of the Bank for all costs for which the Bank might become liable in consequence of contesting such claim.

**59. ABANDONMENT OF WORKS:**

If at any time after the acceptance of the Tender, the Employer shall for any reasons whatsoever not require the whole or any part of the works to be carried out, the Architect / Bank shall give notice in writing to the contractor who shall have no claim to any payment of compensation or otherwise whatsoever on account of any profit or advantage which he might have derived from the execution of the whole works but which did not derive in consequence of the foreclosure of the whole or part of the work.

**60. RETURN OF SURPLUS MATERIALS:**

Notwithstanding anything to the contrary contained in any or all the clauses of this contract, where any material for the execution of the contract is procured with the assistance of the Bank by purchase made under orders or permits or licenses issued by the Government, the contractor shall hold the said materials economically and solely for the purpose of the contract and not dispose of them without the prior written permission of the bank, if required by the Bank, at the price to be determined by the Architect having due regard to the condition of the materials, the price to be determined not to exceed the purchase price thereof inclusive of Sales Tax, Octroi Duty and other such levies paid by the contractor in respect thereof. In event of the breach of the aforesaid condition, the contractor shall, in addition to being liable to action for contravention of the terms of license or permit and /or criminal breach of trust, be liable to Bank for all such moneys, advantage or profits resulting or which in the usual course would have resulted to him by reason of such breach.

**61. RIGHT OF BANK TO TERMINATE CONTRACT IN THE EVENT OF DEATH OF CONTRACTOR IF INDIVIDUAL.**

Without prejudice to any of the rights or remedies under this contract, if the contractor, being an individual dies, the Bank shall have the option of terminating the contract without incurring any liability for such termination.

**62. Office accommodation for Site Engineer.**

The contractor shall provide, erect, and maintain at his cost a separate simple watertight office accommodation for the Site engineer/ PMC. This accommodation shall be well lighted and ventilated and provided with windows, door with lock. The site engineer's / PMC office shall be minimum of 150 Sq.ft. and the contractor shall provide a desk, chairs, drawers, for keeping drawing, a cupboard having proper lock and a tack board for displaying drawings. The accommodation shall be demolished when directed. The contractor has to provide one peon for the said office who shall keep the office neat and tidy. The contractor shall also make arrangement for toilet facilities and drinking water. The office shall be provided with fan / air-cooler / air-condition as required.

**63. Security arrangement at Site**

Upon taking possession of the site, the contractor shall make own arrangement of security by posting required number of security guards and flood light arrangement. The Bank is not responsible for any damages/mishandling/theft of the material from the site.

**64. Force majeure:** The Contractor will not be responsible for delays which may arise on account of reasons beyond his control of which the Asst.General Manager shall be final judge. Tikes by the contractor workers on account of any dispute

between the contractor and his workers as to wages or otherwise will not be deemed to be a reason beyond the contractors control & the contractor shall be responsible for any loss or damage which Bank may suffer on this account.

## APPENDIX / MEMORANDUM TO CONDITIONS OF CONTRACT

Estimated cost	Rs.12.42 Lakh
EMD	EMD shall be Rs.25000.00 payable drawn from Nationalized bank only in form of Demand Draft / Pay Order favouring Union Bank of India payable at Bengaluru.
Initial security deposit	The amount of ISD shall be 3% of the accepted value of the tender including EMD.
Date of commencement	10 <sup>th</sup> day from the date of acceptance of work order OR date of site possession, whichever is later.
Time for completion of work	As per time schedule given in tender document i.e. 45 DAYS.
Retention money to be deducted from the bills.	8% of the certified gross value of each running bill, till accumulating total security deposit including ISD.
Total Security Deposit	10% of Contract amount / value of final bill whichever is maximum.
Defect Liability Period	Twelve months from the virtual completion. However, if all the works or more than one works awarded to one contractor the defects liability period will be reckoned from the date of virtual completion of last work.
Period of Final Measurement	2 months.
Liquidated damages	Shall be 1% of contract amount per week of delay subject to ceiling of 10% of the accepted contract amount.
Value of works for Interim Certificates	Value not less than Rs.10 lacs (Rupees Ten Lacs only) or as decided by the Bank.
Payment after virtual completion	50% of total security deposit will be returned after (i) issue of virtual completion certificate by the project architect. (ii) Contractor's removal of his material, equipments, cleaning of site and against Bank Guarantee (for the final bill value of Rs.3.00 lac and above). Balance 50% of retention money shall be released 14 days after satisfactory completion of defect liability period as certified by the project consultant.
Period for honouring interim certificate.	75% of the bill amount shall be honoured within 10 days after getting certificate from project architect and submitting to the bank. Balance 25% bill amount payable within 30 days after checking by the Bank.
Recovery towards taxes.	As per rules applicable from time to time.

## SAFETY CODE

### 1. Scaffolds

- i. Suitable scaffolds shall be provided for workmen for all works that cannot safely be done from the ground, or from solid construction except in the case of short duration work which can be done safely from ladders. When a ladder is used, it shall be of rigid construction made either of good quality wood or steel. The steps shall have a minimum width of 450 mm and a maximum rise of 300 mm. Suitable hand holds of good quality wood or steel shall be provided and the ladder shall be given an inclination not steeper than  $\frac{1}{4}$  to 1 ( $\frac{1}{4}$  horizontal and 1 vertical).
- ii. Scaffolding or staging more than 4 m. above the ground floor, swung or suspended from an overhead support or erected with stationary support shall have a guard rail properly bolted, braced or otherwise secured, at least 1 m. above the floor or platform of such scaffolding or staging and extending along the entire length of the outside and ends thereof with only such openings as may be necessary for the delivery of materials. Such scaffolding or staging shall be so fastened as to prevent it from swaying from the building or structure.
- iii. Working platforms, gangways and stairways shall be so constructed that they do not sag unduly or unequally and if the height of the platform, gangway or stairway is more than 4 m. above ground level or floor level, they shall be closely boarded and shall have adequate width and be suitably fenced as described in (ii) above.
- iv. Every opening in the floor of a building or in a working platform shall be provided with suitable means to prevent the fall of persons or materials by providing suitable fencing or railing whose minimum height shall be 1 m.

Wherever there are open excavations in ground, they shall be fenced off by suitable railing and danger signals installed at night so as to prevent persons slipping into the excavations.

- v. Safe means of access shall be provided to all working places. Every ladder shall be securely fixed. No portable single ladder shall be over 9 m. in length while the width between side rails in rung ladder shall in no case, be less than 290 mm. for ladder up to and including 3 m. in length for longer ladders this width shall be increased at least 20 mm. for each additional meter of length.
- vi. A sketch of the ladders and scaffolds proposed to be used shall be prepared and approval of the Engineer obtained prior to construction.

### 2. Other Safety Measure

- vii. All personnel of the contractor working within the plant site shall be provided with safety helmets. All welders shall wear welding goggles while doing welding work

and all metal workers shall be provided with safety gloves. Persons employed on metal cutting and grinding shall wear safety glasses.

- viii. Adequate precautions shall be taken to prevent danger from electrical equipment. No materials on any of the sites of work shall be so stacked or placed as to cause danger or inconvenience to any person or the public.

### 3. Excavation & Trenching

- ix. All trenches, 1.25 m or more in depth shall at all times be supplied with at least one ladder for each 30 m. in length or fraction thereof. The ladder shall be extended from bottoms of the trench to at least 1 m. above the surface of the ground. Sides of trenches which are 1.5 m. or more in depth shall be stepped back to give suitable slopes or securely held by timber bracing so as to avoid the danger of sides of collapsing. The excavated materials shall not be placed within 1.5 m. of the edges of the trench or half of the depth of the trench whichever is more. Cutting shall be done from top to bottom. Under no circumstances undermining or undercutting shall be done.
- x. The contractor shall take all measure on the site of the work to protect the public from accidents and shall be bound to bear the expenses of defense of every suit, action or other proceedings at law that may be brought by any persons for injury sustained owing to neglect of the above precautions and to pay any such persons or which may with the consent of the contractor, be paid to compromise any claim by any such person.

### 4. Demolition

- xi. Before any demolition work is commenced and also during the process of the work:
- a. All roads and open areas adjacent to the work site shall either be closed or suitably protected.
- b. No electric cable or apparatus which is liable to be a source of danger over a cable or apparatus used by the operator shall remain electrically charged.
- c. All practical steps shall be taken to prevent danger to persons employed from the risk of fire or explosion or flooding. No floor, roof or other part of the building shall be so overloaded with debris or materials as to render it unsafe.

### 5. Personal Safety Equipments

- xii. All necessary personal safety equipment as considered adequate by the Engineer should be kept available for the use of the person employed on the site and maintained in a condition suitable for immediate use, the contractor should take adequate steps to ensure proper use of equipment by those concerned.

- a. Workers employed on mixing asphaltic materials, cement and lime mortars shall be provided with protective footwear and protective goggles.
  - b. Those engaged in white washing and mixing or stacking of cement bags or any material which is injurious to the eyes shall be provided with protective goggles.
  - c. Those engaged in welding works shall be provided with welder's protective eyesight lids.
  - d. Stone breaks shall be provided with protective goggles and protective clothing and seated at sufficiently safe intervals.
  - e. When workers are employed in sewers and manholes, which are in use, the contractor shall ensure that the manhole covers are opened and are ventilated at least for an hour before the workers are allowed to get into manholes and the manholes so opened shall be cordoned off with suitable railing and provided with warning signals or boards to prevent accident to the public.
  - f. The contractor shall not employ men below the age of 18 years and women on the work of painting with products containing lead or any toxic material in any form. Wherever men above the age 18 are employed on the work of such painting the following precautions should be taken:
    - i. No paint containing lead or lead products shall be used except in the form paste or readymade paint. Paints like vinyl and epoxies having toxic fumes should be applied after following all precautions lay down by manufactures.
    - ii. Suitable face masks should be supplied for use by the workers when paint is applied in the form of spray or a surface having lead paint dry rubbed and scrapped.
    - iii. Overalls shall be supplied by the contractor to the workmen and adequate facilities shall be provided to enable the working painters to wash during the cessation of work.
    - xiii. When the work done near any public place where there is risk of drawings all necessary equipments should be provided and kept ready for use and all necessary steps taken for prompt rescue of any person in danger and adequate provision should be made for prompt first aid treatment of all injuries likely to be sustained during the course of the work.
6. Hoisting Machines
- xiv. Use of hoisting machines and tackle including their attachments anchorage and supports shall confirm to the following standards or conditions:

- i.a. These shall be of good mechanical constructions sound material and adequate strength and free from patent defect and shall be kept in good repair and in good working order.
  - i.b. Every rope used in hoisting or lowering materials or as means of suspension shall be of durable quality and adequate strength and free from patent defects.
  - ii. Every crane driver or hoisting appliance operator shall be properly qualified and no person under the age of 21 years shall be incharge of any hoisting including any scaffolding winch or give signals to operator.
  - iii. In case of every hoisting machine and of every chain ring hook, shackle shovel and pulley block used in hoisting or as means of suspension the safe working load shall be ascertained by adequate means. Every hoisting machine and all gear referred to above shall be plainly marked with the safe working load. In case of a hoisting machine having a variable safe working load, each safe working load and the conditions under which it is applicable shall be clearly indicated. No part of any machine or any gear referred to above in this paragraph shall be loaded beyond the safe working load except for the purpose of testing.
  - iv. In case of departmental machines, the safe working load shall be notified by the Engineer. As regards contractor's machines, the contractor shall notify the safe working load of the machine to the Engineer whenever he brings any machinery to site of work and get verified by the Engineer concerned.
  - xv. Motors, gearing, transmission, electrical wiring and other dangerous parts of hoisting appliances should be provided with efficient safeguards. Hoisting appliances should be provided with such means as will reduce to the minimum of the risk of any part of a suspended load becoming accidentally displaced. When workers are employed on electrical installations which are already energized, insulating mats, wearing apparel, such as gloves, sleeves and boots as may be necessary, should be provided. The workers should not wear any rings, watches and carry keys or other materials which are good conductors of electricity.
  - xvi. All scaffolds, ladders and other safety devices mentioned or described herein shall be maintained in safe condition and no scaffold, ladder or equipment shall be altered or removed while it is in use.
- Adequate washing facilities should be provided at or near places of work.
- xvii. These safety provisions should be brought to the notice of all concerned by display on a notice board at a prominent place at work spot. The person responsible for compliance of the safety code shall be named therein by the contractor.

- xviii. To ensure effective enforcement of the rules and regulations relating to safety precautions the arrangements made by the contractor shall be open to inspection by the Labour Officer, Engineer of the Department or their representatives.
- xix. Notwithstanding the above clause from (i) to (xviii), there is nothing in these to exempt the contractor from the operation of any other Act or Rule in force in India.

### BIO - DATA OF CONTRACTING AGENCY

1. Name of the firm/Tenderer :  
Corporate Office Address :
  
2. Branch Office Address :
  
3. Telephone No. :  
Office :  
Residence :  
Mobile No. :  
Fax :  
E-Mail :
  
- 4.a) Whether proprietary / partnership /:  
Pvt. Ltd. / Public Ltd.,  
b) Name of the Proprietor/  
Partners/ Directors  
I)  
II)  
III)  
c) Year of establishment :
  
5. Registration with Registrar :  
of Companies (No. & Date)
  
6. Registration with Authorities (Mandatory) :  
I) Income-tax No. :  
II) sales-tax no.  
III) Works Contract No. / VAT No.  
IV) Service tax no.  
(Furnish copies of above)  
V) EPF No.

VI) ESI No.

Must be in Business for last 3 years

7. Names of the Bankers with address :  
& certificates showing financial capacity and solvency.

I)

II)

8. Furnish copies of audited balance-Sheet and Profit & Loss A/C. for the last 3 years. :

9. Empanelment with Govt./Public Sector /:  
Banks/reputed companies  
(Certificate to be enclosed)

Name of the organization	Year since empaneled & Valid up to

10. Give details if at present involved in litigation in similar type of contracts :

Sr. No.	Name of Project	Name of Employer	Nature of work	Work order dated	Date of completion of work	Value Rs.

11. Details of civil suit, if any, that arose :  
during execution of contract in the  
past 10 years.
12. Specify maximum value of single :  
value project executed during the  
last three years.
13. Name & relation, if any, with the staff :  
member of Union Bank of India.
14. Details of work executed during the last 5 years:

Type of work	Work executed for (name of the Institution / Body)	Nature of work (in brief)	Location	Value Rs.	Duration of work with date Commence completion		If work left incomplete or terminated (give reasons)

Note: Copies of work orders along with Xerox copies of relevant TDS certificate, satisfactory completion certificate obtained from the client (fulfilling the advertisement criteria shall be enclosed).

15. Details of work on hand (photo copies of performance certificate, work orders issued by valued clients, preferably Banks, Govt., Semi-Govt. Bodies should be attached).

Type of work	Work executed for (name of the Institution / Body)	Nature of work (in brief)	Location	Value Rs.	Duration of work, stipulated time	Present stage of work

--	--	--	--	--	--	--

16. LIST OF NAME/S OF PROPRIETOR / PARTNERS & EMPLOYEES

Name	Qualification	Experience	Particulars of work done	Employed in your firm since	Value of work done

17. Turnover during last 3 years ending 31.3.2022:

Sr. No.	Year	Turnover (Rs.in lacs)	Income-tax paid	GST

**18. PRE-QUALIFICATION CRITERIA:**

Estimated cost Rs.12.42 Lacs

**MANDATORY CRITERIA**

- Must be registered with income tax authority.
- Must be registered with GST.
- Should have submitted solvency certificate of Rs.8.00 Lacs or more. Certificate should not be more than 45 days from the date of advertisement.
- The bidders should have completed 2 similar work in last 3 years with at least one public sector undertaking/Govt. agency.

Sr. No.	Criteria	Self Rating Marks
1	Constitution (Proprietorship-10, Partnership-15, Company-20)	20
2	Type of organization served during last 3 years (Public sector & Government -20, MNC/Reputed Private Sector-15, Educational Institution Hostels-10)	20
3	Annual average turnover for last 3 years ➤ Rs. Above 1 Crore - 20, Rs. 70 lakhs to 100 lakhs -15, Below Rs.70 lakhs -10.	20
4	Earned Profit during last two years	10
5	Quality of Service provided at existing sites (As assessed by inspecting Bank Officials)	30
	<b>TOTAL</b>	<b>100</b>

NOTE: Criteria mentioned above are just minimum requirement. The Bank at its discretion may upgrade the criteria. No complaint on this account will be entertained. Applicant's scoring minimum of 55 out of 70 marks and above will only be considered for pre-qualification. Applicant them shelves have to fill in self-rating marks column in the above table.

### DECLARATION

1. I / We have read the instructions appended to the proforma and I / We understand that if any false information is detected at a later date, any future contract made between ourselves and Union Bank of India, on the basis of the information given by me / us can be treated as invalid by the Bank and I / We will be solely responsible for the consequences.
2. I / We agree that the decision of Union Bank of India in selection of contractors will be final and binding to me / us.
3. All the information furnished by me hereunder is correct to the best of my knowledge and belief.
4. I / We agree that I / we have no objection if enquiries are made about the work listed by me / us in the accompanying sheets.
5. I / We agree that I / We have not applied in the name of sister concern for the subject empanelment process.

#### LIST OF MANDATORY TESTS

MATERIALS	TEST	TEST PROCEDURE	MINIMUM QUANTITY	FREQUENCY
1	2	3	4	5
Lime	Chemical and Physical Properties of lime	IS-6932	15 Mt.	10 mt or part thereof
Sand	a) Silt Content	Field	40 Cu.M.	40 Cu.M. or part thereof
	b) Bulking	Field	40 Cu.M.	50 Cu.M. or part thereof
	c) Particle size distribution	Field	80 Cu.M.	Every Cu.M. required in R.C.C. Work
Stone Aggregate	Particle size distribution		135 Cu.M.	Every 135 Cu.M. or part thereof for R.C.C. work. For rest of work as desired.
Cement	- Setting time - Strength - Soundness	IS-269 and other applicable I.S.		Every batch of Consignment and as directed wherever there is a change of source.

- Cost of testing and transport will be borne by contractors.
- Any other materials will be tested by contractors at his own cost as per the instruction of Architect and Bank from time to time.
- Frequency stated above is minimum and the Contractor may have to test materials with any frequency or as instructed by Bank/Architects without any cost.

If after any such test the work or portion of works is found in the opinion of the Architect to be defective or unsound, the contractor shall pull down and re-do the same at his own cost. Defective materials shall immediately be removed from the site.

2. Mechanical Plant: The contractor will be required to provide and maintain in working order the following power-driven equipments during the constructions work: -
  - i. Concrete Mixers of more than 200 Liters capacity (7 C.ft.).
  - ii. Devices to lift up materials to the highest level of the building of the capacity in R.C.C. beams, columns and partition wall and surface type vibrators shall be maintained on the site of work.

- iii. Pumps for bailing out water.
  - iv. Any other machinery ordered by the Architects.
3. Foremen and Tradesmen: All tradesmen shall be experienced men properly equipped with suitable tools for carrying out the work of carpentry and joinery and other specialist trades in a first class manner and where the Architects deemed necessary, the contractor shall provide any such tools, special or ordinary which are considered necessary for carrying out the work in a proper manner.

All such tradesmen shall work under an experienced and properly trained foremen, who shall be capable of reading and understanding all drawings, pertaining to this work and the contractor shall also comply with other conditions set out in Clause 9 of the conditions of the contract.

**Work Program / weekly progress report:**

The contractor shall prepare and submit to architects for approval, a bar chart showing the programme of construction of various items, fitted within the period stipulated for completion, within 15 days of the communication of the acceptance of the tender. The contractor shall also furnish necessary particulars to the site engineer for compiling weekly progress reports in the form furnished by the architects.

1. Photographs: The contractor shall at his own expense supply to the architects with triplicate copies of large photographs not less than 25cm x 20cm (10"x8") of the works taken from two approved portions of each building, at intervals of not more than three months during the progress of the work, or at every important stage of construction.
2. Preparation of building for occupation and use on completion:

The whole of the work shall be thoroughly inspected by the contractor and all deficiencies and defects put right. On completion of such inspection, the contractor shall inform the architects in writing that he has finished the work and it is ready for the architect's inspection.

On completion, the contractor shall clean all windows and doors and all glass panes, including cleaning of all floors, staircases and every part of the building including oiling of all hardware. He will leave the entire building neat and clean and ready for immediate occupation and to the satisfaction of the architects.

3. Clearing of Site: The contractor shall after completion of the work clear the site of all the debris and left over materials at his own expense to the entire satisfaction of the Architects and Municipal or other public authorities.

The whole of the work shall be thoroughly inspected by the contractor and all deficiencies and defects put right. On completion of such inspection, the contractor shall inform the Architects in writing that he has finished the work and it is ready for the Architects inspection.

4. Contractor to provide etc: The contractor shall provide a notice board on proper supports 2 m. x 1.5m (6' x 4'-6") in a position approved by the Architects. He shall allow for painting and lettering stating name of work, name of Architects, Structural consultants, general contractor and Sub-contractor. All letters except that of the name of the work shall be in letters not exceeding 5 cm. in height and all to the approval of the Architects.
5. Vouchers: The contractor shall furnish the Architects with vouchers on request, to prove that the materials are as specified and to indicate the rates at which the materials are purchased in orders to work out the rate analysis of the non-tender items which he may be called upon to carry thereafter.

## CIVIL WORKS TECHNICAL SPECIFICATION

### 1. EARTH WORKS

#### EXS - 1: Excavation

The places where excavation is directed to be done shall be cleared of all shrubs, weeds, grass and vegetation including roots. Where necessary and if so directed the excavated earth must be deposited in layers of 15 cms and the clods should be broken. During excavation if so directed 'dead-men' (of volume not more than 5% of the excavation volume shall be left at the places directed for verification of the dimensions of excavation. These dead men shall be removed and earth deposited at places shown before full rate is paid. Alternately or in addition to 'dead-men' if so directed block levels at intervals as directed will be jointly taken and recorded by the contractor's representative and clients/Architect/Consulting Engineer's representative before starting of excavation and after completion. Recording of block levels or leaving of dead-men may be avoided in the case of narrow foundations and trenches if so directed by the Architect/Consulting Engineer.

Measurement shall be taken and the quantities calculated in accordance with ISI code 1200 (latest issue)

The rate quoted shall include bailing or otherwise removing all water which may accumulate in the excavation from all causes, trimming of all sides plumb otherwise as directed. Dismantling removing and stacking as directed existing water pipes and or soil pipes within the excavation portion.

In the case of soft rock and hard rock, if required by the Architect/Consulting Engineer, the excavated stuff shall be properly stacked or disposed of in places as directed. The quantity of these stacks shall be measured and payment will be based if necessary on the net quantities after deducting voids from the measured quantities as per table below

Soft rock 35%  
Hard rock 40%

Excavation in hard rock: Rock which is in solid beds, which can only be removed either by blasting or by wedging or chiseling, shall be treated as hard rock. A boulder or detached rock measuring one cubic metre or more, shall also be treated as hard rock if the same can not be removed without blasting, wedging or chiseling

Where hard rock is met with and blasting operations are considered necessary. The contractors shall intimate about the same to the clerk of works/engineer. The contractor shall obtain license from district/public authorities for carrying out blasting work as well as for obtaining transporting and storing explosives as per 'explosive' rules 1940 or as amended.

Blasting operations shall be carried out under supervision of a responsible licensed operator of the contractor during certain specified hours, preferably during lunch break as approved in writing by the Architect/Consulting Engineer. The operator shall be conversant with the rules of blasting.

The operator should have the valid blasting license. Proper precautions for safety of persons shall be taken. Red flags shall be prominently displayed around the area to be blasted and all people on work except those who actually light the fuses shall be withdrawn to a safe distance of not less than 300 metres from the blast. Blasting shall not be done within 100 metres of an existing masonry or any other kind of structure unless special precautions are taken by heavy blanketing etc. on the special approval of Architect/Consulting Engineer.

Where blasting is not practicable or prohibited, excavation shall be done by wedging or chiseling and it shall be restricted to the quantity required to enable the necessary foundation etc. to be put in, in case the dimension of trenches exceed those shown in drawings the excess quantity shall not be paid for.

Excavation shall be to the exact length, width and depth shown or figures in the drawing or as directed by the Architect/Consulting Engineer, if excavated to greater length, width or depth than shown or required the extra work occasioned thereby shall be done at contractor's expenses. However, extra width where necessary for providing working space for further work will be permitted and paid for such extra will be limited to the allowance provided in ISI code 1200. Extra depth shall be brought up by plain cement concrete filling 1:5:10 proportion and extra length and width filled in by rammed earth or murrum or if the Architect/Consulting Engineer think it necessary for stability of the work by 1:5 concrete as directed at contractor's cost. Water accumulated within the trenches during the progress of work from whatever causes shall be bailed or pumped out at the contractor's own expenses. Foundations or trenches shall be kept free of water while masonry or concrete works are in progress.

## **2 and 3. PCC, RCC FORMWORK AND REINFORCEMENT WORKS**

### **CS - 1 : Concrete General**

Proportion of ordinary cement concrete will be expressed as M10, M15, M20 etc. in the specification. The first figure will be the quantity of cement by volume, the second figure will be dry coarse sand (fine aggregate) by volume and third figure will be the quantity of coarse aggregate by volume. Cement shall be measured by weight. The weight is to be derived on the basis that 1 cubic metre of cement will weigh 1440 kgs or one full bag of 50 kgs. will be assumed to be 35 ltrs. When the sand is wet or moist suitable correction for bulking is to be given while proportioning. Architect/Consulting Engineer may allow measuring cement by volume.

Unless otherwise specified the rates for all RCC will be exclusive of reinforcements. Reinforcements will be paid for separately.

Unless otherwise stated, for all RCC work the size of coarse aggregate will be 20mm and down size.

## **CEMENT CONCRETE PLAIN AND REINFORCED**

### **A) Cement**

Cement shall comply in every respect with the requirements of the latest publication of IS: 269 and unless otherwise specified, ordinary Portland cement shall be used. No other make of cement but that approved by the Architect/Consulting Engineer/ Employer will be allowed on works and the source of supply not be changed without approval of the Architect/Consulting Engineer in writing. Test certificates to show that the cement used fully complies with the relevant I.S specifications shall be submitted to the Architect/Consulting Engineer and not withstanding this the Architect/Consulting Engineer may at their discretion order that the cement brought to site and which they may consider damaged or of doubtful quality for any reasons. Whatsoever shall be retested in an approved testing laboratory and fresh certificate of its soundness shall be produced. Cement ordered for retesting shall not be used for any work pending results of retest. Cement shall be stored and neatly packed in piles not exceeding 10 bags high in weather proof sheds with raised wooden plank flooring to prevent deterioration by dampness or intrusion of foreign matter. It shall be stored in such a way as to allow the removal and use of cement in chronological order of receipt, i.e the first received being first used. Cement deteriorated and/or clotted shall not be used on work but shall be removed at once from the site. Daily record of cement received and consumed shall be maintained by the contractor in an approved form and a copy submitted to the Architect/Consulting Engineer/Employer once a week.

### **B) Fine Aggregates**

Sand shall conform to IS: 383. It shall pass through I.S sieve 4.75mm (3/16 B.S) test sieve, leaving a residue not more than 5% it shall be from a natural source or crushed stone screenings. It shall be washed if directed to reduce the percentage of deleterious substances to acceptable limits. Sand shall not contain any trace of salt and sand containing any trace of salt shall be rejected.

The fine aggregate for concrete shall be graded within limits as specified in IS:383 and the fineness modules shall range between 2.60 to 3.20. The fine aggregate shall stacked carefully on a clean hard dry surface so that it will not get mixed up with deleterious foreign materials. If such a surface is not available a platform of planks or corrugated sheets or brick floor or concretes floor shall be prepared. Sand shall be added in the desired proportion as required for the strength specified, with suitable correction for bulking.

### C) Coarse Aggregates

Coarse aggregate shall conform to IS: 383. It shall consist of crushed or broken stone 95% of which shall be retained on 4.75mm is test sieve. It shall be obtained from crushed granite, trap, basalt or similar approved stone from approved quarry. Coarse aggregate shall be chemically inert when mixed with cement and shall be angular in shape and free from soft friable thin porous laminated or flaky pieces. It shall be free from dust and other foreign matter. Gravel/shingle of desired grading may be permitted as a substitute in part or full in plain cement concrete if the Architect/Consulting Engineer are otherwise satisfied about the quality of aggregate.

### D) Mixing of Concrete

**Machine Mixed :** Aggregates shall be accurately measured out in boxes and mixed dry along with required cement. Water shall then be added in measured quantity and mixing shall be continued until there is uniform distribution of the materials and the mass is uniform in colour and consistency but in no case shall the mixing be done for less than 2 minutes. Only hopper loading mixer shall be used.

**Hand Mixing :** When hand mixing is permitted with the approval of the Architect/Consulting Engineer, it shall be carried out on water tight mixing platform and care shall be taken to ensure that mixing is continued until the mass is uniform in colour and consistency. If required by the Architect/Consulting Engineer 10% extra cement has to be used if hand mixing is done

**Consistency :** Only sufficient water giving due allowance for the moisture content of aggregate shall be added to the cement and aggregates during mixing to produce a mixture of sufficient workability to enable it to be well consolidated, to be worked into the corners of the shuttering and around the reinforcements where there is reinforcement to give the specified finish and to have specified strength. Normally for every 50 kg of cement total water including moisture content of aggregate should not be more than 34 litres for 1:3:6 mix 32 litres for 1:2:4 mix 30 litres for 1:1/2:3 and 27 litres for 1:1:2 (w/c as per mix design).

If difficulty be experienced in placing the concrete of specified mix and approved consistency between and below reinforcement bars, in the bottom of beams and similar situations, the concrete shall have improved workability by increasing the proportion of water and corresponding additional quantity of cement and using aggregates of smaller size than specified as directed by Architect/Consulting Engineer for which no extra be paid.

The consistency shall be determined by making trial mixtures with dried aggregates or when so instructed by test of laboratory made test cubes under the direction of Architect/Consulting Engineer. Consistency may be measured by slump test using a standard cone or the Architect/Consulting Engineer may direct the use of any other means of testing the consistency.

If the apparatus used for slump test is a standard cone, when filled. It shall be raised vertically clear of the concrete and the measurement of the slump shall be 300mm minus the height of the slumped cone of concrete. Care shall be taken to prevent vibration of the samples being tested. The following slumps shall be adopted for different kind of works.

	WITH VIBRATOR	WITHOUT VIBRATOR
1. Mass concrete in RCC foundation footings and retaining walls	10mm to 25mm	80mm
2. Beams slabs and columns simply reinforced	25mm to 40mm	100mm to 125mm
3. Thin RCC section or section with congested steel	40mm to 50mm	125mm to 150mm

## PLACING AND COMPACTING

Method of placing shall be such as to preclude segregation and as far as practicable the placing shall be continuous.

Special care shall be taken in accordance with IS 456-2000 while laying concrete under extreme weather. Concrete during the operation of placing shall be thoroughly worked around the reinforcements, embedded fixtures, spaded against corners of the form work by punning, rodding or by any other approved means and thoroughly compacted by mechanical vibrators. The number and type of vibrator to be used shall be subject to the approval of the Architect/Consulting Engineer, and in general immersion type vibrators shall be used.

Consolidation by using immersion vibrator will be in accordance with IS code 3558.

Sufficient number or reserve vibrators in good working condition shall be kept on hand at all times, so as to ensure that there is no slacking or interruption in compacting.

**Admixtures** : The use of admixtures may be allowed only if approved by the Architect/Consulting Engineer and their decision in this regard shall be final.

**Transporting** : Concrete shall be conveyed from the place of mixing to the place of final deposit as rapidly as practicable by methods which will prevent segregation or loss of any of the ingredients. If segregation does occur during transport the concrete shall be remixed before being placed. Normally not more than 30 minutes shall lapse between mixing & consolidation in position.

**Curing :** All cement concrete after laying shall be protected from damages till it sets and shall be cured thereafter for not less than 21 days. The work shall be protected from drying wind and direct sun rays. Water used for curing shall be free from sediments of any kind and generally fit for drinking.

**Strength of Ordinary Concrete :** The contractors have to see that proper materials are used and proportion and the correct water cement ratio just sufficient for the workability are maintained to see that the following minimum strength of concrete are obtained. To verify this test cubes from the concrete used should be made and tested. The frequency of testing and the acceptability criteria will be according to IS 456.

Compressive strength of 15cm cubes at 28 days of curing shall be N/mm<sup>2</sup>

M10	10 N/mm <sup>2</sup>
M15	15 N/mm <sup>2</sup>
M20	20 N/mm <sup>2</sup>

Six cubes shall be taken from any mix select at random by the Architect/Consulting Engineer. Three of them should be tested after 7 days and 3 after 28 days. Three strength at 7 days must be 2/3 of the strength at 28 days. The criteria for an acceptance is only the strength at 28 days as per codal specifications.

## **CS - 2 : Concrete Form Work and Centering**

The form work shall conform to the shape lines and dimensions as shown on the drawings and be so constructed as to remain sufficiently rigid during the placing and compacting of the concrete and shall be sufficiently water tight to prevent loss of cement slurry from the concrete form work or centering shall be constructed of steel or 12mm thick plywood specially made for concrete shuttering and adequately designed to support the full weight of wet concrete deflection limited to 3mm and retain it for during laying, consolidation and setting of concrete.

All props shall be straight and of full height and no joints shall be allowed. Props shall be braced with bamboo's or wooden battens in both directions at intervals of 1500mm and where additional staging is necessary extra care shall be taken to use bigger size props with bracings at necessary levels. All props shall be supported on sole plates and double wedged. At the time of removing props these wedges shall be gently eased and not knocked out.

All rubbish, chippings, shaving and saw dust shall be removed from the interior of the forms before the concrete is placed. The form work in contact with the concrete shall be cleaned and thoroughly wetted and treated with non-staining mineral oil or any other approved material. Care shall be taken that oil or such similar materials are kept out of contact with the reinforcement.

Openings may be given with the approval of Architect/Consulting Engineer at convenient places for washing down all the rubbish. These are to be closed before concreting.

All formwork shall be removed without shock or vibration and shall be eased off carefully in order to allow the structure to take up its load gradually. Forms shall not be disturbed until concrete had adequately hardened to take its own weight and superimposed load coming on it and in no circumstances shall forms be struck until the concrete reached a strength of a least twice the stress to which the concrete may subjected at the time of striking. The side forms shall be so fixed that while removing them the supporting forms & posts are not disturbed.

In the case of folded plates and shell roofs the contractors should take approval for the pattern of centering and shuttering along with programme for de-shuttering. The tolerances of shuttering and stripping time will be as set forth in ISI 456. If directed, forms shall be given an upward camber to ensure that the beams do not have any sag. Any honeycombing of minor nature shall be repaired neatly with cement Mortar 1:2.

Any work showing signs of damage through premature or careless removal of centering or shuttering, shall be reconstructed by the contractor at his own cost. Surface that has to remain exposed after removal of forms shall be carefully examined and any fins, burrs projections etc. that are detected shall be removed.

If centering and shuttering is to be paid for separately measurement will be taken according to IS 1200. The unit area for payment will be one square metre.

### CS-3 : Controlled Concrete

Controlled concrete shall be taken to mean that there shall be full field control of (1) predetermined grading of all aggregates that go into concrete (2) predetermined proportion of coarse aggregate, fine aggregate, cement and water for the required strength.

Strength shall mean the acceptable field strength after 28 days of curing on the tests conducted on cubes form concrete taken during concreting in the manner set forth in IS 4556. A statement of acceptable field strength is noted below.

Grade of concrete: Compressive strength of 15cm cubes at 28 days after mixing conducted in accordance with relevant ISI code : IS 456-2000

Grade of Concrete	Compressive strength N/mm <sup>2</sup>
M10	10
M15	15
M20	20
M25	25
M30	30

M35	35
M40	40

To arrive at the proportion to be adopted to obtain the required grade of concrete the mix proportion should be designed based on laboratory tests conducted using the aggregates actually available at site and which would be used for making concrete. The design mix should give suitable workability to enable it to be well consolidated to be worked into the corners of the shuttering and around the reinforcements.

Where difficulty is likely to be encountered in placing and compacting concrete and where there is crowding of reinforcements a separate mix is to be designed for required strength and used without extra cost the mix design along with the workability obtainable with the designed mix should be furnished to the Architect/Consulting Engineer before hand and their approval obtained A laboratory is to be established at the site assess the moisture content of aggregate as frequently as necessary and as instructed by the Architect/Consulting Engineer based on which correction is to be applied to the quantity of water to be used for mixing

All aggregate are to conform strictly to ISI specification ISI 383. The aggregates will be tested as frequently as directed by the Architect/Consulting Engineer to see that their specification is the same as adopted in the mix design. They must be stored on clean platform made for the purpose. Concrete shall be weigh batched

The dials of weigh batching unit to be used shall be checked with standard weights periodically. The conversion of weight to volume will not be allowed. Despite the design for several mixes the following quantities of cement are the minimum to be used for the different graded of the concrete:

M15	-	5.80 Bags per Cum
M20	-	6.40 Bags per Cum
M25	-	7.00 Bags per Cum
M30	-	7.76 Bags per Cum
M35	-	8.47 Bags per Cum
M40	-	9.18 Bags per Cum

Depending upon the quality of materials used in concrete, the above mentioned consumptions may marginally vary.

#### 4. MASONRY WORKS

##### MS - 1 : Size Stone Masonry

Size stones shall be of hard granite, basalt or trap stone obtainable from approved quarry. The stone shall be clean and wetted before they are used.

Height of course shall not be less than 15 cms and all courses shall be of uniform height. Unless otherwise instructed the depth of higher courses should not be more than depth of lower courses. Bed and sides shall be hammer or chisel dressed from the face 75mm and 35mm respectively.

No face stone shall be less in depth than in height or shall tail into the work to a length less than the height. Stones shall break joints at least half the height of the course. Faces of stones shall be hammer dressed and brushing not be more than 25mm. thickness of joints shall not be more than 20mm edges of face stones of exposed faces shall be chiseled true to both longitudinal and vertical lines. Exposed faces of corner stones to be 2 line dressed 50mm wide Bond or through stone shall be provided not exceeding 2.00 mtr apart in each course and shall be staggered. Bond stone shall be from the front to the back of the walls. For wall upto 60cms thick under, bond stones shall be in one piece and for walls over 60 cms thick they shall either be in one piece (if available locally) or be in the series of headers, each header overlapping the adjoining one by not less than 150mm bond or through stones shall be marked as directed to enable their being easily detected even after having been built in position. The interior or filling shall be with flat bedded stones laid in mortar, chips, spells shall be used to avoid thick mortar joints and shall not exceed 10% of the quantity of stone masonry. Care is to be take that no dry work or hollow spaces shall be left any where in the masonry.

##### MS - 2 : Uncoursed Rubble Masonry

The stones are received from quarry are to be set in work after knocking off weak corners and edges with mason's hammer. They are to be laid carefully so as to break joint as much as possible and shall be safely bedded in mortar. No joint shall exceed 20mm chips of stone and spalls shall be wedged in to the work wherever necessary to avoid thick beds or joints of mortar. No dry work or hollow spaces shall be allowed every stone whether large or small shall be set flush in mortar, smaller stones used in filling being carefully selected to fit snugly the interstices between the larger ones. The face stone shall be selected from the mass of quarry stones for proper size good beds and uniform colour and shall be laid as far as possible without pinning in front. One through stone shall be provided for every sq.mtr of facing and shall run back into work at least 600mm or full depth of work if it is less than 600mm. The quoins for exposed corners unless otherwise specified shall be of selected stone neatly dressed with **hammer and chiseled** to form required angle and laid header and stretcher alternatively The masonry has to be kept wet for 10 days. In the case of cement mortar the properties specified is on metric basis. But cement shall be weighed on the assumption that one cubic metre of cement weighs 1440 kgs. The

Architect/Consulting Engineer may also reduced the cement to be measure by volume but on the same assumption.

### **MS - 3 : Random Rubble Masonry**

The face stone shall be laid absolutely without pinning on the face. Every stone shall be carefully fitted so as to form neat and close joints and if necessary the edges shall be dressed with chisel so as to ensure close joints work. The thickness of joint will be as specified for each work and in no case more than 20mm. The thickness of joint should be uniform on the face variation being within 25% Mortar in joints should be scraped 12mm deep for pointing.

The stones shall be roughly chisel dressed to ensure equal size on face as far as possible. They shall be of uniform colour and they shall be carefully laid and solidly bedded in mortar and shall tail back and bond well into the backing and shall not be of greater than either breadth of face or length of tall into the work.

One header or through stone shall be inserted for every square meter of face & shall run right through the wall if it is not more than 600mm thick. If more than 600mm a line of headers shall be laid from face to back which shall overlap each other at least 150mm stones shall be arranged to break joints as much as possible and long vertical lines of jointing shall be avoided in face work. The quoins unless otherwise specified shall be of selected stones neatly dressed with hammer chisel to form required angle and laid header and stretcher alternatively. The masonry has to be kept wet for 10 days.

In the case of cement mortar, the proportion specified is on volume basis. But cement shall be weighed on the assumption that one cubic meter of cement weights 1440 kgs.

Architect/Consulting Engineer may also require the cement to be measured by volume but on the same assumption.

“PRICE BID”

**Renovation of Existing Auditorium at Staff Training College for Union Bank of India at Bannerghatta Road, Bangalore.**

**BOQ:Civil Works: Auditorium**

Sl. No.	Description of the work	Unit	Qty.	Rate	Amount
1	Dismantling Works				
a	Removing Existing flooring, dadoing, WC pan, wash basin, urinals & old pipe lines of Toilets and clearing the debries away from the site	Nos.	1.00		
b	Dismantling the Existing inside plastering and clearing the debries away from the site	Sft.	3722.00		
c	Dismantling the Existing external plastering and clearing the debries away from the site	Sft.	3234.00		
d	Removing the Existing water proof from terrace and clearing the debries away from the site	Cft	1478.00		
e	Tranporation of Debries ( Small Tractor)	Load	22.00		
2	M15 ( 1: 2:4) Concrete - 3"				
	Providing & laying M15 cement concrete using 20mm and down size granite or trap aggregate for all RCC works well compacted vibrating, curing, finishing etc complete.	Cft	9.50		
3	Providing plastering internal face of toilet wall				
	Providing plastering for internal face of columns,beams,walls in cm 1:4 15mm thk including CHIKKEN MESH, lime rendering,including necessary scaffolding,curing etc complete all as directed.	Sft.	2907.00		
4	Providing plastering to ceiling				
	Providing plastering for ceiling in cm 1:3 12mm thk including lime rendering,including necessary	Sft.	858.00		

	scaffolding,curing etc complete all as directed.				
5	Water proof for TOILET walls				
	Providing and plastering the sunken surface of the toilet with waterproof compound of approved make and brand as per the manufacturer specification including testing for any leakage etc.complete. Note: after completion of waterproofing work toilets have to be checked against leakage by flooding the water.	Sft.	123.00		
7	Flooring & Dadoing Work				
a	Vitrified Tiles Flooring				
	Providing and laying first quality approved make vitrified tile flooring using 2'0"x2'0' size tiles of approved make and colour using grey polymer modified cement based floor tile adhesive Bs 5980:1980 in conjunction with admix AD1, surface must be dry, clean and free from all contamination all as per detail and direction Basic Rate : Rs.60.00	Sft.	822.00		
b	Anti Skid Vitrified Tiles Flooring				
	Providing and laying first quality approved make vitrified tile flooring using 2'0"x2'0' size tiles of approved make and colour using grey polymer modified cement based floor tile adhesive Bs 5980:1980 in conjunction with admix AD1, surface must be dry, clean and free from all contamination all as per detail and direction Basic Rate : Rs.60.00	Sft.	37.00		
c	Ceramic Glazed Tile for Dadoing				

	Providing and Fixing Ceramic Glazed Tiles of Size 200 x 200mm/ 300x200mm/ 300x300mm 6mm minimum thick of First quality confirming to IS specifications for DADOING/ SKIRTING over the rough plastered surfaces of Naveen/ Spartek/ Jhonson/ Kajaria, or equivalent make in colours such as Ivory, Grey, Fume Red Brown etc., in cm 1:3 (1cement : 3 coarse sand) with a thin coat of cement slurry including pointing the joints with white cement and matching pigment etc., curing, acid washing, cleaning, waxing all complete. Basic Rate :- Rs.60.00 (Rate include transportation loading and unloading and all taxes)	Sft.	221.00		
8	Supply, fixing and testing of approved make C.P. Grating	Nos.	2		
9	Providing & fixing Wall mounted EWC				
	Providing 'A' grade white vitreous China Clay English closet with P or S trap with 13.60 litres low level cistern tank in syphonic types and with 3.20 cm flush pipe double flapped plastic seat inlet connection pipe are of approved quality and make, conforming to ISI specifications and fixing in position as directed (Rate including the cost of all materials and Conveyance to work spot) Wall mounted EWC only	No.	1		
10	Providing, laying and jointing CPVC pipes				
	Providing, laying and jointing CPVC pipes conforming to IS specifications of approved make (Medium) with fittings such as collars, bends, unions elbows, T's, nipples, plugs with cuts, threads using white lead and thread for joints wherever necessary as per directions including all leads and lifts etc., complete."A"				

	grade pipes Make: ASHIRVADH/ Equalient				
a)	15mm dia. CPVC Pipe	Rmt.	15.00		
b)	20mm dia. CPVC Pipe	Rmt.	7.00		
11	Providing & Fixing Chain Clay Hand Wash Basin				
	Providing vitreous China clay hand wash basin with nickel plated pillar cock and stop cock rubber plug and chain of approved quality and make conforming to ISI specifications and fixing to wall including two coats of enamel painting to brackets as directed. The basin to be fixed on teak wood plugs in wall (Rate includes waste pipe upto floor trap comprising of flexible PVC pipe and one flexible white colour PVC inlet connection pipe also to be provided).size: 550mm x 440mm. "A" grade. Make: Hindware, Pariware/ equivalent	Nos.	2		
12	Providing and fixing rectangular mirror				
	Providing and fixing rectangular mirror of size 600x450 over washbasin including necessary screws,plugs etc as per detail and direction. Make: Saint Globin / Equalient	Nos.	2		
13	Supply and fixing 15mm dia C.P pillar cock				
	Supply and fixing 15mm dia C.P pillar cock with C.P wall flange etc., As per the directions of engineer in- charge of work and architect drawing.Makes:Jaquar Continental/Spectrum	Nos.	3		

14	Supply and fixing of C.P brass concealed stop cock				
	Supply and fixing of C.P brass concealed stop cock with wall flange. As per the directions of engineer in-charge of work and architect drawing. Makes:Jaquar Continental/Spectrum				
a)	15mm dia.	Nos.	3		
b)	20mm dia.	Nos.	2		
15	Supply and fixing of C.P brass concealed Angle cock				
	Providing and fixing angle stop cock 15mm nominal size with delux handles,59mm,125mm and 42mm breadth with 12mm seat dia.And replaceable washers,weighing not less than 90gms.Provided with flange of 56mm dia, of approved quality colour and make As per the directions of engineer in-charge of work and architect drawing. Makes:Jaquar Continental/Spectrum	Nos.	2		
16	Supply and fixing soil waste PVC pipe				
	Supply, fixing and testing PVC soil and waste vent pipes (SWR) conforming to IS 4985 with rubber ring (conforming to IS 5382) join inclusive of all necessary specials like bends,T's, offsets, door bends, junctions, cowls etc., laid under floor/ fixed on walls, and in pipe shafts etc., complete.				
a)	75mm dia. PVC Pipe	Rmt.	11.00		
b)	110mm dia. PVC Pipe	Rmt.	7.00		
17	Supply and fixing Gully Trap or P Trap	Nos.	3		
18	Providing & fixing One way tap	Nos.	2		

19	Inside Painting				
	Providing 2 coats of plastic emulsion paint for wall etc of approved colour & shade over one coat of primer and putty including necessary scaffolding etc complete. (Wall & Ceiling Painting)	Sft	3765.00		
20	Enamel Painting for Ventilators				
	Providing enamel paint of approved shade & make for doors & windows over a coat of primer etc complete as directed.	Sft	848.00		
21	FRP DOORS				
	Providing and fixing of pigment finished of approved colour FRP Door, Frame made out of 63 x 75 mm FRP section and shutter made out of 150 x 21 mm sal wood reinforced FRP section for styles and lock rail and panel filling with 5 mm thick FRP mould. This shall be as per approved drawings, specifications and directions including the cost of 4 Nos. Stainless steel hinges, 2 Nos. 150 mm Stainless steel tower bolt, 1 No. 250 mm x 16 mm Stainless steel aldrop including conveyance, manufacturing, etc., all complete.	Sft	37.00		
22	ALLUMINIUM WINDOWS & VENTILATORS				
	Providing and fixing Powder Coated Alluminium Ventilators as per approved Drawing made out of jindal sections including necessary rubber gasket, fittings etc.Complete	Sft	262.00		
23	WATER PROOF TREATMENT FOR TERRACE				

	Providing water proofing using a) Anchor grip composite plastic waterproofing membrane of th. 1 to 1.20mm using NSA tilte adhesive b) Plain cement concrete of Mix 1:2:4 with OPC @ 240kgs, with 20mm and down size graded granite metal coarse aggregates @ 0.878 cum and fine aggretes @ 0.53cum, machine mixed, concrete laid in layers not exceeding 15 cms. thick, (c) Finishing the surface with 20mm thick joint less cement mortar of mix 1:4 admixed with proprietary water proofing compound with smooth finish with proper slope. (d) The whole terrace so finished shall be flooded with water for a minimum period of two weeks for curing and for final test including cost of materials, labour complete as per specifications.
